Subject: [SPF-fail] Reminder: Call for Papers: Special Issue 'Post-Transcriptional Gene Regulation by Ribonucleoprotein Complexes' - IJMS (ISSN 1422-0067)
Date: March 25, 2013 3:06:38 PM GMT+01:00
To: dcorona@unipa.it
Reply-To: ijms@mdpi.com

Dear Dr. Corona,

We contacted you on 11 December 2012, regarding a Special Issue on "Post-Transcriptional Gene Regulation by Ribonucleoprotein Complexes" to be published in The International Journal of Molecular Sciences - IJMS (ISSN 1422-0067, <http://www.mdpi.com/journal/ijms>).

On behalf of the Guest Editor, Dr. Kotb Abdelmohsen, we would like to renew our invitation for you to contribute a full research paper or an outstanding long review for peer-review and possible publication in the following Special Issue:

Special Issue: Post-Transcriptional Gene Regulation by Ribonucleoprotein Complexes
Website: <http://www.mdpi.com/si/ijms/ribonucleoprotein-complexes>
Guest Editor: Dr. Kotb Abdelmohsen
Deadline for manuscript submissions: 30 June 2013

If you decide to contribute, please let us know, and send us your manuscript now or up until the deadline. Submitted papers should not have been published previously, nor be under consideration for publication elsewhere. We also encourage authors to send us their tentative title and short abstract by e-mail for approval to the Editorial Office at: ijms@mdpi.com.
In case you cannot meet the deadline, please feel free to contact us.

This Special Issue will be fully open access. Open access (unlimited and free access by readers) increases publicity and promotes more frequent citations as indicated by several studies. Open access is supported by the authors and their institutes.
More information is available at <http://www.mdpi.com/about/openaccess/>.

The Article Processing Charges (APC) for publication in this open access journal are 1600 CHF (Swiss Francs).
For details see: <http://www.mdpi.com/about/apc/>.

Please visit the Instructions for Authors before submitting a manuscript:
<http://www.mdpi.com/journal/ijms/instructions/>.
Manuscripts should be submitted through the online manuscript submission and editorial system at
<http://www.mdpi.com/user/manuscripts/upload/>.

The International Journal of Molecular Sciences - IJMS (ISSN 1422-0067) is an open access journal providing an advanced forum for chemistry, molecular physics and molecular biology. It is published by MDPI online monthly. Papers published in the IJMS will receive high publicity since the journal is freely available online.
IJMS is covered by leading indexing services, including PubMed (Medline), the Science Citation Index Expanded (Web of Science) and Chemical Abstracts. Full-text articles are also available through PubMed Central. The most recent Impact Factor for the year 2011 is 2.598.

MDPI publishes several peer-reviewed, open access journals listed at <http://www.mdpi.com/>. The Editorial Board members, including several Nobel Laureates (<http://www.mdpi.com/about/nobelists/>), are all leading active scholars. All MDPI journals maintain rapid, yet rigorous, peer-review, manuscript handling and editorial processes. MDPI journals have increased their impact factors, see "2011 Newly Released Impact Factors", <http://www.mdpi.com/about/announcements/235/>.

In case of questions, please contact the Editorial Office at: ijms@mdpi.com

We are looking forward to hearing from you.

Kind regards,
Fabienne Fischer
