

# Steering the Clinical Translation of Delivery Systems for Drugs and Health Products

**CRS ITALY CHAPTER  
ANNUAL WORKSHOP**

Catania, November 7th - 9th, 2019

## **Technical presentations:**

### **Liposome Size Targeting with Microfluidic flow focusing**

*Alexander Armitstead  
Dolomite Microfluidics*

Dolomite manufactures novel microfluidic continuous flow technologies which offer an attractive solution for the synthesis of small and narrow size liposome particle distributions. We will also present our latest research and encapsulation methods tested using Dolomite Liposome Synthesis Systems.

### **BÜCHI B-90 Spray Dryer technologies: advanced formulations for biomedical applications**

*Emanuela F. Craparo e Fabio S. Palumbo,  
Lab. of Biocompatible Polymers, Dept. STEBICEF, University of Palermo, Italy*

*BÜCHI Italia S.r.l., Cornaredo, Italy*
