FENS Federation of
European Neuroscience
Societies

Call for Symposium and Technical Workshop Proposals

10th FENS Forum of Neuroscience

July 2-6, 2016 | Copenhagen, Denmark

Organized by the Federation of European Neuroscience Societies (FENS)

Hosted by the Danish Society for Neuroscience

➔ Submission of proposals: February 2 – March 2, 2015

The Programme Committee will establish the scientific programme of the FENS Forum 2016 on the basis of proposals from scientists from all over the world and all areas of neuroscience research.

For instructions and application for symposium and technical workshop proposals, please connect to
<http://forum.fens.org/2016>

➔ A must in Europe for neuroscientists all over the world

WELCOME

Dear Colleagues,

On behalf of FENS, I would like to welcome all delegates to the 9th FENS Forum of Neuroscience, in Milan.

The biennial FENS Forum provides a unique opportunity to meet and discuss the most recent advances in basic neuroscience and research on the many disorders of the brain. The programme of the FENS Forum is outstanding, and attracts a world-wide audience. It includes plenary and special lectures, a variety of symposia, technical workshops; all selected from ideas proposed by the neuroscience community. As always, a large part of the Forum is devoted to poster presentations, to allow stimulating interaction between participants.

The 9th FENS Forum is hosted by the Italian Society of Neuroscience. We thank the Host Society Committee, chaired by Marina Bentivoglio, for preparing a very attractive programme of scientific and social events. No doubt, this will contribute to turning the 9th FENS Forum into a memorable experience.

We also thank all the FENS' member societies and our partners for their continued support. It is through a joined effort that we can make FENS and its Forum a success.

We very much hope that you will enjoy all aspects of the FENS Forum 2014 in Milan!

Marian Joëls
FENS President

A handwritten signature in black ink that reads "Marian Joëls". The signature is fluid and cursive, with a long horizontal line extending from the end of the last name.

FENS ORGANISATION

FENS Governing bodies

FENS Governing Council

The FENS Governing Council consists of representatives from the FENS member societies and members of the Executive Committee.

FENS Executive Committee

Marian Joëls, The Netherlands, President
Sigismund Huck, Austria, Secretary-General
Mike G. Stewart, United Kingdom, Treasurer
Kyriáki Thermós, Greece, Chair Communication Committee
Marina Bentivoglio, Italy, Chair Host Society Committee
Fernando de Castro, Spain, interim Chair NENS Committee
Silvia Arber, Switzerland, Chair Programme Committee
Martine Ammassari-Teule, Italy, Chair Schools Committee

FENS Advisory Board

Monica Di Luca, Italy, President-elect
Sten Grillner, Sweden, Past President
Marianne Amalric, France, Secretary General-elect
Vincent Prévot, France, Treasurer-elect

FENS Standing Committees

Communication Committee

Kyriáki Thermós, Greece, Chair
Javier Cudeiro, Spain
Małgorzata Kossut, Poland
Flavio Moroni, Italy
Yves Tillet, France

NENS Committee

Fernando de Castro, Spain, interim Chair
Ferdinando Rossi (Deceased), Italy
Anne King, United Kingdom
Heiko Luhmann, Germany
Tomi Taira, Finland

Schools Committee

Martine Ammassari-Teule, Italy, Chair
László Acsády, Hungary
Verity J. Brown, United Kingdom
Kerstin Krieglstein, Germany
Rebecca Matsas, Greece

Programme Committee

See FENS Forum Organisation (page 05)

FENS Special Committees

FENS Featured Regional Meeting (FFRM) Committee

Monica Di Luca, Italy, Chair
Silvia Arber, Switzerland
Leonidas Stefanis, Greece
Martine Ammassari-Teule, Italy
Ferdinando Rossi (Deceased), Italy
Marian Joëls, The Netherlands

Committee on Animals in Research

Roberto Caminiti, Italy, Chair
Micky Goldberg, United States
François Lachapelle, France
Roger Lemon, United Kingdom
Pieter Roelfsema, The Netherlands
Stefan Treue, Germany

History of Neuroscience Committee

Helmut Kettenmann, Germany, Chair
Michael Hagner, Switzerland
Ulf Norrsell, Sweden
Kyriáki Thermós, Greece
Nicholas Wade, United Kingdom

Neuroscience Conferences Committee

Pico Caroni, Switzerland, Chair
Tobias Bonhoeffer, Germany
Ray Dolan, United Kingdom
Ole Kiehn, Sweden
Richard Morris, United Kingdom

Travel Grants

The following organisations have sponsored students and young investigators to attend the FENS Forum.

National Member Societies

- Austrian Neuroscience Association: 5 grants of € 500
- Belgian Society for Neuroscience: 6 grants € 350
- French Neuroscience Society: 35 grants of € 500
- German Neuroscience Society: 20 grants of € 500
- Hellenic Society for Neuroscience: 4 grants of € 500
- Lithuanian Neuroscience Association: 3 grants of € 300
- National Neuroscience Society of Romania: 3 grants of € 400
- Polish Neuroscience Society: 5 grants of € 500
- Sociedad Española de Neurociencia: 30 grants of € 350
- Sociedade Portuguesa de Neurociências: 10 grants of € 500

International Societies

FENS acknowledges Kenes Group for its generous contribution to its travel grant programme.

Society for Neuroscience (SfN): 15 grants of \$ 2000

R&D Systems: 10 grants of \$ 1000

FENS IBRO/PERC

FENS IBRO/PERC grants: 160 travel grants of € 750

ACKNOWLEDGEMENTS

On behalf of the organisers, FENS wishes to thank the invited speakers and chairpersons who have accepted to contribute to the scientific programme, as well as all neuroscientists who have submitted symposia and workshop proposals to the Forum Programme Committee to establish the present scientific programme. The organisers also wish to thank the great number of scientists who submitted their abstracts for poster presentations, thus contributing to a large extent to the success of the FENS Forum 2014 in Milan.

Management and organisation

- » FENS Offices in Brussels and Berlin
- » Host Society Committee, Milan & Verona
- » Kenes International

In addition the organisers would like to thank:

- » The FENS - IBRO/PERC Travel Grant Committee:
Sigismund Huck
Marianne Amalric
Silvia Arber
Mike Stewart
Micaela Morelli
Alessandro Vercelli
Pavla Jendelová
Gabriel Róbert
- » The French Society of Neuroscience:
Dominique Poulain, Clémence Fouquet and Jean-Francis Renaudon

SUPPORTERS & CONTRIBUTORS

The organisers of the FENS Forum 2014 would like to express its gratitude and acknowledge the following long term partner organisations for their continued support to FENS:

- » Boehringer Ingelheim
- » European Journal of Neuroscience
- » International Brain Research Organization (IBRO)
- » The Brain Prize, Grete Lundbeck European Brain Research Foundation
- » The Dana Foundation
- » The European Dana Alliance for the Brain (EDAB)
- » The Hertie Foundation
- » The Kavli Foundation
- » Wiley

The organisers would like to express its gratitude and acknowledge the following organisations and institutions for their support and contribution to the FENS Forum 2014:

Supporters:

- » Kenes Group
- » Università degli Studi di Milano

Contributors:

- » 9th IBRO World Congress of Neuroscience
- » Abcam
- » Acraf S.p.A.
- » Alomone Labs. Ltd.

PLENARY AND SPECIAL LECTURES

PLENARY LECTURES | Hall A

Saturday, July 05, 2014

18:00 - 19:00

PL01 - **Ray Dolan** (London, United Kingdom)
Reward, value and psychopathology
Kavli Foundation Lecture
Introduced by: Marian Joëls

Sunday, July 06, 2014

08:30 - 09:30

PL02 - **Anna Christina Nobre** (Oxford, United Kingdom)
Temporal expectations: the fourth dimension in attention
Introduced by: Sigismund Huck

17:30 - 18:30

PL03 - **Pico Caroni** (Basel, Switzerland)
Adjusting brain circuits for learning and memory
Introduced by: Richard Morris

Monday, July 07, 2014

08:30 - 09:30

PL04 - **Yang Dan** (Berkeley, USA)
Neuromodulation of brain states
Introduced by: Silvia Arber

17:30 - 18:30

PL05 - **Huda Zoghbi** (Houston, USA)
Rett and MECP2-associated disorders:
from patients to genes and neurobiology
Presidential Lecture
Introduced by: Marian Joëls

Tuesday, July 08, 2014

08:30 - 09:30

PL06 - **Gilles Laurent** (Frankfurt, Germany)
Explorations of a simple visual cortex
Introduced by: Sten Grillner

17:30 - 18:30

PL07 - **Yoshiki Sasai** (Kobe, Japan)
Self-organization of neural structures and
patterns in 3D stem cell culture
Introduced by: Botond Roska

Wednesday, July 09, 2014

08:30 - 09:30

PL08 - **Christine Holt** (Cambridge, United Kingdom)
Building connections: RNA-based mechanism of
axon guidance
Introduced by: Monica Di Luc

13:00 - 14:00

PL09 - **Svante Pääbo** (Leipzig, Germany)
Of Neandertals, Denisovans and Modern Humans
Hertie Foundation Lecture
Introduced by: Rui Costa

SPECIAL LECTURES

Sunday, July 06, 2014

12:30 - 14:00 | **Hall A**

SL01 - Grete Lundbeck European Brain Research Foundation/The Brain Prize 2013

Ed Boyden (Boston, USA)

Optogenetic tools for controlling neural activity with light

Georg Nagel (Wurzburg, Germany)

Channelrhodopsin et al., photoreceptors and optogenetic applications

Gero Miesenböck (Oxford, United Kingdom)

Lighting up the brain

Introduced by: Colin Blakemore

13:00 - 13:45 | **Hall B**

SL02 - EBBS/Behavioural Brain Research Prize

Carmen Sandi (Lausanne, Switzerland)

Stress and the social brain - from aggression and social hierarchies in rodents to social economic decision making

Introduced by: Martine Ammassari-Teule

Monday, July 07, 2014

13:00 - 13:45 | **Hall B**

SL03 - Host Society Special Lecture

Pietro De Camilli (New Haven, USA)

Cell biology of the neuron: Membrane lipid dynamics in the regulation of synaptic function

Introduced by: Michela Matteoli

13:00 - 13:45 | **Hall C**

SL04 - EDAB/Max Cowan Special Lecture

Dennis O'Leary (La Jolla, USA)

Genetic and extra-genetic regulation of cortical area patterning

Introduced by: Colin Blakemore

13:00 - 13:45 | **Hall J**

SL05 - Boehringer-Ingelheim/FENS Research Award

Judit Makara (Budapest, Hungary)

Processing of correlated synaptic input by dendrites

Introduced by: Bernd Sommer

Tuesday, July 08, 2014

12:30 - 14:00 | **Hall J**

SL06 - Foundation IPSEN/Neuronal Plasticity Prize

Barry J. Everitt (Cambridge, United Kingdom)

Neural plasticity, maladaptive learning and memory in addiction: implications for relapse prevention and abstinence

George F. Koob (La Jolla, USA)

Neuroplasticity in the brain stress systems in addiction

Michel Le Moal (Bordeaux, France)

Transition to addiction: a role for intrinsic individual vulnerabilities

Introduced by: Yves Christen and Nikos Logothetis

13:00 - 13:45 | **Hall C**

SL07 - IBRO - Kemali Prize

Patrik Verstreken (Leuven, Belgium)

Mitochondrial and presynaptic dysfunction in Parkinson's disease

Introduced by: Pierre Magistretti

13:00 - 13:45 | **Hall B**

SL08 - Eric Kandel Prize Lecture

Sonja Hofer (Basel, Switzerland)

Neural dynamics in visual cortex during learning

Introduced by: Tony Movshon

Wednesday, July 09, 2014

11:45 - 12:45 | **Hall J**

SL09 - FENS-EJN Awards Lectures

Alexander Borst (Martinsried, Germany)

In search of the Holy Grail of fly motion vision

Emre Yaksi (Leuven, Belgium)

Studying neural circuits mediating fear in zebrafish brain

Introduced by: Jean-Marc Fritschy and Martin Sarter

11:45 - 12:45 | **Hall B**

SL10 - ERA NET NEURON/Excellent Papers in Neuroscience Awards 2013

Nadia Kaouane (Vienna, Austria)

Glucocorticoids can induce PTSD-like memory impairments in mice, in SCIENCE

Introduced by: Erkki Raulo

SPECIAL INTEREST EVENTS

Saturday, July 5, 2014

15:45 - 17:15 | Hall A

SiE01 - **EJN Special Feature - Modern neurocircuitry analysis**

Sunday, July 6, 2014

18:45 - 20:45 | Hall H

SiE02 - **Women in Neuroscience (WiN)**

18:45 - 21:00 | Hall E

SiE03 - "Implementation of the EU Directive 63-2010 and international actions for promoting the use of animals in scientific research" FENS CARE event

18:45 - 20:45 | Hall C

SiE04 - **William Safire Seminar on Neuroethics**

Monday, July 7, 2014

12:30 - 13:00 | Hall C

SiE05 - **Neuroscience Outreach Awards Programme comprising of the EDAB-FENS Brain Awareness Week (BAW) Excellence Award & the Dana/EDAB Neuroscience Outreach Champion**

18:45 - 21:00 | Hall F

SiE06 - **Building your Career: non-academic opportunities**

Tuesday, July 8, 2014

18:45 - 21:15 | Hall F

SiE07 - **Global Advocacy Event**

18:45 - 19:30 | Hall G

SiE08 - **New perspectives and training for education in Neuroscience**

OPENING CEREMONY & NETWORKING EVENTS

Saturday, July 5, 2014

17:15 -18:00

Opening Ceremony

Venue: Mico Congress Center - Hall A

Attendance: For all attendees

Welcome address by Marina Bentivoglio, Chair of the Host Society Committee, Pierfrancesco Majorino of the Municipality of Milan and Mario Melazzini of the Region of Lombardy. Musical interlude courtesy of "Fanfara del Comando, 1^a Regione Aerea dell'Aeronautica Militare Italiana".

Official opening of the FENS Forum 2014 by FENS President, Marian Joëls.

19:00 - 22:00

Symposium in honour of the Late Ferdinando Rossi: A passionate journey through the cerebellar mysteries

Venue: Mico Congress Center, Hall F

Host: Department of Neuroscience Rita Levi Montalcini, University of Turin

To pay tribute to Ferdinando we have organised a passionate journey through cerebellar development and functions, with lectures given by close friends and collaborators of Ferdinando.

All day events

History Corner exhibition

Venue: Mico Congress Center, History Corner, Level 2

Host: FENS - Host Society Committee and History of European Neuroscience Committee

Visibility of history of neuroscience: exhibits of history materials from FENS History awardees and their colleagues.

All day events

The Smile of the Mind exhibition

Venue: Mico Congress Center, History Corner, Level 2

Host: FENS: Host Society Committee and History of European Neuroscience Committee

A history of Neuroscience illustrated through the use of caricature on facts and people who gave a contribution to the development of "Smile of the Mind".

Sunday, July 6, 2014

18:45 - 20:00

Neurogastronomy, the 'brain cuisine' presented by Gordon M. Shepherd

Venue: Mico Congress Center, Hall G

Host: FENS & HSC

Gordon M. Shepherd will discuss how the human brain processes olfaction and taste, through "microcircuits" of synaptic interactions and neural networks, and the significance of this processing in evolution.

18:45 - 22:30

Big Questions in Neuroscience

Venue: Mico Congress Center, Piazzale Carlo Magno, 1, Milan, Hall F

Host: Cell Press: Neuron and Trends in Neuroscience

Contact person(s): Mariela Zirlinger, Andrew Clark

E-mail: mzirlinger@cell.com; aclark@cell.com

What are the major questions that must be tackled to propel the field forward in the coming years? Focusing on everything from policy to specific gaps in our understanding of the nervous system, this social will be a moderated roundtable discussion featuring a panel of leading scientists (Kia Nobre, David Fitzpatrick, Yang Dan, Rui Costa, Yukiko Goda, and Ed Boyden). Come join the conversation! To RSVP for this event, login to bit.ly/neuroevent.

18:45 - 20:30

YITP meeting

Venue: Mico Congress Center, Hall D2

Host: YITP

YITP fellows and their hosts in Italian laboratories will be invited to attend a symposium during which 4 selected YITP fellows will present their research.

By invitation only

19:00 - 21:00

International Synapse Championships

Venue: Mico Congress Center, Hall D1

Host: IINS Bordeaux (CNRS / France) and University of Utrecht (The Netherlands)

6-8 researchers from the field of synaptic proteins will compete against each other on stage by naming a synaptic protein that has not been named before. If they cannot come up with a new one and all jokers have been used, they are eliminated and the game goes on until there is only the winner left.

18:45 - 21:00

International Society for Serotonin Research Social Gathering

Venue: MILANO Cafè, Via Procaccini 37, Milan

Host: International Society for Serotonin Research

Ubiquitously spread across Europe, Serotonin researchers will gather at this time and space to discuss the virtues of our favourite neurotransmitter. Don't miss the chance to exchange anecdotes with Susan Dymecki, Harry Steinbusch, Alexandre Dayer, Cornelius Gross and Patricia Gaspar, among others.

Monday, July 7, 2014

18:45 - 20:30

Educational Course on: Manuscript and grant writing, effective poster or talk preparation (day 1)

Venue: Mico Congress Center, Hall E

Host: YITP

A 3 day Educational Course (5h in total), this course is specifically designed for PhD students and young post-doctorate fellows. Registration is required.

18:45 - 20:00

Trisomy 21 Research Society Social Gathering

Venue: Mico Congress Center, Suite 4

Host: Trisomy 21 Research Society

This event is organized for neuroscientists and clinicians interested in finding new collaborators and resources in the field of Down syndrome and Alzheimer's research. This event is free, but requires registration.

18:45 - 22:30

Neuroinformatics social - networking data, tools and people

Venue: Mico Congress Center, Hall H

Host: International Neuroinformatics Coordinating Facility

Informal social event for neuroscientists interested in finding new collaborators and resources. INCF coordinates collaborative informatics infrastructure for neuroscience data integration and manages scientific programs to develop standards for data sharing, analysis, modeling and simulation in brain research.

18:45 - 22:30

Meet top scientists and experts from German funding organizations at a speed-dating event

Venue: Museo Nazionale della Scienza e della Tecnologia Leonardo da Vinci

Host: Research in Germany (German Research Foundation, DFG)

Take the opportunity to get in touch with internationally renowned scientists working in Germany and representatives of German funding organizations. Talk about your research career plans and discuss your questions about the German research landscape and its funding opportunities. This event is free, but requires registration.

19:30 - 03:00

Jump the FENS Party

Venue: Alcatraz, Via Valtellina, 25, Milan

This party is organized by students for everyone to "jump" the heavy scientific content of the Forum and have fun. Food, drink, magic, music... perfect ingredients for an unforgettable night!

Tickets available from the FENS Student Booth.

Tuesday, July 8, 2014

18:45 - 21:00

Next generation networks in neuroscience

Venue: Mico Congress Center, Hall D

Host: ERA-NET NEURON in collaboration with NENS

Networking event for young scientists. Information about European transnational mobility, training, and research collaboration options.

18:45 - 20:30

Educational Course on: Manuscript and grant writing, effective poster or talk preparation (day 2)

Venue: Mico Congress Center, Hall E

Host: YITP

A 3 day Educational Course (5h in total), this course is specifically designed for PhD students and young post-doctorate fellows.

18:45 - 20:00

Starting your independent research career - Learn what Germany can do for you

Venue: Mico Congress Center, Hall H

Host: Research in Germany (German Research Foundation, DFG)

This information seminar addresses researchers at an early stage of their scientific careers. Programme officers from the German Research Foundation (DFG) will deliver insight into the German research landscape and various funding programmes as well as application and review procedures. Furthermore, grantees will share their experiences relating to their scientific careers and grant writing.

Wednesday, July 9, 2014

14:15 - 16:15

Educational Course on: Manuscript and grant writing, effective poster or talk preparation (day 3)

Venue: Mico Congress Center, Hall E

Host: YITP

A 3 day Educational Course (5h in total), this course is specifically designed for PhD students and young post-doctorate fellows.

BUSINESS MEETINGS

The following business meetings will take place during the FENS Forum

Date	Time	Room	Meeting
Friday, July 4	09:00 - 17:30	Suite 9	FENS Executive Committee Meeting
Saturday, July 5	08:00 - 10:00	Suite 8	IBRO Executive Committee
	08:30 - 17:00	Hall C	FENS Governing Council Meeting Part I
	19:15 - 22:00	Suite 8	EBBS Committee Meeting
Sunday, July 6	08:00 - 09:00	Suite 8	SfN-IBRO Meeting
	09:30 - 12:00	Suite 8	IBRO Pan-Europe Regional Committee
	10:30 - 11:15	Suite 9	FENS ISN Meeting
	12:00 - 14:30	Suite 7	Annual CARE Committee Meeting
	13:00 - 15:30	Suite 8	NWG Board Meeting
	18:30 - 20:00	Suite 7	General Assembly, Sociedade Portuguesa de Neurociências
	18:30 - 21:00	Suite 6	Meeting of Board and Scientific Committee of Spanish Society for Neuroscience
	18:30 - 20:00	Suite 8	NWG Annual General Meeting
Monday, July 7	10:30 - 11:15	Suite 8	IBRO Global Advocacy Committee Meeting
	11:30 - 13:30	Suite 7	ANA General Assembly 2014
	12:00 - 14:30	Suite 8	EJN Editorial Board Meeting Lunch
	12:00 - 14:00	Suite 9	FENS CARE National Liaisons Meeting
	13:00 - 14:00	Suite 6	FENS Communication Committee Meeting
	14:00 - 15:00	Suite 9	FENS History of European Neuroscience Committee Meeting
	14:00 - 16:00	Suite 7	Neuropsychologia Editorial Meeting
Tuesday, July 8	08:00 - 09:00	Suite 9	FENS SfN Meeting
	10:30 - 12:00	Suite 8	IBRO-Kemali Foundation Meeting
	14:30 - 15:30	Suite 9	FENS-Asia Pacific Meeting
	18:00 - 18:30	Suite 8	NENS Committee Meeting
	19:40 - 21:00	Hall C	AGM of NENS Schools Directors and Coordinators
Wednesday, July 9	08:00 - 09:00	Suite 9	FENS IBRO Meeting
	14:30 - 16:30	Hall C	FENS Governing Council Meeting Part II

SATELLITE EVENTS

The satellite events related to the FENS Forum 2014 have all qualified state-of-the-art scientific programmes. Although FENS is not involved in their preparation and organization, they are highly recommended by the FENS Programme Committee.

July 3, 2014 - July 4, 2014

Brain plasticity of the vestibular and ocular motor systems

Venue: Villa del Grumello, Lago di Como, Via per Cernobbio, 11, Como (22100), Italy
Organizers: Barry Seemungal - Imperial College; Stefano Ramat - University of Pavia; Stefan Glasauer - Ludwig-Maximilians-Universität
Contact person: Barry Seemungal, +44 7905 364 392 / +44 20 331 17712
E-mail: cnsplasticity@gmail.com | b.seemungal@imperial.ac.uk
Website: www.cnsplasticity.net

July 3, 2014 - July 4, 2014

Motor neuron diseases: molecular and cellular basis of selective vulnerability

Venue: Università degli Studi di Milano, Sala Napoleonica, via Sant'Antonio 10, Milano, Italy
Organizers: Caterina Bendotti, Giambattista Bonanno, Angelo Poletti
Contact persons: Caterina Bendotti, +39-(0) 239014488; Giambattista Bonanno, +39 010 3532658
E-mail: caterina.bendotti@marionegri.it | bonano@difar.unige.it
Website: <http://users.unimi.it/triplet/2014/>

July 3, 2014 - July 4, 2014

Nutrition for the aging brain: toward evidence for an optimal diet

Venue: Klima Hotel Milano Fiere, Milan, Italy
Organizers: International Life Sciences Institute, European Branch
Contact persons: Marie Latulippe, +32 (0)2 775.91.21; Ruth Marquet, +32 (0)2 775.91.40
E-mail: mlatulippe@ilsieurope.be | rmarquet@ilsieurope.be
Website: www.ilsi.org/Europe/Pages/Events.aspx

July 3, 2014 - July 4, 2014

European Molecular and Cellular Cognition Society (EMCCS) - FENS 6th meeting

Venue: Istituto di Ricerche Farmacologiche Mario Negri, Via La Masa 19, Milan (20156), Italy
Organizers: Riccardo Brambilla (Milano, Italy); Kobi Rozenblum (Haifa, Israel); Angel Barco (Alicante, Spain)
Contact persons: Riccardo Brambilla, +390226434876; Angel Barco, +34965919232
E-mail: brambilla.riccardo@hsr.it | abarco@umh.es
Website: www.marionegri.it/mn/en/index.html?l=en

July 4, 2014

Biologically-based models of neurons and microcircuits

Venue: University of Pavia, Pavia (I-27100), Italy
Organizers: Egidio D'Angelo; Jeanette Kotaleski
Contact persons: Egidio D'Angelo, +39 0382 987606; Jeanette Kotaleski
E-mail: dangelo@unipv.it | jeanette@nada.kth.se
Website: www-5.unipv.it/dangelo/

July 4, 2014

Synapses as a therapeutic targets for autism spectrum disorders

Venue: Pavia, aula Golgi (Golgi museum), Pavia (27100), Italy

Organizers: Paolo Curatolo; Enrico Cherubini

Contact persons: Enrico Cherubini, +39-040-3787704; Paolo Curatolo, +39-335-8348921

E-mail: cher@sissa.it | curatolo@uniroma2.it

Website: www.ptsroma.it/fensautism/

July 4, 2014

Understanding sleep: novel perspectives in Neurosciences

Venue: Aula Crociera, University of Milan, via Festa del Perdono 7, Milan (20122), Italy

Organizers: European Sleep Research Society

Contact persons: Lino Nobili, +393497486945; Philippe Peigneux, +32 2 650 26 39

E-mail: Lino.nobili@ospedaleniguarda.it | philippe.peigneux@ulb.ac.be

Website: www.esrs.eu/conferences-events/esrs-sponsored-events.html

July 4, 2014

Drug addiction and psychiatric comorbidity: factors of vulnerability and therapeutic targets

Venue: Department of Structural and Functional Biology, Neuroscience Center,

University of Insubria, Busto Arsizio, Italy

Organizers: Marc Landry; Maria Paz Viveros (on behalf of the Mediterranean Neurosciences Society)

Contact persons: Marc Landry, +61 4 13745036; Maria-Paz Viveros, +34 91 3944993

E-mail: marc.landry@u-bordeaux2.fr | pazviver@bio.ucm.es

July 4, 2014

The power of stripes: zebrafish in neuroscience, toxicology, and behavioral research

Venue: MODULO 3, ADI Hotel Poliziano Fiera, Via Angelo Poliziano, 11, Milan (20154), Italy

Organizers: Noldus Information Technology

Contact persons: Ruud Tegelenbosch, 0031-317473300; Sabine van der Meijde, 0031-317-473300

E-mail: seminars@noldus.nl | seminars@noldus.nl

Website: www.noldus.com/event/fens-satellite-striped-power-zebrafish-new-model-neuroscience-behavior-and-toxicology

July 4, 2014 - July 5, 2014

Advocacy and transparency on animals in research. A FENS - SfN joint event

Venue: MiCo Convention Center, Milan (20149), Italy

Organizers: FENS (CARE) - SfN event

Contact person: Tatjana Butzek,

E-mail: tanja.butzek@fens.org

July 5, 2014

EJN Training Seminars: How to Successfully Publish Your Research

Venue: MiCo Convention Center, Milan (20149), Italy

Organizers: European Journal of Neuroscience (EJN)

Contact person: Sophie Gavarini, +41 44 63 55990

E-mail: editorial.office@ejneurosci.org

July 10, 2014 – July 12, 2014**Summer School on "Synapse dynamics in circuit formation, learning and disease"**

Venue: Villa Vigoni, German-Italian Centre for European Excellence, Via Giulio Vigoni, 1, Loveno di Menaggio (CO) (22017), Italy

Organizers: Marie-Curie ITN NPlast

Contact persons: Christina Spilker, +49-391-626394171; Michael R. Kreutz, +49-391-626394181

E-mail: spilker@lin-magdeburg.de | kreutz@lin-magdeburg.de

Website: www.nplast.de/index.php/summerschool2014

July 10, 2014 – July 11, 2014**Multiple mechanisms of neurodegeneration and progression**

Venue: Hotel Splendid - Baveno (Lago Maggiore), Strada Statale del Sempione, 12, 28831- Baveno, Italy, Baveno (28831), Italy

Organizers: María Trinidad Herrero & Micaela Morelli & Neurotoxicity Society (NTS)

Contact persons: María Trinidad Herrero, +34609441977; Micaela Morelli, +390706758663

E-mail: ezquerro@uji.es | morelli@unica.it

Website: www.itb.cnr.it/web/fens2014/home

July 10, 2014**The many faces of stress**

Venue: Università degli Studi di Milano, Sala Napoleonica, via Sant'Antonio 10, Milano (20122), Italy

Organizers: Maurizio Popoli, Gerard Sanacora

Contact persons: Maurizio Popoli, +390250318361; Laura Musazzi, +390250318377

E-mail: maurizio.popoli@unimi.it | laura.musazzi@unimi.it

Website: http://users2.unimi.it/fens_stress/index.html

PROGRAMME AT A GLANCE

Saturday, July 5, 2014

12:30 - 15:30	Hall G W01 - From synapses to network oscillations: High resolution recording techniques	Hall D1 W02 - Optical measurement and manipulation of neural circuits in transparent animal models	Hall F W03 - Novel trans-synaptic tracing approaches for functional-anatomical studies of neuronal circuits	Hall D2 W04 - Closed-loop methodology in neural systems	Hall E W05 - New approaches to understand astrocyte-neuron interactions in health and disease	Hall H W06 - Epigenomic landscapes of the adult brain: implications in neuroplasticity and brain disorders
15:45 - 17:15				Hall A SiE01 - EJN Special Feature - Modern neurocircuitry analysis		
17:15 - 18:00				Hall A Opening Ceremony		
18:00 - 19:00				Hall A PL01 - Kavli Foundation Lecture Ray Dolan (London, United Kingdom)		
19:00 - 22:00				Hall F Symposium in honour of the Late Ferdinando Rossi: A passionate journey through the cerebellar mysteries		
All Day Event			Hall B History Corner exhibition		Hall B The Smile of the Mind exhibition	

Colour Key:

PL - Plenary Lecture	SL - Special Lecture
S - Symposium	W - Technical Workshop
SiE - Special Interest Event	Networking Events
	Opening Ceremony

Sunday, July 6, 2014

08:30 - 09:30	Hall A PL02 - Plenary Lecture Anna Christina Nobre (Oxford, United Kingdom)			Poster Area Session I
09:30 - 09:45	Break			
09:45 - 11:15	Hall G	S01 - Emergent concepts in axon guidance		11:15 - 12:15 Odd Number Presentations
	Hall I	S02 - Glutamate-dopamine cross-talk: from signaling pathways to disease		
	Hall J	S03 - Synaptic structure and function illuminated by fluorescence and electron microscopy		
	Hall D	S04 - Gamma oscillations and cognitive processing: linking coordination of individual neurons to behavior		
	Hall E	S05 - Hyperexcitability in fragile X syndrome: too much of a good thing?		
	Hall H	S06 - Emergent principles for rhythm generation in motor systems		
	Hall F	S07 - Locus coeruleus orchestrates attention networks, motivational salience and cognitive flexibility		
	Hall C	S08 - The hedonistic brain: learning, predicting and decision making		
11:15 - 12:30	Break and Poster Viewing Poster Session I			
12:30 - 14:00	Hall A SL01 - Grete Lundbeck European Brain Research Foundation/The Brain Prize 2013 Ed Boyden (Boston, USA) Georg Nagel (Wurzburg, Germany) Gero Miesenböck (Oxford, United Kingdom)		Hall B SL02 - EBBS/Behavioural Brain Research Prize Carmen Sandi (Lausanne, Switzerland) (13:00 - 13:45)	12:15 - 13:15 Even Number Presentations
14:00 - 15:45	Break and Poster Viewing Poster Session II			
15:45 - 17:15	Hall G	S09 - Transcriptional control of tangential neuronal migration in the developing brain		13:30 - 14:30 Odd Number Presentations 14:30 - 15:30 Even Number Presentations
	Hall D	S10 - Decoding serotonergic systems and their impact on cortical circuit formation		
	Hall E	S11 - Development and function of left-right circuit asymmetries in the brain		
	Hall I	S12 - Mechanisms of microglia phagocytosis in health and disease		
	Hall J	S13 - Local protein synthesis: role in memory formation and dysfunction in autism and Alzheimer's disease		
	Hall H	S14 - Spotlight on olfaction: from odorant receptors to behaviour		
	Hall F	S15 - Linking neural circuits to behavior in zebrafish		
	Hall C	S16 - Lateral entorhinal cortex: interface for hippocampal episodic memory		
17:15 - 17:30	Break			
17:30 - 18:30	Hall A PL03 - Plenary Lecture, Pico Caroni (Basel, Switzerland)			
18:30 - 18:45	Break			
18:45 - 21:00	Hall H SiE02 - Women in Neuroscience (18:45 - 20:45)		Hall E SiE03 - Implementation of the EU Directive 63-2010 and international actions for promoting the use of animals in scientific research" FENS CARE event	Hall C SiE04 - William Safire Seminar on Neuroethics (18:45 - 20:45)
	Hall G Neurogastronomy, the 'brain cuisine' presented by Gordon M. Shepherd (18:45 - 20:00)	Hall F Big Questions in Neuroscience (18:45 - 22:30)	Hall D2 YITP meeting (18:45 - 20:30)	Hall D1 International Synapse Championships (19:00 - 21:00)
				Venue: MILANO, Via Procaccini 37 International Society for Serotonin Research Social Gathering (18:45 - 21:00)

COLOUR KEY: ● PL - Plenary Lecture, ● S - Symposium, ● SiE - Special Interest Event, ● SL - Special Lecture, ● W - Technical Workshop, ● Networking Events

Monday, July 7, 2014

08:30 - 09:30	Hall A PL04 - Plenary Lecture Yang Dan (Berkeley, USA)				Poster Area Session III
09:30 - 09:45	Break				
09:45 - 11:15	Hall D	S17 - Human brain development and evolution: new approaches and emerging concepts	Hall F	S18 - Oxytocin and vasopressin: anatomical and molecular pathways to modulate brain circuits and behavior	
	Hall J	S19 - Glia in neuronal information processing: from synapses to behaviour	Hall C	S20 - Neurobiological and neurogenetic bases of the link between sleep, stress and depression	
	Hall E	S21 - Risk factors for vulnerability to addiction	Hall I	S22 - In vivo functional recording of neuronal population activity	
	Hall G	S23 - Control of goal-related actions and behavioural decision processing in the prefrontal cortex	Hall H	S24 - Genetic analysis of neural circuits controlling reproduction	
11:15 - 12:30	Break and Poster Viewing Poster Session III				11:15 - 12:15 Odd Number Presentations
12:30 - 13:45	Hall B SL03 - Host Society Special Lecture Pietro De Camilli (New Haven, USA) (13:00 - 13:45)	Hall C SL04 - EDAB/Max Cowan Special Lecture Dennis O'Leary (La Jolla, USA) (13:00 - 13:45)	Hall J SL05 - Boehringer-Ingelheim/FENS Research Award Judit Makara (Budapest, Hungary) (13:00 - 13:45)	Hall C SiE05 - Neuroscience Outreach Awards Program: Comprising of the EDAB-FENS Brain Awareness Week (BAW) Excellence Award & the Dana/EDAB Neuroscience Outreach Champion (12:30 - 13:00)	12:15 - 13:15 Even Number Presentations
13:45 - 15:45	Break and Poster Viewing Poster Session IV				Session IV
15:45 - 17:15	Hall D	S25 - Regulatory mechanisms of neuronal specification	Hall F	S26 - Voltage-gated calcium channels and synaptic function: from basic mechanisms to disease	
	Hall J	S27 - Post-synaptic plasticity of GABAergic synapses	Hall C	S28 - RNA metabolism: what ALS/FTD has in common with other RNA-related diseases	
	Hall E	S29 - Glioblastoma stem cells in tumor progression and in new therapies	Hall G	S30 - Ramping up resilience: from (epi) genetics, to optogenetics and imaging	
	Hall I	S31 - Basal ganglia networks in health and disease: from synapses to systems	Hall H	S32 - Principles of information coding in human lateral prefrontal cortex	
17:15 - 17:30	Break				
17:30 - 18:30	Hall A PL05 - Presidential Lecture, Huda Zoghbi (Houston, USA)				13:30 - 14:30 Odd Number Presentations
18:30 - 18:45	Break				
18:45 - 21:00	Hall F SiE06 - Building your Career: non-academic opportunities	Hall E Educational Course on: Manuscript and Grant Writing, effective Poster or Talk preparation (18:45 - 20:30)		Suite 4 Trisomy 21 Research Society Social Gathering (18:45 - 20:00)	
	Hall H Neuroinformatics social - networking data, tools and people (18:45 - 22:30)	Museo Nazionale della Scienza e della Tecnologia Leonardo da Vinci Meet top scientists and experts from German funding organizations at a speed-dating event (18:45 - 22:30)		Venue: Alcatraz Jump the FENS Party (19:30 - 03:00)	

COLOUR KEY: ● PL - Plenary Lecture, ● S - Symposium, ● SiE - Special Interest Event, ● SL - Special Lecture, ● W - Technical Workshop, ● Networking Events

Tuesday, July 8, 2014

08:30 - 09:30	Hall A PL06 - Plenary Lecture Gilles Laurent (Frankfurt, Germany)			Poster Area Session V
09:30 - 09:45	Break			
09:45 - 11:15	Hall D S33 - Development and function of GABA circuits Hall F S34 - MicroRNAs in brain development and function Hall C S35 - Protein shuttling in synapse-to-nucleus signalling Hall J S36 - Adult cortical plasticity Hall I S37 - Deciphering the physiology and function of hippocampal area CA2 Hall G S38 - Cell and gene therapy approaches in retinal degenerations Hall B S39 - Coding others' behaviour in the monkey primary motor and premotor cortex Hall H S40 - Pharmacological and optogenetic control of cognition			
11:15 - 12:30	Break and Poster Viewing Poster Session V			11:15 - 12:15 Odd Number Presentations
12:30 - 14:00	Hall J SL06 - Foundation IPSEN/Neuronal Plasticity Prize Barry J. Everitt (Cambridge, UK) George F. Koob (La Jolla, USA) Michel Le Moal (Bordeaux, France)	Hall C SL07 - IBRO - Kemali Prize Patrik Verstreken (Leuven, Belgium) (13:00 - 13:45)	Hall B SL08 - Eric Kandel Prize Lecture Sonja Hofer (Basel, Switzerland) (13:00 - 13:45)	12:15 - 13:15 Even Number Presentations
14:00 - 15:45	Break and Poster Viewing Poster Session VI			Session VI
15:45 - 17:15	Hall H S41 - Axon guidance and targeting of retinal ganglion cells Hall F S42 - Regional diversity of endocannabinoid signaling in action control Hall C S43 - Cortical inhibition in single-neuron computations, network activities and sensory processing Hall E S44 - Variance and Invariants in functional connectivity Hall I S45 - Interaction of genes and environment as risk factors for mental illness Hall J S46 - Axonal transport: basic mechanisms and its pathogenetic role in brain diseases Hall G S47 - What does cross-modal plasticity tell us about the way the senses interact during development? Hall D S48 - The integration of spatial maps across cortical areas			13:30 - 14:30 Odd Number Presentations
17:15 - 17:30	Break			14:30 - 15:30 Even Numbers Presentations
17:30 - 18:30	Hall A PL07 - Plenary Lecture Yoshiki Sasai (Kobe, Japan)			
18:30 - 18:45	Break			
18:45 - 20:30	Hall F SiE07 - Global Advocacy Event (18:45 - 21:15)		Hall G SiE08 - New perspectives and training for education in Neuroscience (18:45 - 19:30)	
	Hall D Next generation networks in neuroscience (18:45 - 21:00)	Hall E Educational Course on: Manuscript and Grant Writing, effective Poster or Talk preparation (18:45 - 20:30)	Hall H Starting your independent research career - Learn what Germany can do for you (18:45 - 20:00)	

COLOUR KEY: ● PL - Plenary Lecture, ● S - Symposium, ● SiE - Special Interest Event, ● SL - Special Lecture, ● W - Technical Workshop, ● Networking Events

Wednesday, July 9, 2014

08:30 - 09:30	Hall A PL08 - Plenary Lecture Christine Holt (Cambridge, United Kingdom)	Poster Area Session VII	
09:30 - 09:45	Break		
09:45 - 11:15	Hall G S49 - Early cortical circuits Hall J S50 - Epigenetic control of neuronal function Hall F S51 - Old but new synaptic organizers: diverse but common mechanisms Hall D S52 - Synaptic deficits in intellectual disability disorders Hall E S53 - Auditory cortical tuning to natural sounds Hall H S54 - Functional and anatomical heterogeneity in the midbrain dopamine system Hall I S55 - The stressed social brain Hall C S56 - Generalization of emotional memories: from neural circuits to anxiety disorders		
11:15 - 12:30	Break and Poster Viewing Poster Session VII	11:15 - 12:15 Odd Number Presentations	
11:45 - 12:45	Hall J SL09 - FENS-EJN Awards Lectures Alexander Borst (Martinsried, Germany) Emre Yaksi (Leuven, Belgium)	Hall B SL10 - ERA NET NEURON/Excellent Papers in Neuroscience Awards 2013 Nadia Kaouane (Vienna, Austria)	12:15 - 13:15 Even Number Presentations
12:45 - 13:00	Break and Poster Viewing Poster Session VII		
13:00 - 14:00	Hall A PL09 - Hertie Foundation Lecture Svante Pääbo (Leipzig, Germany)		
14:15 - 16:00	Hall E Educational Course on: Manuscript and Grant Writing, effective Poster or Talk preparation (14:15 - 16:00)		

COLOUR KEY: ● PL - Plenary Lecture, ● S - Symposium, ● SiE - Special Interest Event, ● SL - Special Lecture, ● W - Technical Workshop, ● Networking Events

9th FENS FORUM OF NEUROSCIENCE

Milan | Italy July 5–9, 2014

Organised by the Federation of European
Neuroscience Societies | FENS

Hosted by the Società Italiana
di Neuroscienze | SINS

GENERAL INFORMATION

www.fens.org/2014

FENS Federation of
European
Neuroscience
Societies

INFORMATION FOR SPEAKERS AND CHAIRPERSONS

The role of the chairpersons is to monitor speaking and discussion times and to lead the discussions. Chairpersons control the switch between presentations. All speakers must submit their presentations in the Speakers' Ready Room, on level 2 of the venue, at least 2 hours before the start of their session in order to check their slides with the technical staff and upload the presentation onto the network.

The opening hours of the Speakers' Ready Room are as follows:

Saturday 5 July:	07:30 - 19:30
Sunday 6 July:	07:30 - 18:30
Monday 7 July:	08:00 - 18:30
Tuesday 8 July:	08:00 - 18:30
Wednesday 9 July:	08:00 - 14:00

Speakers can upload their presentations at any time from the beginning of the Forum and do not need to wait until the day of presentation. Speakers in morning sessions are strongly advised to pre-load their presentation the day before.

Modification of the presentation is possible at any time prior to the session in the Speakers' Ready Room.

Data presentations:

If using a PowerPoint (or any presentation), please note you need to bring it on a "disk on key" Memory stick (using the USB port in the computer), a CD or a DVD and load it on one of the Forums' computers in the Speakers' Ready Room, at least 2 hour before the start of the session.

Please note that the Forum computers in the session halls are being supplied with Office 2013.

If combining video films with PowerPoint, please make sure to check it in the session hall where your lecture is taking place during a break prior to your session, at least 30 minutes before the start of the session - **even after checking it in the Speakers' Ready Room.**

Alternatively you may supply your own laptop computer. In such cases please confirm that it has a VGA socket for external signal, advise the operators in the Speakers' Ready Room about it as soon as you arrive and later on test in the session hall where your lecture is taking place during the break prior to your session, at least 30 minutes before the session starts.

Important note for Macintosh users

The instructions above also apply to all Mac users.

In order to use MAC presentations on a PC compatible computer please note that you need to prepare it according to the instructions below, before bringing it to the Speakers' Ready Room:

- » Use a common font, such as Arial, Times New Roman, Verdana etc.
(special fonts might be changed to a default font on a PowerPoint based PC).
- » Insert pictures as JPG files
(and not TIF, PNG or PICT - these images will not be visible on a PowerPoint based PC).
- » Use a common movie format, such as AVI and WMV
(MOV files from QuickTime will not be visible on a PowerPoint based PC).

Alternatively you may use your own Macintosh laptop computer. In such a case please confirm you provide it with a **VGA adaptor** for external signal and come to check it first in the Speakers' Ready Room as soon as you arrive and later on in the session hall where your lecture is taking place during the break prior to your session, at least 30 minutes before the session starts. **Please note that VHS Video projection, 35 mm' slide projection and Overhead projection (projection of transparencies) will not be available.**

POSTER INFORMATION

Poster Presentations

Half-day poster presentations take place in the Poster Area of the exhibition hall from Sunday through Wednesday, July 6–9. Authors are requested to be in attendance at their poster for discussion, as scheduled below:

Sunday, July 6 – Tuesday, July 8

08:00 - 13:15	Morning Posters on Display
11:15 - 12:15	Authors of odd-numbered posters in attendance
12:15 - 13:15	Authors of even-numbered posters in attendance
13:15 - 13:30	Poster Switch Period
13:30 - 18:45	Afternoon Posters on display
13:30 - 14:30	Authors of odd-numbered posters in attendance
14:30 - 15:30	Authors of even-numbered posters in attendance

Wednesday, July 9

08:00 - 13:15	Morning Posters on Display
11:15 - 12:15	Authors of odd-numbered posters in attendance
12:15 - 13:15	Authors of even-numbered posters in attendance

Please find your board number by locating your abstract on the mobile website or the programme book. You should display your poster on the board number assigned to you. These pages also indicate the date and time of your presentation. For further details, please see the floor plans on page 34.

Poster boards are 2 meters wide and 1 meter high (landscape format). Posters can be affixed by double-sided adhesive tape, available at the Poster Assistance desk onsite.

Posters should be mounted at 8:00 am for morning presentations, and at 13:30 pm for afternoon presentations.

Removal: Material from the morning sessions must be removed imperatively at 13:15. At 13:10 this will be announced centrally. Please respect this quick removal so that the afternoon poster presenters can mount their material. Material from the afternoon sessions must be removed from 18:30, and in any case before leaving the MiCo.

MEETING INFORMATION

Forum Venue

MiCo - Milano Congressi
Piazzale Carlo Magno, 1
20149 Milan
Italy
www.micomilano.it

Registration

The Registration Desk will be open at the Congress Centre as follows:

Saturday 5 July:	07:30 - 19:30
Sunday 6 July:	07:30 - 18:30
Monday 7 July:	08:00 - 18:30
Tuesday 8 July:	08:00 - 18:30
Wednesday 9 July:	08:00 - 14:00

Registration Badges

Attention: Lost badges will be replaced with the presentation of an ID, at a replacement fee of € 15. Upon registration, you will receive your name badge. Badges must be visible and worn at all times, anywhere in the MiCo.

Certificate of Attendance

Certificate of Attendance for the Forum will be available from the pre-paid registration stations in the registration area from 13:30 on Monday, July 7 until the end of sessions on Wednesday, July 9. Please scan the barcode on your badge to collect your certificate.

FENS Booth

The FENS Booth is located near the entrance to the Exhibition Area. Please come and visit us to collect information on membership or find out what FENS can do for you.

Destination Italy

The FENS Forum 2014 Host Society Committee have put together a website with detailed information about attractions, history and arts in and around Milan. To read their recommendations and to find out information about the Outreach activities they are hosting, please visit the FENS forum 2014 website.

About Registration

On-site registration July 5-9, 2014

Onsite Registration Fees

Members	€ 375
Non-members	€ 455
Student members	€ 175
Student non-members	€ 245
Corporate	€ 575
Programme book*	€ 20
Technical workshop (July 5)**	€ 65
Student Jump the FENS party (July 7)	€ 25

Registration fees include 22% VAT

* *Subject to availability*

** *Limited places available*

The Standard Registration Fee Includes:

- » Attendance to the scientific programme
- » Conference bag
- » Entrance to the opening ceremony
- » Technical workshops and registrations for some specific events, such as the student Jump the FENS party require an additional payment.

Lost badges will be replaced for registered participants presenting an ID, at a replacement fee of € 15.

Registration Categories

The following categories for participants apply:

Member: A member of one of the societies affiliated to FENS. A member of the American Society for Neuroscience (SfN) may also benefit from the same registration fees as FENS members. Please note however, that this option is offered only to SfN members who live and have their professional activity in a country where there is no neuroscience society member of FENS.

Non-member: A participant from academic or non-profit organizations.

Student: A pre-doctoral student. Postdoctoral fellows, hospital residents, interns and laboratory technicians do not qualify for the student rate.

Pre-doctoral students registering online must upload a Pdf letter proving their status (i.e. a signed statement from their Department Head or supervisor). Upon registering onsite, such proof should be presented as well.

Corporate: A participant from a company.

About the Exhibition

The FENS Forum 2014 exhibition, featuring commercial displays of international organizations, pharmaceutical, chemical and laboratory equipment companies, media publishers and scientific societies, will be located in the Exhibition Area of the MiCo. (See page 38 and onwards for the exhibitor list and profiles).

Exhibit Hall Passport Contest

Each attendee will receive a “passport card” with their Forum bag. This game card lists all the participating exhibit booth names and numbers. Attendees will need to visit at least 35 of the exhibitor booths listed and get their Passport Game Card stamped. Once 35 or more stamps have been received (in the corresponding boxes), passports can then be deposited into a drop-box located at the FENS booth.

Passports must be turned in by midday on Tuesday, July 8 in order to be eligible for the prize lottery.

The prize lottery will take place at 14:00 on Tuesday, July 8. Winners will be listed at the FENS booth. Prizes must be collected in person onsite.

Exhibition Opening Hours

Sunday 6 July:	09:30 - 17:30
Monday 7 July:	09:30 - 17:30
Tuesday 8 July:	09:30 - 17:30
Wednesday 9 July:	09:30 - 14:00

Poster Helpdesk

The poster helpdesk in the poster hall offers storage of posters during the day. You are advised to collect your poster by the end of the day. Any posters remaining at the end of the meeting will be disposed of.

Internet

The MiCo is a WiFi zone. Computer stations and abstract viewing stations will also be available in the Exhibition/Poster Area during exhibition hours only. In addition, free WiFi is offered by the Municipality of Milan in conjunction with the FENS Forum 2014 and allowing participants to surf the Internet from several sites in the city area. For more information and to register for this service please visit:
<http://info.openwifimilano.it>.

Cash Bars

Cash Bars where attendees can purchase food and drink, are situated in the Exhibition/Poster Area and Main Foyer.

Press Centre

During the FENS Forum, a Press Centre will be available on mezzanine 2.

Scientific Meetings Display Table

A Display Table is located in the Exhibition Hall. Participants are welcome to use this space to place messages from colleagues.

Smoking Policy

The FENS Forum 2014 is a non-smoking event. Participants are kindly requested to refrain from smoking in all public areas.

Scientific Session and Mobile Phones

Please be respectful to the speakers and audience by keeping noise to a minimum when in the session hall areas. Delegates are kindly requested to keep their mobile phones switched off in the room where scientific sessions are being held

Food

Food is not allowed inside the session rooms. Participants may bring in water bottles.

Insurance and Liability

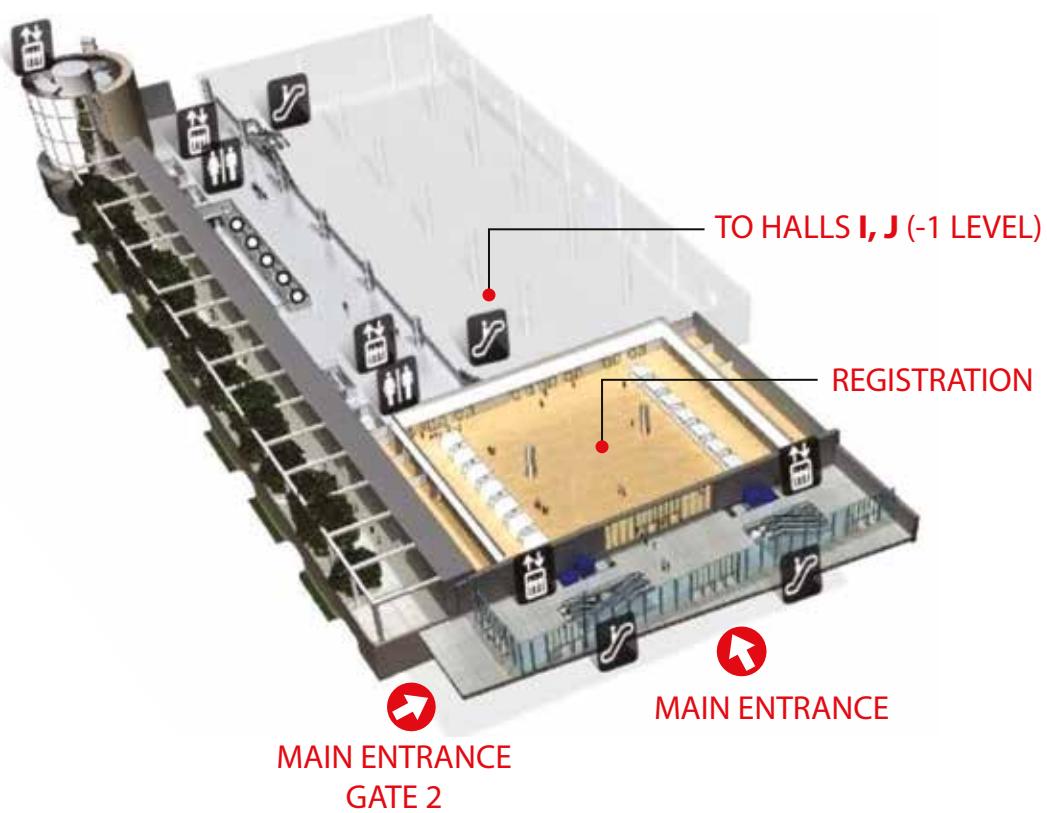

The Forum Secretariat and Organisers cannot accept liability for personal accidents or loss of/or damage to private property and participants. Participants are advised not to leave their personal belongings unattended in session halls and throughout the forum venue.

Safety and Security

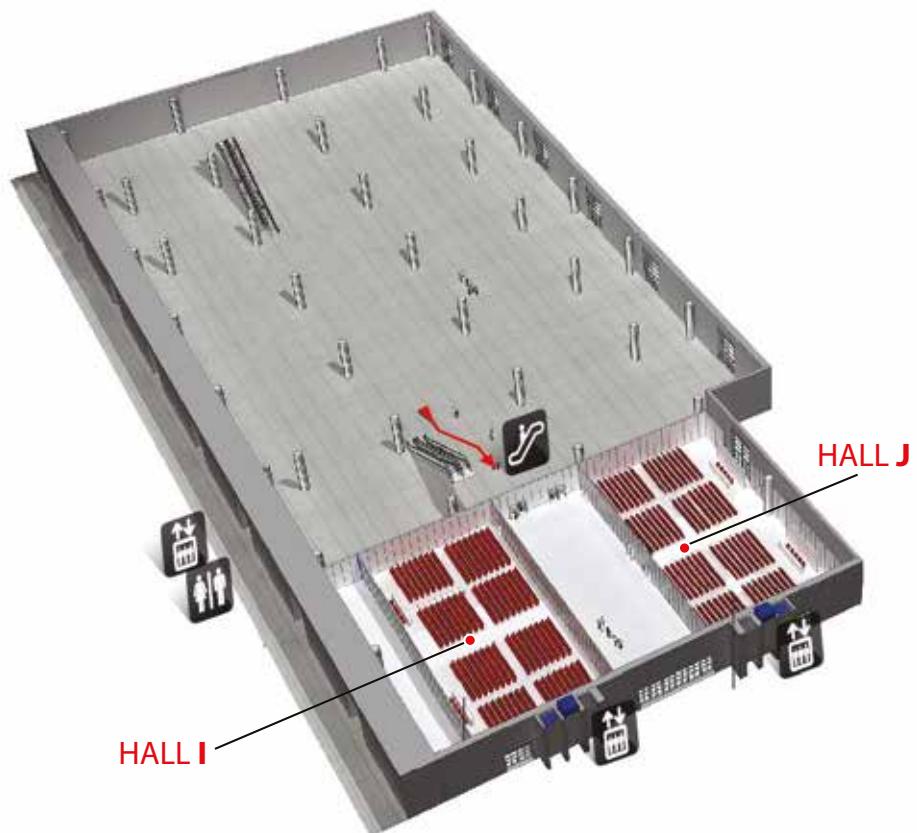

Please do not leave bags or suitcases unattended at any time, whether inside or outside session halls.

INFORMATION AT YOUR FINGERTIPS

Paperless Scientific Programme on Smartphones and Tablets

FENS Forum 2014 Mobile website transforms smart phones and tablets into a dedicated tool for active meeting participation - making it easy for delegates to access the essential meeting content and information they need. Available on Apple and Android devices as well as through mobile web and regular web access, our paperless apps enable you to:

- » access the updated scientific programme (live changes made);
- » create your personalized programme;
- » contact fellow participants - to email, schedule meetings and network (personal information is protected and e-mail addresses are not available);

With FENS Forum 2014 Mobile website delegates can search for the information they need. For example, sessions and presentations can be searched by day and time, hall, topic and presenters.

This paperless application is designed for cross platform access via laptop and mobile devices such as Smartphones, iPhone, Android etc. Access to the application is via your browser.

Scan the QR code on this page for quick access.

Scheduler - your itinerary planner

With the paperless application you have the option to plan your time and to schedule sessions and presentations that you want to attend and even set personal meetings. Access the scheduler via the user name and password that you have received via email or simply create a user at the login page. By clicking on the '+' icon you can add a session to your personal itinerary, or remove them by clicking on the '-'. Your schedule is saved automatically in MY FENS. Once you have compiled your programme you can either import it into your calendar or export it as a PDF. Scheduler is a new, smart application that helps you choose, plan and optimize your congress itinerary - allowing you to make the most out of your meeting

For assistance you can contact our support at support@meetingxpert.net.

Notification System - Your Personal Forum Mailbox

This feature enables you to communicate with your colleagues, set personal meetings and exchange ideas.

By displaying timely information about program changes as well as personal notifications from the forum secretariat or any other delegates, the Notification System enables delegates to maximize their meeting experience. The system provides scheduled notifications 5, 10, 15 or 20 minutes before a presentation begins, ensuring delegates don't miss important sessions. Once downloaded on the mobile website, delegates with Android or Apple apps can receive these updates as SMS's, push messages or web notifications.

E-Book

FENS Forum 2014 E-Book offer delegates a convenient and enjoyable way to access forum content on the move. Available on any smart device such as Apple or Android, mobile website and via browser. Delegates can add bookmarks or highlight text. Text is searchable and can be hyperlinked, enabling readers to jump back-and-forth between chapters or the index.

Limited printed copies of the FENS Forum Programme Book will be available onsite for purchase.

POSTER AREA

3DHISTECH Ltd.

29-33 Konkoly-Thege Miklós Street
Budapest, 1121
Hungary
www.3dhistech.com

3DHISTECH

3DHISTECH's system and software line up supports faster diagnosis that could lead to easier healing process by defining the future of pathology diagnostics. Being one of the pioneers in this field, 3DHISTECH develops and manufactures high speed digital slide scanners that create high quality brightfield and fluorescent digital slides, digital histology software and tissue microarray machinery. 3DHISTECH's broader aim is to fully digitalize the traditional pathology workflow so that it can adapt to the ever growing demands of healthcare today. Furthermore, educational programs are also organized to help pathologists learn and master these new technologies easier.

~~~~~

**3I (Intelligent Imaging****Innovations GmbH)**

Koenigsallee 9-21  
Goettingen, 37081  
Germany  
[www.intelligent-imaging.com](http://www.intelligent-imaging.com)

Intelligent Imaging Innovations [3i] designs and builds fluorescence imaging systems. Our multi-dimensional microscopy systems are intuitive to use. We configure our systems to our customer's continually evolving needs and for optimal productivity. Techniques include 2-Photon, tools for Optogenetics. VIVO-2-Photon is designed for high-speed, high-sensitivity multiphoton imaging of live animals and tissue. It can acquire whole fields, sets of arbitrary regions, curves or lines. The laser power is optimized for varying depths. Phasor is the world's first commercial system for optogenetic photostimulation using digital holography. It delivers significant power to a user-defined pattern at once, and can actually illuminate at different 3D-positions simultaneously.

~~~~~

AAAS Science International

Bateman House, 82-88 Hills Road
Cambridge, CB2 1LQ
UK
www.sciencemag.org

Since its founding in 1848, the American Association for the Advancement of Science (AAAS) and its members have worked together to advance science and serve society. As part of these efforts, AAAS publishes Science, a multidisciplinary peer-reviewed journal, featuring scientific research articles and reports and providing commentaries on recent news and events from around the world.

Learn more about AAAS, visit booth #21 and pick up complimentary copies of Science, Science Translational Medicine, and Science Signaling journals and career publications. Also if you're an AAAS member, we have a free goodie bag for you, just call by the booth with proof of membership.

~~~~~

**Abcam**

330 Cambridge Science Park  
Cambridge, CB4 0FL  
United Kingdom  
[www.abcam.com](http://www.abcam.com)

Abcam plc is a provider of protein research tools and services, with an unrivalled range of products and expert technical support, enabling scientists to analyse living cells at the molecular level and improving the understanding of health and disease. Abcam is committed to providing scientists with an extensive choice of reagents and tools, with the most comprehensive, honest and up-to-date datasheets and customer reviews, fast delivery and helpful customer service & technical support. The Company's catalogue of products includes primary and secondary antibodies, proteins, peptides, lysates, biochemicals, immunoassays and other kits.

~~~~~

Advanced Targeting Systems

10451 Roselle Street #300
San Diego, CA 92121
USA
www.ATSbio.com

Advanced Targeting Systems, "the saporin people," provides quality targeting reagents for molecular surgery: the specific elimination of cells to examine the impact on behavior and/or disease states. The product line includes targeted toxins and antibodies. ATS also has second conjugates that let researchers create their own specific targeting tools and are particularly useful in antibody screening for internalization. Flow cytometry, assay services, and antibody profiling also available.

ALA Scientific Instruments, Inc.

60 Marine Street
Farmingdale, NY 11735
www.alascience.com

Choosing the right instruments for demanding applications requires knowledge of instruments and science. As designers, manufacturers (perfusion systems, recording/imaging chambers, pipette holders, level controller, pressure clamp & more), and North American distributors (Multi Channel, npi, HEKA, Sutter and Narishige) of instruments for patch clamp, cellular electrophysiology, and multielectrode array systems our scientists/engineers use our experience to combine and build systems that will exceed your expectations. For over 20 years we have focused on your equipment needs so you can focus on your research goals.

Alpha Omega GmbH

Mount Precipice 2015
P.O. Box 2268
Nazareth 1612102, Israel
www.alphaomega-eng.com

Alpha Omega has been known in the industry for more than two decades, as a global leader in the fields of Functional Neurosurgery and Neuroscience Research, offering its clients breakthrough technology, unrivalled dependability, and dedicated service. For Functional Neurosurgery, Alpha Omega offers Microelectrode recording (MER) equipment for Deep Brain Stimulation (DBS) procedures along with powerful research capabilities.

For Neuroscience Research, Alpha Omega offers variety of powerful electrical and mechanical solutions in the field of In-Vivo extracellular recording, allowing neuroscientists to discover brain signals even in the resolution of a single cell activity.

ALZET® Osmotic Pumps

DURECT Corporation
10260 Bubb Road
Cupertino, CA 95014
USA
www.alzet.com

ALZET® Osmotic Pumps are small infusion devices for continuous administration of agents to unrestrained laboratory animals as small as mice. They are a convenient and reliable alternative to frequent injections and other repetitive dosing methods. Once implanted, drug administration is automatic with no animal handling or external connections required during the infusion period. They are easily attached to a catheter or brain cannulae for administration to the spinal cord, cerebral ventricles or brain tissue. ALZET pumps have been used in over 14,500 published studies for delivery of neurotrophic factors, neuropeptides, oligonucleotides and more.

ANY-maze Europe

3 Ardee Road
Rathmines
Dublin 6
Ireland
www.ANYmazeEurope.com

ANY-maze is the most flexible, easy-to-use video tracking system available and is designed to automate testing in animal behavior experiments, eliminate time-consuming methods of manual scoring, and provide video recording for presentation or re-testing. Use ANY-maze with all of Stoelting's behavioral testing apparatuses including: Y-Maze, Novel Object, Plus Maze, Radial-Arm Maze and Water Maze. Download a FREE 30-day trial at our website.

Atlas Antibodies AB

AlbaNova University Center
Roslagstullsbacken 15
Stockholm 106 91
Sweden
www.atlasantibodies.com

Atlas Antibodies is a Swedish manufacturer and distributor of highly characterized antibodies targeting all human proteins. Originally developed and validated within the Human Protein Atlas (HPA) project, our seventeen thousand antibodies come with a vast quantity of characterization data freely available on the HPA portal.

ATLAS Neuroengineering

Windmolenveldstraat 58
Leuven, 3000
Belgium

www.atlasneuro.com

ATLAS Neuroengineering is a spin-off of imec and IMTEK, department of the University of Freiburg. ATLAS Neuroengineering provides tools for the experimental neuroscience to record and stimulate neuronal activity. Our innovative electronic depth control (EDC) biomedical probes allow high-density electrode recordings for *in vivo* electrophysiological research without the need to mechanically reposition the probe. In addition, we provide traditional silicon multi electrode arrays for free behavioral experiments in rodents and non-human primates.

Bilaney Consultants GmbH

Schirmerstraße 23
D-40211 Düsseldorf
Germany

www.bilaney.de

Bilaney Consultants GmbH, Germany (www.bilaney.de) & Bilaney Consultants Ltd., UK (www.bilaney.com) supply quality Pre-clinical research instrumentation and software to European neuroscientists and biomedical researchers. David Kopf Instruments®: Stereotaxic Instruments, Micropositioners and Pipette Pullers. Plastics One®: Pre-clinical research components. Standard and custom made cannula and electrode systems. Coulbourn Instruments®: Habitest® modular animal behaviour test systems, Graphic State® control and data acquisition software. Animal Startle, Tru Scan® Photobeam Activity Monitoring, V-series® Psychophysiology and Human Startle systems. Actimetrics®: Video based behavioural test systems - FreezeFrame®, WaterMaze®, LimeLight®, Big Brother®, ClockLab® circadian biology data acquisition and analysis. Thomson Reuters®: EndNote® Bibliographic Software

BIOPAC Systems, Inc.

42 Aero Camino
Goleta, CA 93117
United States

www.biopac.com

Registered to ISO 9001:2008

BIOPAC provides solutions for all your research and educational data acquisition requirements. The sophisticated high-speed MP150 system has 20+ amplifier options, including noninvasive cardiac output, noninvasive BP, stimulus presentation and Virtual Reality. Systems available for telemetry and tethered recording techniques, MRI, and Micro Pressure. Standardize results and save time with automated analysis tools, including ECG, EEG, EMG, EDA, HRV, RSA, bioimpedance, BP, LVP, and spike sorting. GLP and multi-lingual versions available. Review publications online to see the many applications BIOPAC supports. Receive a hands-on demonstration of AcqKnowledge or the popular BSL System... see why our systems are in thousands of labs.

BIOSEB In Vivo Research Instruments

BP 32025
Vitrolles F13845
France

www.bioseb.com

Design and develops behavioural instruments for the *In Vivo* preclinical research. At the FENS 2014 we will be introducing our latest developments including the Kinetic weight bearing system (feet force impact analyser for rodents) + The reinvented Object Recognition setup including sniffing detection using our 3 D technology. The latest Versions of our software for the TST and FST dual sensor and Thermal place preference as well as the newly designed Electronic Von frey EVF4 with an embedded CAMERA! Come and see us for a demo and a quotation: Bioseb for locomotor, pain, anxiety/depression like behaviour.

Bio-Techne

19 Barton Lane,
Abingdon Science Park
Abingdon OX14 3NB
UK

www.bio-techne.com

Our new name brings together several best-in-class brands: R&D Systems is an established manufacturer of high-quality proteins and the world leader in immunoassays as well as producing antibodies, arrays, stem cell products, flow cytometry products and more.

Tocris is the leading supplier of biologically active molecules. Tocris life science reagents include receptor ligands, ion channel modulators, enzyme inhibitors, caged compounds, fluorescent probes, and screening libraries.

Boston Biochem is the leading developer of ubiquitin-related research tools that facilitate basic research and drug discovery efforts.

Blackrock Microsystems, LLC

630 Komas Drive, Suite 200
Salt Lake City UT, 84108
USA

www.blackrockmicro.com

Blackrock Microsystems designs and engineers both digital and analog neural data acquisition systems and implantable microelectrodes for researchers and clinicians requiring electrophysiology in-vivo or in-vitro lab settings. Blackrock also designs and develops active headstages, passive adaptors, neural stimulator hardware, and video tracking software capable of syncing to optical stimulation devices. All Blackrock tools are accompanied with premium in-house designed software containing a multitude of data parameters, allowing researchers to optimize and accurately evaluate data depending on experiment set-up. Blackrock devices are flexible enough to integrate either individually written or third party software.

**Brain Products GmbH**

Zeppelinstrasse
7 82205 Gilching
Germany

www.brainproducts.com

Brain Products is a leading manufacturer of solutions for neurophysiological research. We have more than 15 years of experience in developing state-of-the-art solutions for the following fields:

- » EEG / ERP / EP
- » EEG & fMRI, EEG & TMS, EEG & MEG
- » BCI & Bio-/Neurofeedback
- » Sleep & Behavioral Research

Visit us at booth 153 and discover new solutions for your research. We are looking forward to meeting you!

Brains On-Line B.V.

P.O. Box 4030
9701 EA Groningen
The Netherlands

www.brains-online.com

Brains On-Line provides preclinical contract research services to facilitate the drug development process, with expertise in disorders of the central nervous system (CNS). We provide research services with the highest degree of flexibility, and highest standards of quality and scientific integrity as required in modern Research & Development.

- » Brains On-Line has been the world leader in providing in-vivo Electrophysiology, Microdialysis, Behavior and Bio-analysis over 14 years.
- » Pharmacokinetics: Our proprietary MetaQuant® microdialysis probes allow us to explore free drug levels in different regions of the brain and in plasma.
- » Biotechnical Services with an expert team of biotechnical staff.

~~~~~

**Bruker**

Viale V. Lancetti, 43  
20158 Milano  
Italy  
[www.bruker.com/nano](http://www.bruker.com/nano)

Pioneering Multiphoton Fluorescence Microscopy- Bruker Nano Surfaces Division is a leading provider of high-performance scientific instruments and solutions for molecular and materials research, as well as for industrial and applied analysis. We cover Fluorescence Microscopy Products, Atomic Force Microscopy (AFM) as well as White Light Optical Profilers, Stylus Profilers and Tribology & Mechanical Testing Tools. Bruker's suite of industry-leading fluorescence microscopes for neurobiologists and cell biologists enable uncaging experiments, optogenetics, simultaneous electrophysiology studies, as well as photoactivation, photostimulation and photoablation studies.

**Cairn Research Ltd.**

Graveney Road  
Faversham  
Kent, ME13 8UP  
UK  
[www.cairn-research.co.uk](http://www.cairn-research.co.uk)

Cairn Research is an independently owned Company, based on our farm in Faversham, Kent. Our main activity is scientific instrumentation, primarily for biological fluorescence excitation and detection in real time, and to that end we design and sell a wide range of products. For excitation, these include modular LED and laser illuminators as well as arc lamps and fast monochromators, and for detection our range includes filter wheels, image splitters and multicamera adapters as well as a versatile photometry system. We also distribute a variety of third-party products, including the Crest spinning-disc system and the full range of optical filters from Chroma Technology. Using these and other third-party products, we also supply complete systems, including installation and maintenance if required.

**Cambridge Electronic Design Ltd.**

Science Park  
Milton Road  
Cambridge CB4 0FE  
UK  
[www.ced.co.uk](http://www.ced.co.uk)

Data acquisition, analysis and experimental control systems for Windows using the powerful 1401 family of laboratory interfaces. CED specialist applications include intracellular and extracellular physiology, spike shape analysis, EEG, EMG, ECG, behavioural studies, evoked response, signal averaging, spectral analysis, patch and whole cell voltage clamp systems (including dynamic clamping), teaching systems and organ bath software. Systems can also be customised by CED or the user for specific applications.

**Carl Zeiss Microscopy GmbH**

Carl-Zeiss-Promenade 10  
07745 Jena  
Germany  
[www.zeiss.com/microscopy](http://www.zeiss.com/microscopy)

Throughout the world the name of Carl Zeiss stands for the highest quality and reliability. Carl Zeiss Microscopy is part of the Carl Zeiss group, a leading organization of companies operating worldwide in the optical and optoelectronic industry. Comprehensive Solutions- As a world leading manufacturer of both light and electron microscopes, Carl Zeiss manufactures compound light microscopes as well as a diverse range of fluorescence optical sectioning systems, electron and ion microscopes.

**CARMEN**

Institute of Neuroscience,  
Newcastle University  
Henry Wellcome Building,  
Framlington Place  
Newcastle upon Tyne, Tyne and Wear  
NE2 4HH  
UK  
[www.carmen.org.uk](http://www.carmen.org.uk)

CARMEN is a virtual laboratory that allows neurophysiologists to store, share and analyse their data in a secure web environment. Whilst having the functions of a neurophysiology database, the site also supports the running of analysis services and workflows, thereby enabling access to novel methods to analyse your recordings. Our security architecture enables file sharing in near real time to foster collaboration between distributed research groups with the confidence that the data can remain private until after publication. Visit the stand for demonstrations of the capabilities of the site, free user registration, and details of how CARMEN can support your research.

**Cell Press**

600 Technology Square, 5<sup>th</sup> floor  
 Cambridge 02139  
 USA  
[www.cell.com](http://www.cell.com)

Visit booth #45 for the latest high impact neuroscience resources and to meet Cell Press Editors! Pick up free copies of Cell, Neuron, Cell Reports, Trends in Neurosciences, Trends in Cognitive Sciences, and more. This year, Neuron is celebrating 25 years of publishing pioneering neuroscience. Stop by the Cell Press booth for your chance to win a Neuron25 swag bag, as well as participate in our "Pin to Win" campaign for a chance to win an iPad mini.

**Cell Signaling Technology**

Plesmanlaan 1d  
 2333 BZ Leiden  
 The Netherlands  
[www.cellsignal.com](http://www.cellsignal.com)

**Cell Signaling**  
 TECHNOLOGY Europe

Cell Signaling Technology (CST) provides rigorously validated activation-state and total protein antibodies for the study of cellular signaling within the field of neuroscience. CST™ antibodies are validated in-house for multiple research applications, including immunohistochemistry and immunofluorescence assays, using appropriate cell lines, tissue sections, and clinically relevant mouse models. CST is also the exclusive provider of XP® monoclonal antibodies, which offer exceptional specificity, sensitivity, stability, and reproducibility in the applicable research applications. All antibodies, kits, and related reagents are accompanied by optimized protocols and are supported by our knowledgeable scientists.

**Cellular Dynamics International**

525 Science Drive  
 Madison, WI 53711  
 USA  
[www.cellardynamics.com](http://www.cellardynamics.com)

**Cellular**  
**Dynamics**  
 international

Cellular Dynamics International is a leading developer of fully functional human cells derived from induced pluripotent stem (iPS) cells. Our iCell® and MyCell® product lines provide industrial quantities of high quality, highly pure human cells enabling disease modeling, drug discovery, toxicity testing, and regenerative medicine research.

**Charles River**

BP 109  
 69592 L'arbresle  
 France  
[www.criver.com](http://www.criver.com)

Charles River demonstrates our commitment to you by continually investing in a globalised infrastructure and harmonised practices, which enable us to provide you with the most reliable and relevant research models and services. Through our core programmes – Biosecurity, Model Quality, Animal Welfare and International Genetic Standardisation – you receive animal models of a superior health and genetic status, ensuring that the integrity of your research results will be maintained over time. Our experts will partner with you and offer an unmatched experience of customer service, technical support and expertise to help you meet your research goals faster and more efficiently. These global services include consulting, staffing and training; diagnostic and genetic testing; genetically engineered models and services: early-stage discovery and imaging; and vaccine manufacturing support. Wherever you are in the research, discovery and development continuum, Charles River expertly supports your efforts and advances your research to the next level, now and in the future.

**Chinese Neuroscience Society**

319 Yueyang Rd  
 Shanghai, 200031  
 China  
[www.cns.org.cn](http://www.cns.org.cn); [www.neurosci.cn](http://www.neurosci.cn)

Chinese Neuroscience Society (CNS) was founded in 1995 with more than 4,000 active members from universities, research institutes and hospitals over China. The 11<sup>th</sup> CNS Biennial National Conference and 6<sup>th</sup> FAONS Congress will be held in September 2015 in Wuzhen, China. We look forward to welcoming neuroscientists from Asian-Pacific area and other regions. Neuroscience Bulletin (NB) was founded in 2006, is the official, bimonthly journal of the CNS published by Springer. NB publishes original research articles on basic and clinical neuroscience, and Reviews, Research Highlights, Perspectives, Brief Communications, and Methods.

**Chroma Technology**

Maximilianstr. 33  
Olching, D-82140  
Germany  
[www.chroma.com](http://www.chroma.com)

Chroma Technology Corp. is an employee-owned company that specializes in the design and manufacture of precision optical filters and coatings. The most advanced coating techniques have been developed that provide the greatest accuracy in color separation, optical quality and signal purity economically for your OEM applications. We provide application engineering support, short cycle times and are as comfortable designing and manufacturing custom filters as we are our catalog items.

**Clever Sys Inc.**

11425 Isaac Newton Square  
Suite 202  
Reston, VA 20190  
[www.cleversysinc.com](http://www.cleversysinc.com)

Clever Sys Inc., is a bioinformatics company specializing in software and hardware for automated behavioral testing. Our video based technology provides comprehensive tools for data acquisition and analysis. Clever Sys Inc., brings behavioral testing into the twenty-first century, enhancing video tracking with our patented next generation Behavior Recognition technology.

**CorTec GmbH**

Georges-Köhler-Allee 010  
D-79110 Freiburg  
Germany  
[www.cortec-neuro.com](http://www.cortec-neuro.com)

CorTec – Thinking ahead

CorTec develops the world's most efficient implants for the long-term measurement and stimulation of brain activity. CorTec's Brain Interchange technology is a closed-loop system and offers a direct interface between the brain and technology (brain-machine interface). The completely implantable system can be customized according to particular research interests. For short to medium-term research purposes CorTec also offers cortical electrodes in various sizes and designs. Due to a special patented laser structuring process, the electrode has a high density, is thin and soft and can easily be produced in customer individual designs. The company is located in Freiburg, Germany.

**Crest Optics**

Via Mattia Battistini 184 C/D  
00167 Roma  
Italy  
[www.crestopt.com](http://www.crestopt.com)

CrestOptics is a Manufacturing Company with the mission to develop advanced methodologies and equipment aimed at the MicroBiology Research and Material Sciences. The Production and Research area is located in Rome, with a plant of > 1000 SQM. The first Company milestone (2009), has been the development and manufacturing of the Advanced Confocal Attachment 'X-Light', based on state of the art solutions in spinning disk technology, optics and engineering. Two international patent are part of this development. Our Confocal Head Systems connect to the most common fluorescence microscopes from all vendors like Nikon, Olympus, Leica and Zeiss.

**Data Sciences International (DSI)**

Headquarters and  
North America Sales  
119 14<sup>th</sup> St NW  
Suite 100  
St. Paul, MN 55112  
USA  
[www.datasci.com](http://www.datasci.com)

DSI is a pioneering biomedical research company focused on systems physiology and pharmacology. The recognized global leader in physiologic monitoring, DSI offers telemetry, instrumentation, software and services that help advance science. DSI serves many industries including: Pharmaceuticals, Academia, Contract Research Organizations, Biological and Chemical Defense, the Medical Device Industry, Government, and Biotechnology companies. We offer solutions that are tailored specifically to meet the unique research needs of our customers

**Digitimer Ltd**

37 Hydeway  
Welwyn Garden City, AL7 3BE  
UK  
[www.digitimer.com](http://www.digitimer.com)

Digitimer designs and manufactures scientific instrumentation for research & clinical environments. We offer our modular NeuroLog electrophysiology system for intracellular, extracellular and multi-channel isolated amplification as well as stimulation and pulse generation. We also manufacture a wide range of electrical stimulators for many applications, including some certified for human use. Digitimer represents companies that produce complementary equipment, including: AutoMate Scientific (perfusion systems), Axelgaard (electrodes), Harvard/Medical Systems (injectors and tissue chambers), HEKA Elektronik (patch-clamp/voltammetric amplifiers and software), Narishige (micro-manipulators, injectors and pipette pullers), Scientific Systems Design (temperature controlled tissue/slice chambers), ThorLabs (anti-vibration tables) and Quest Scientific (HumBug Noise Eliminator).

**Digitimer****École des Neurosciences de Paris Ile-de-France ENP**

15 rue de l'école de médecine  
Réfectoire des Cordeliers 1<sup>er</sup> étage  
75006 Paris  
France

[www.paris-neuroscience.fr](http://www.paris-neuroscience.fr)

The ENP is a scientific foundation created in 2007, bringing together 112 teams from 22 research centers, that has become a unique entry-gate to the Paris-region neuroscience community. The ENP aims to promote synergy between research groups and universities, and to foster international and multidisciplinary exchanges in order to understand the brain, to treat its diseases and improve its abilities. The ENP has launched several programs supporting many fields from Neurogenetics and Neurodevelopment, Neurophysiology and Systems Neuroscience, Cognitive Neurosciences Neuropsychology and Neuroeconomy, Computational Neuroscience and Neural theory, Neurological and Psychiatric diseases, Neuropharmacology and Cell signaling, to Physics Technology and Robotics.

**ECNP**

Bolognalaan 28  
3584 CJ Utrecht  
The Netherlands  
[www.ecnp.eu](http://www.ecnp.eu) / [www.ecnp-congress.eu](http://www.ecnp-congress.eu)

ECNP is an independent scientific association dedicated to the science and treatment of disorders of the brain. It is the largest non-institutional supporter of applied and translational neuroscience research and education in Europe. ECNP organises a wide range of scientific and educational activities, programmes and events across Europe, promoting the exchange of high-quality experimental and clinical research and fostering young scientists and clinicians. The annual ECNP Congress is Europe's premier scientific meeting for disease-oriented brain research, annually attracting between 5,000 and 8,000 neuroscientists, psychiatrists, neurologists and psychologists from around the world.

**Eicom Europe**

Ground floor, Hilton House  
3 Ardee Road, Rathmines  
Dublin 6  
Ireland  
[www.eicomeurope.com](http://www.eicomeurope.com)

Eicom is a world leader in HPLC-Electrochemical Detection and Microdialysis Sampling Systems for diverse life science fields with a core focus in neuroscience and analytical chemistry. Our products enable researchers in academia and industry to effortlessly and efficiently collect samples and monitor the level of specific biological compounds.

**Electrical Geodesics, Inc. (EGI)**  
 1600 Millrace Drive, Suite 200  
 Eugene, OR 97403  
 USA  
[www.egi.com](http://www.egi.com)

EGI brings next-generation clinical EEG systems, tools, and workflows to hospitals and clinics worldwide. EGI's EEG Systems feature EGI's revolutionary Geodesic Sensor Net for unprecedented patient comfort and rapid application, removal, and cleanup. Your choice of systems with 32 channels for routine 10-20 EEG in ambulatory or stationary mode, or dense array systems with 64, 128, or 256 channels for source estimation and other applications requiring high spatial resolution. EGI also offers software for spike and seizure detection and for source estimation. Visit EGI's booth to see this in action!

**ELSEVIER B.V.**  
 Radarweg 29  
 1043 NX Amsterdam  
 The Netherlands  
[www.elsevier.com](http://www.elsevier.com)

As your gateway to the latest advancements in Neuroscience research, Elsevier books and journals provide you with leading-edge data from global experts. Stop by the booth to view new editions of The Rat Brain Atlas, MATLAB, and more. Books at the booth are discounted up to 50% off and include free global shipping. Be sure to get your passport stamped to win a free book! Browse top neuroscience journals including Brain Research, NeuroImage and Neurobiology of Disease, and society related titles Neuroscience and Neuroscience Research. Delegates have the opportunity to gain access to free content from over 50 journals.

**English Editing Solutions**  
 Simon Vestdijklaan 11  
 Oegstgeest, 2343KW  
 The Netherlands  
[www.EnglishEditingSolutions.com](http://www.EnglishEditingSolutions.com)

English Editing Solutions provides scientists and clinical researchers with fast, affordable editing of manuscripts and grant proposals. Our editors have years of experience writing and editing scientific documents and are well-published, successful scientists who understand the entire process of preparing and submitting manuscripts and grants. We also provide education services such as workshops and courses covering many topics, including scientific writing, abstract and poster preparation, presentation skills, grant-writing tips, and much more.

**Enzo Life Sciences**  
 Industriestrasse 17  
 CH-4415 Lausen  
 Switzerland  
[www.enzolifesciences.com](http://www.enzolifesciences.com)

Enzo Life Sciences, Inc. is organized to lead in the development, production, marketing, and sales of innovative life science research reagents worldwide based on over 30 years of successful experience in building strong international market recognition, implementing outstanding operational capabilities, and establishing a state-of-the-art electronic information and ordering marketplace.

We are a recognized leader in labeling and detection technologies across research and diagnostic markets. Our strong portfolio of proteins, antibodies, peptides, small molecules, labeling probes dyes and kits provides life science researchers tools for target identification/validation, high content analysis, gene expression analysis, nucleic acid detection, protein biochemistry and detection, and cellular analysis.

**European Brain Council (EBC)**

**- Year of the Brain**  
 Fondation Universitaire  
 11, Rue d'Egmont  
 B-1000 Brussels  
 Belgium

[www.europeanbraincouncil.org/year-of-the-brain](http://www.europeanbraincouncil.org/year-of-the-brain)

The European Brain Council is a coordinating council formed by European organisations in neurology, neurosurgery, psychiatry, basic brain research (neuroscience), and patient organisations and companies from within the pharma and biotech industries.

The Year of the Brain initiative - 2014 and 2015 has a vision to protect, preserve, develop and nurture our most vital asset: 'The Brain' and has 3 main goals:

1. To educate society about how to nurture and protect the brain and prevent brain disease
2. To improve care and treatment access for those affected by brain disease
3. To increase investment in brain-related R&D for the benefit of future generations

**FEI Company**

Achtseweg Noord 5  
5651 GG Eindhoven  
The Netherlands  
[www.fei.com](http://www.fei.com)

With more than 60 years of innovation and leadership, FEI enables customers to find meaningful answers to questions that accelerate breakthrough discoveries, increase productivity, and ultimately change the world. FEI designs, manufactures, and supports the broadest range of high-performance microscopy workflows that provide images and answers in the micro-, nano-, and picometer scales. Combining hardware and software expertise in electron, ion, and light microscopy with deep application knowledge in the materials science, life sciences, electronics, and natural resources markets, the worldwide FEI team of 2,700+ employees is dedicated to customers' pursuit of discovery and resolution to global challenges.

**Femtonics Ltd.**

Tuzolto u 59  
Budapest, H-1094  
Hungary  
[www.femtonics.eu](http://www.femtonics.eu)

Femtonics focuses on the research and development of two-photon laser scanning microscopes for the booming area of (neuro) physiological investigations. Our microscopes are tuned for the fastest 2D and 3D optical measurements and are especially suited for cutting-edge brain research and pharmaceutical development. On the other hand, due to their modular nature, they can be easily adapted to suit other applications, including biophysical use. For the past one decade, the main aim and objective of Femtonics has been to create and provide uniquely novel technologies shifting to higher paradigms in the fields of advance 3D imaging.

**Fine Science Tools GmbH**

Vangerowstr. 14  
69115 Heidelberg  
Germany  
[www.finescience.de](http://www.finescience.de)

Fine Science Tools was founded over 30 years ago and has established itself as a market leader, through a commitment to quality products, unparalleled customer service as well as providing quality European microsurgical instruments created to meet research scientists' special needs. We invite you to also visit our European website at [www.finescience.de](http://www.finescience.de) which is available in 5 languages and is fully searchable. It incorporates online ordering, an extensive FAQ section as well as links to conventions we intend to visit in the future. You will also find our latest catalogue download and our contact data.

**Fitzgerald Industries International**

Suite 1 A  
30 Sudbury Road  
North Acton, MA 01720  
USA  
[www.fitzgerald-fii.com](http://www.fitzgerald-fii.com)

Fitzgerald Industries International is the premier provider of 60,000 highly pure Monoclonal and Polyclonal Antibodies, purified Proteins, ELISA Kits and Specialty Research Products. Since 1989 our customers have known that they can depend on Fitzgerald Industries to supply them with high quality products for research and further manufacture. Fitzgerald's product classifications include CD's, Cardiac Markers, Cytokines & Growth Factors, Drugs of Abuse & TDM, Fertility & Pregnancy, Hormone/Steroids, Infectious Diseases, Neuroscience, Tumor Markers and many others.

**g.tec**

Sierningstraße 14  
Graz, 4521  
Austria  
[www.gtec.at](http://www.gtec.at)

g.tec was founded in 1999. It is a growing enterprise with two branches in Austria, one in Spain and partners all over the world. All the development is done in-house by our team of researchers and engineers. g.tec developed the first commercially available BCI system in 1999 and now sells this system in more than 60 countries. Our products work with all major BCI approaches (motor imagery, P300, SSVEP and SCP), so you can start BCI research within a few hours.

**German Graduate Schools of Neuroscience**  
 LMU Munich  
 Grosshaderner Strasse 2  
 Martinsried, 86152  
 Germany  
[www.neuroschools-germany.com](http://www.neuroschools-germany.com)

The German Graduate Schools of Neuroscience represent several international and highly-structured educational programs in neuroscience from Master of Science to PhD. The programs are located at the major German universities of Berlin, Bochum, Göttingen, Magdeburg, München, Regensburg and Tübingen. Each with its own specializations, these programs cover all areas of neuroscience research from molecular and cell biology to systemic neuroscience including imaging, computational cognitive and translational neurosciences. You are welcome to stop by at our booth and learn more about your opportunities in German Neuroscience Education. Get detailed information about the scientific focus, structure and application procedures for each program.

**Harvard Apparatus**  
 84 October Hill Road  
 Holliston, MA 01746  
 United States  
[www.harvardapparatus.com](http://www.harvardapparatus.com)

Harvard Apparatus along with other Harvard Bioscience divisions, proudly offer a broad line of specialized tools and integrated systems for neuroscience research. Exhibiting divisions will be Harvard Apparatus for surgical suites, stereotaxic frames and injection systems, CMA for microdialysis probes and fraction collectors, Hugo Sachs Elektronik for complete isolated organ and tissue systems, Warner for complete electro-physiology systems and Panlab and Coulbourn for behavioral research products; including our new Smart 3.0 Video Tracking software and Graphic State 4 Software for Operant Conditioning. Please visit booth 121 to view the most advanced systems for neuroscience, regenerative medicine and behavioral research applications.

**HEKA Elektronik**  
**Dr. Schulze GmbH**  
 D-67466 Lambrecht  
 Pfalz  
 Germany  
[www.heka.com](http://www.heka.com)

For over forty years, HEKA has been among the market leaders in patch clamp systems and a major player in electrochemistry equipment. Throughout these years there have been many changes in research, instrumentation and software. HEKA's goal has always been to drive this progress and shape those changes, while remaining committed to our most important business partner, our customer. Recent product launches include the Imaging Extension Software, the ElProScan Advanced Scanning Electrochemistry Microscopes, and the iTEV 90 Computerized Two-electrode Clamp Amplifier. HEKA's established portfolio of patch clamp and electrochemistry systems, interfaces and software enjoys increasing popularity in the scientific community.

**Hertie Foundation**  
 Grüneburgweg 105  
 Frankfurt, D-60323  
 Germany  
[www.ghst.de](http://www.ghst.de)

The Hertie Foundation is active in pre-school, school, university and neurosciences. It is the second largest private patron of brain research in Europe and the largest in Germany. In the Neurosciences field the Hertie Foundation seeks to further research in the neurosciences and especially the fight against diseases of the brain. The Hertie Institute for Clinical Brain Research in Tübingen, that was established in 2002 together with the University of Tübingen, is the largest neuroscientific project of the foundation. The foundation announces in cooperation with FENS the Eric Kandel Young Neuroscientists Prize.

**Human Brain Project**

EPFL- Blue Brain Project  
Innovation Quarter  
Building J 3<sup>rd</sup> Floor  
CH-1015 Lausanne  
Switzerland

[www.humanbrainproject.eu](http://www.humanbrainproject.eu)

With over 100 institutions, more than 20 countries, 3 research areas and 13 subprojects – the Human Brain Project, which began on October 1, 2013, is one of the European Union's two FET Flagship Programmes – one billion euro, ten-year projects addressing fundamental scientific challenges with a potentially very large social and economic impact. In the first two and a half years, the project will design, build and begin to operate a completely new ICT infrastructure for neuroscience, and for brain-related research in computing and medicine. Six tightly integrated ICT platforms will offer state of the art services in Neuroinformatics, Brain Simulation, High Performance Computing, Medical Informatics, Neuromorphic Computing and Neurorobotics.

Starting in March 2016, the project will open its platforms to the world scientific community, catalyzing a global collaborative effort to reach a unified understanding of the human brain and its diseases and, ultimately, to emulate its computational capabilities.

**IBRO (International Brain Research Organization)**

255 rue Saint-Honore  
Paris 75001  
France

[www.ibro.info](http://www.ibro.info)

The International Brain Research Organization (IBRO) is a union of neuroscience organizations and scientific societies that work together to accelerate the progress of brain research by improving the quality of neuroscience across the world, especially in disadvantaged countries, and by increasing opportunities for collaboration. Founded in 1961, IBRO was the first international neuroscience organization, and today it remains the only organization of its kind that focuses on a truly worldwide scale. IBRO will hold its 9<sup>th</sup> World Congress of Neuroscience in Rio de Janeiro, Brazil, from July 7 to 11, 2015.

**IMETRONIC**

156, avenue Jean Jaures  
33600 Pessac  
France

[www.imetronic.com](http://www.imetronic.com)

IMETRONIC's activity is dedicated to the conception and manufacture of equipment for behavioural tests in the fields of neurobiology, pharmacology, physiology and toxicology. Our products are entirely developed, produced, and tested on our premises (mechanics, electronics, and informatics). We ensure the installation, start-up, continued service (maintenance, hot line, spare parts), and evolution of our products.

Moreover, we support individual researchers' needs by developing customized apparatus. Our vision is focused on constant innovation, including the development of a system that couples the analysis of animal behaviour with electrophysiology and optogenetics.

**INNOPROT**

Parque Tecnológico de Bizkaia  
Edificio 502, Primera Planta  
48.160 - Derio  
Spain

[www.innoprot.com](http://www.innoprot.com)

Innoprot is a dynamic and R&D intensive biotech focused on developing cell-based assays for High-Throughput Screening and High-Content Analysis. Innoprot also acts as a CRO providing drug screening services and on-demand assay development. Our goal is to accelerate and improve our customer's drug discovery programs.

Innoprot offers primary cells from CNS and stable cell lines mimicking several pathways of disease, including Alzheimer's Disease, Parkinson's Disease and Amyotrophic Lateral Sclerosis.

**ISN - International Society for Neurochemistry**  
 1-3, Rue de Chantepoulet  
 1211 Geneva  
 Switzerland  
[www.neurochemistry.org](http://www.neurochemistry.org)

The International Society for Neurochemistry (ISN) is the sole international nonprofit membership organization comprised of scientists and physicians who are active in the field of neurochemistry, cell and molecular neuroscience or related areas, and committed to share knowledge, promoting multidisciplinary collaboration amongst all professionals giving them a voice within the international context.

In this endeavor ISN thrives to facilitate and foster the education and development of neuroscientists, particularly young and emerging investigators through a wide range of activities including biennial congresses, specialized conferences, grants opportunities, training programs and network opportunities with the leading experts of the neurochemistry field.

**Jackson ImmunoResearch Europe Ltd.**  
 Unit 7 Acorn Business Centre  
 Oaks Drive, Newmarket  
 Suffolk, CB8 7SY  
 UK  
<http://www.jireurope.com/home.asp>

Jackson ImmunoResearch Europe Limited supplies first class Secondary Antibodies and Conjugates designed for many scientific applications:

- Immunofluorescence
- Western Blotting
- Flow Cytometry
- ELISA
- In Situ Hybridisation
- Electron Microscopy
- Enzyme Immunohistochemistry
- STED Microscopy

The range includes Alexa Fluor® 488, 594 and 647nm conjugated secondary antibodies; with the addition of Alexa Fluor® 680 and Alexa Fluor® 790 conjugates for high-sensitivity Western blots. The team at Jackson ImmunoResearch Europe is at your disposal to help with all your purchase order and despatch enquiries. Our rapid efficient direct service extends throughout Europe and includes real-time technical support of the highest calibre.

**Lafayette-Campden Neuroscience**  
 PO Box 8148,  
 Leicester  
 LE12 7XT  
 England  
[www.campdeninstruments.com](http://www.campdeninstruments.com)

Our Bussey-Saksida touchscreens systems for rat and mouse have a battery of tasks many of which translate to non-human and human primates. These systems are delivered 'ready to go' for immediate productivity in your lab.

In vivo electrophysiology and video are now integrated into these chambers with clean data output, free from all e.m.c. artefacts. The three data streams are temporally combined for easy search and analysis. Campden's 7000smz-2 and 5100mz/5100mz-plus Vibrotomes with z-axis deflection calibration and specialist blades delivery healthy, high viability slices consistently.

Slice chambers have integral heater/controllers and p.i.d. algorhythms for visual patching and imaging and for LTP recordings and for biochemistry. Campden Vibrotomes and Slice Chambers are published on many anatomies of brain, heart, lung, intestine & smooth muscle.

**LaVision BioTec GmbH**  
 Astrastr. 14  
 33617 Bielefeld  
 Germany  
[www.lavisionbiotec.com](http://www.lavisionbiotec.com)

LaVision BioTec's TriMScope multiphoton microscope system has been developed to serve in advanced studies of intravital microscopy. Unique features like OPO excitation of red dyes and RFPs, integrated TCSPC for FLIM and Cloud scanning for improved signal to noise deliver benefits to any researcher in this field. The newest additions to the TriMScope are visible lasers to provide the flexible tools for optogenetic studies.

The unique Ultramicroscope system provides whole organ or small animal imaging at the resolution of confocal microscopy and delivers a new quality of 3D fluorescence reconstruction microscopy from the sub μm-range to millimetres.

**Life Technologies**

Inchinnan Business Park  
3 Fountain Drive  
Paisley - PA4 9RF  
United Kingdom  
[www.lifetechnologies.com](http://www.lifetechnologies.com)

As a brand of Thermo Fisher Scientific, Life Technologies is a biotechnology tools company dedicated to improving the human condition. Our extensive range of products and services, from instruments to everyday lab essentials, ensures quality and performance for every lab, every application. Life Technologies is proud to be the leading provider of novel tools for neural and stem cell research.

---

**Lohmann Research Equipment**

Am Foerderturn 9  
Castrop-Rauxel, 44575  
Germany  
[www.lohres.com](http://www.lohres.com)

Since 1995 (LRE) distributes high quality products for biomedical research in Europe and USA including our multiple recording system SynchroSlice, automated screening equipment and electrophysiological products like multiple slice chambers (submerged / interface), automated xyz-manipulators and valve stands for an individual and customized setup.

According to our own long – lasting experience in Neuroscience and Toxicology LOHMANN RESEARCH EQUIPMENT offers:

Contract service research in brain and heart slices or in Xenopus oocytes,  
Workshops in electrophysiology and  
Xenopus oocytes delivery service in Europe and USA  
We provide good technical support, fast service and a competent consultancy.

---

**Luigs & Neumann GmbH**

Boschstrasse 19  
40880 Ratingen  
Germany  
[www.luigs-neumann.com](http://www.luigs-neumann.com)

Since the early eighties Luigs & Neumann has established itself as well known developer and producer of electrophysiological workstations. This wealth of experience and the feedback from scientists from all over the world are the basis of the high engineering standards and manufacturing quality of Luigs & Neumann.

Our broad product range and the ability to create customer specific setups are a result of our flexible and innovative adaption to new scientific requirements. Our array of product includes patch manipulators, bath chamber systems and optical components as well as moving tables for 2-photon-systems and InVivo setups.

---

**Mauna Kea Technologies**

9 rue d'Enghien  
75010 Paris  
France  
[www.dualband.com](http://www.dualband.com)

Light up deep neurons in situ with confocal laser endomicroscopy

Neuroscience entails a wealth of key ways of exploration to help figure out the root mechanisms of neurodegenerative diseases. Today's brain imaging techniques are either limited to the organ's scale, or invasive though being high-resolutive. Despite the raise of new fluorescent markers being more sensitive, bright and specific, deep structures remain unaccessible to two-photon microscopy. We hereby introduce Cellvizio, a revolutionary in vivo imager that can reach deep brain areas, thanks to flexible fiber-optic based miniaturized objectives. Longitudinal in vivo experiments can be conducted with minimal disturbance, incredible penetration capabilities and sub-cell resolution. Imaging is possible on both anesthetized and freely-moving animals, providing novel insights to the understanding of brain functions.

---

**Merck Millipore**

CS n° 49222  
67129 Molsheim  
France

[www.merckmillipore.com](http://www.merckmillipore.com)

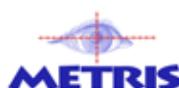

Merck Millipore is the Life Science division of Merck KGaA of Germany and offers a broad range of innovative, performance products, services and business relationships that enable our customers' success in research, development and production of biotech and pharmaceutical drug therapies. Through dedicated collaboration on new scientific and engineering insights, and as one of the top three R&D investors in the Life Science Tools industry, Merck Millipore serves as a strategic partner to customers and helps advance the promise of life science. Headquartered in Billerica, Massachusetts, the division has around 10,000 employees, operations in 68 countries.

**METRIS B.V.**

Kruisweg 829C  
2132 NG, Hoofddorp  
The Netherlands

[www.metris.nl](http://www.metris.nl)

Metris is a trendsetter in Animal Behavior & Ultrasonic Vocalization (USV) Research. Our products are used in over 35 countries around the world.

LABORAS: Automated behavior scoring of mice & rats. LABORAS tracks position and detects more than 18 normal & stereotypical behaviors! Non-invasive and doesn't use video or infra-red beams!

SONOTRACK: Full spectrum ultrasonic vocalization recording, analysis & playback system. Automatic USV counting & analysis from 15kHz to 125kHz. Suited for research in pain, anxiety, stress, schizophrenia, autism, sexual & social interaction tests!

SmartChamber: Advanced & thoughtfully designed sound-attenuation chamber suited for USV studies!

SLEEPSIGN: Automated Sleep scoring in animals!

**MicroBrightField Europe e.K.**

185 Allen Brook Lane, Suite 201  
Williston, VT 05495  
USA

[www.mbfbioscience.com](http://www.mbfbioscience.com)

MicroBrightField is offering complete systems for neuron tracing (computer - assisted or automatic / semi - automatic), stereology, confocal stereology, serial sections reconstruction and brain mapping, using either live digital video images (quired on microscopes with motorized stages) or image stacks / 2D / 3D Virtual Tissues derived from confocal or other sources, performing the morphometric analysis and generating solid model graphics output. Further products include densitometry, C.elegans tracking and analysis and high resolution video microscopy systems, either stand alone or inter- / intranet / cloud based.

~~~~~

Mightex Systems

2343 Brimley Road, Suite 868
Toronto, Ontario M1S3L6
Canada

www.mightex.com

Mightex is specialized in light delivery systems for optogenetics. Mightex's fiber-coupled LEDs feature high output power and a standard SMA connector with an interchangeable fiber. In addition, one can deliver – through the same fiber – multiple wavelengths (e.g. 470/590/630nm), switchable electronically without mechanical movement.

Mightex's Polygon400 patterned stimulators can deliver light simultaneously to multiple areas of any shapes, at any time, with any exposure time, and with user-defined intensity and color. This dream device enables scientists to target specific neuron(s), without disturbing other neurons in the vicinity. Polygon400 can be mounted on all microscopes including Leica, Nikon, Olympus and Zeiss.

~~~~~

**Miltenyi Biotec**

Friedrich-Ebert-Strasse 68  
Bergisch Gladbach, 51429  
Germany  
[www.miltenyibiotec.com](http://www.miltenyibiotec.com)

Miltenyi Biotec is a global provider of products and services that advance biomedical research and cellular therapy. Since 1989, we have developed innovative and reliable technologies for scientists and clinicians around the world. Our integrated portfolio of tools covers techniques of sample preparation, cell separation, flow cytometry, cell culture, molecular analysis, and preclinical imaging. Our expertise covers research areas like immunology, stem cell biology, neuroscience, and cancer, and clinical research areas that include hematology, graft engineering, as well as apheresis. Today, we are more than 1,300 employees in 22 countries – all dedicated to empowering scientific discovery and advancing cellular therapy.

**Molecular Devices (UK) Ltd**  
660-665 Eskdale Road  
Winnersh Triangle  
Wokingham  
RG41 5TS  
United Kingdom  
[www.moleculardevices.com](http://www.moleculardevices.com)

Molecular Devices, LLC., a leader in bioanalytical systems for drug discovery & development, life science research, and bioassay/test development. The company's systems and consumables enable pharmaceutical and biotechnology companies to leverage advances in genomics and combinatorial chemistry by facilitating the high-throughput and cost-effective identification and evaluation of drug candidates. Molecular Devices' product solutions are based on the company's advanced core technologies that integrate its expertise in engineering, molecular and cell biology, electrophysiology, and chemistry. The company enables its customers to improve their research productivity and effectiveness, which ultimately accelerates the complex process of discovering and developing new drugs.

**Moor Instruments Ltd.**

Millwey  
Axminster, EX13 5HU  
UK  
[www.moore.co.uk](http://www.moore.co.uk)

Moor are proud to support FENS 2014 in Milan. We provide high quality imagers and monitors to assess microcirculatory blood flow and oxygenation and have earned a reputation for exceptional customer service. Products include laser speckle blood flow imaging, laser Doppler blood flow and Oxygen monitoring, with new software to streamline measurements including MCAO stroke modelling and CSD imaging. Learn how our products help with acute and chronic assessments and aid compliance and reproducibility. Visit our stand to discuss any research plans and find out first-hand how our software and devices can simplify your workflow.

**Multi Channel Systems MCS GmbH**

Aspenhaustr. 21  
Reutlingen, 72770  
Germany  
[www.multichannelsystems.com](http://www.multichannelsystems.com)

Multi Channel Systems focuses on the development of precision scientific measuring instrumentation and equipment in the field of electrophysiology. We provide solutions for extra-cellular recordings with microelectrode arrays *in vitro* and *in vivo*. This year, we are proud to present our versatile MEA2100-System for *in vitro* recordings and the Wireless-Systems for recordings from freely moving animals. Together with our distribution partners, we serve laboratories, research institutes and the pharmaceutical industry all over the world. Over 15 years of experience and our international distribution network make us the global market leader in the field of non-clinical electrophysiology with microelectrode arrays.

**NAN Instruments LTD.**

9 Hayetzira St.  
P.O. 21011  
Nazareth Illit. 17840  
Israel  
[www.naninstruments.com](http://www.naninstruments.com)

NAN Instruments offers devices for recording electrical activity from the brain and nervous system. The unique design of the Electrode Positioning Systems that NAN instruments offers, gives the users powerful tools to manipulate each electrode individually in the XYZ planes. We also offer compact and light weight Chronic drives for rodents.

~~~~~

Nanion Technologies GmbH

Gabrielenstrasse 9
80636 Munich
Germany
www.nanion.de

Nanion Technologies is one of the leading providers of automated patch clamp systems. Nanion's products offer the entire experimental range from single channel recordings to HTS-compatible ion channel screening from up to 768 cells in parallel. Allowing 20,000 data points per day, the SyncroPatch 384PE is unrivalled for high throughput and high quality recordings.

Additionally, Nanion provides efficient platforms for transporter protein activity measurements, the SURFE2R, and impedance-recordings from intact cardiomyocyte networks, CardioExcite 96. Visit us at stand 161A to learn more about our exciting product families and find out how to take your ion channel projects to the next level!

**Narishige International Ltd.**

Unit 7, Willow Business Park  
London, SE26 4QP  
United Kingdom

[www.uk.narishige-group.com](http://www.uk.narishige-group.com)

Craftsman for your solutions

Throughout the world, Narishige micromanipulators are the first choice of specialists performing high-precision experiments under microscopes in such fields as electrophysiology, IVF and biotechnology. Narishige is especially known for offering a very wide choice of models to address a corresponding wide range of specific purposes – from oil hydraulic micromanipulators used in microsurgery procedures or for making accurate injections into a cell, to water hydraulic models, which effectively minimise drift in patch clamping work. Based on our commitment to making micromanipulation as easy and accurate as possible, we continue to develop products which meet the demanding needs of today's professionals.

**Neurex / JMN / NeuroTime**  
 Institute of Integrative  
 and Cellular Neurosciences  
 Department of Biological Rhythms  
 UPR 3212 CNRS  
 5 rue Blaise Pascal  
 67084 Strasbourg  
 France  
[neuromaster.u-strasbg.fr/JMN01homepage.html](http://neuromaster.u-strasbg.fr/JMN01homepage.html)

Visit our tripartite Neurex / JMN / NeuroTime booth # 85! Neurex is one of the most important European Neuroscience network, federating 3 countries (France, Germany, Switzerland) and 1200 researchers. Neurex organizes scientific and public meetings and supports researchers, companies and start-ups.  
<http://www.neurex.org/> Seeking a master in Neuroscience? The Joint Master in Neurosciences – JMN - Universities of Strasbourg, and Freiburg provides very appealing courses in a motivating environment. You wish to enroll into an international PhD program? The NeuroTime EPJD offers possibilities of fellowships.

**NeuroNexus**  
 655 Fairfield Ct  
 Ann Arbor, MI 48108  
 USA  
[NeuroNexus.com](http://NeuroNexus.com)

NeuroNexus is a global leader for innovative neural interface products and technologies to meet current and emerging needs in neuroscience research, neurosurgery, and neurostimulation. Our diverse line of products is used in species ranging from fruit flies to non-human primates to precisely record, stimulate, and deliver drugs across all areas of the nervous system. Our technologies and products are aimed at advancing brain research and therapies.

**Neurostar**  
 Kähnerweg 1  
 72072 Tübingen  
 Germany  
[www.neurostar.de](http://www.neurostar.de)

Neurostar is the inventor and worldwide only manufacturer of Robot Stereotaxy Solutions.

#### Robot Stereotaxy Solutions:

- Motorized Stereotaxic: atlas integration, computer control, ultra-precision, reproducible results, high-throughput
- Microinjection Robot: ultra high-precision, computer control, multiple injection sites
- Drill Robot: high precision depth control, high accuracy craniotomy & skull thinning
- Drill & Injection Robot: high-throughput drill & inject, no tool exchange, define protocols
- Smart Bregma Finder: automated camera-driven positioning, video streaming, experiment monitoring
- All-In-One Electrophysiology Workstation (components):
- Amplifiers/Headstages (up to 4 channels, Spikes, LFPs)
- Programmable Stimulator
- Data Acquisition Module
- Microdrive, computer controlled with micron resolution
- Experiment-Control Software with Atlas Integration

**Neurotar**  
 Viikinkaari 4  
 FI-00790 Helsinki  
 Finland  
[www.neurotar.com](http://www.neurotar.com)

Neurotar develops innovative research tools for the academic brain research and provides *in vivo* two-photon imaging services for global pharmaceutical and biotech companies. Neurotar's proprietary Mobile HomeCage enables stress-less head fixation of awake, behaving mice, thus eliminating the need to use anesthetics for *in vivo* microscopy and patch clamp recordings. Key focus areas of our drug development services are trans-BBB PK of large molecules, neurodegeneration and stroke. Neurotar is engaged at target validation and lead/candidate selection stages.

**Nikon Instruments**

Via San Quirico 300  
50013 Campi Bisenzio  
Firenze  
Italy

[www.nikoninstruments.com](http://www.nikoninstruments.com)

Today Nikon is a world-renowned brand, firmly established as a market leader in optical instrumentation and the only microscope company to manufacture its own glass, ensuring the very finest quality assurance throughout production. With over 90 years expertise in the field, Nikon has always been at the forefront of optical and technological innovation, promoting creativity and trustworthiness as part of the company's global mission statement. The Nikon story began back in 1917 when three Japanese optical manufacturers merged to form a company known as Nippon Kogaku KK ('Japan Optics'), producing precision optical glass. The next few decades brought considerable growth to the microscopy division, ground-breaking polarising and stereo microscopes were introduced until today where Nikon has introduced the innovative Super Resolution systems.

**Noldus Information Technology**

P.O. Box 268  
6700 AG Wageningen  
The Netherlands

[www.noldus.com/animal-behavior-research](http://www.noldus.com/animal-behavior-research)

Noldus Information Technology develops, markets, and supports professional software and instrumentation for animal behavior research. These products enable the collection, analysis, management, and presentation of behavioral data. Scientists all over the world use them to study behavioral processes, automate experiments, and improve the quality and efficiency of their research. The product range includes a number of successes such as EthoVision XT, DanioVision, PhenoTyper, CatWalk XT, The Observer XT and more. Additionally, Noldus offers complete set-ups; packages that include mazes and other equipment – all you need to perform your experiment. Services include consulting, training, and technical support.

**Novus Biologicals Ltd**

12 Cambridge Science Park  
Cambridge, CB4 0FQ  
UK

[www.novusbio.com](http://www.novusbio.com)

Novus Biologicals is a global proteomics company with offices in North America and Europe. We commercialise more than 180,000 guaranteed research products, and specialise in antibodies, proteins and peptides. All of our products are shipped worldwide and are 100% guaranteed. They are supplied with detailed technical information and live support. Novus Biologicals recently purchased Imgenex, broadening its product range and expertise to Innate Immunity and Toll Like Receptors antibodies and reporter cell lines.

**npi electronic GmbH**

Bauhofring 16  
71732 Tamm  
Germany.

[www.npi-electronic.com](http://www.npi-electronic.com)

For over 25 years npi electronic GmbH develops and produces equipment for research in the life sciences with main focus on neurosciences. Instruments include patch and voltage clamp amplifiers, oocyte amplifiers, extracellular amplifiers, stimulus isolators, voltammetric/amperometric amplifiers, miniature headstages for *invivo* experiments, amplifiers for electroporation, filters, substance application systems, temperature controllers and data acquisition systems. npi electronic can supply integrated systems like the robotic ScreeningTool for ion channel drug screening using oocytes, and complete setups. npi electronic is a leader in design and manufacture of instruments for bioelectrical measurements and microelectrode techniques.

**Olympus Europa SE & Co. KG.**

Wendenstraße 14-18  
20097 Hamburg  
Germany

[www.olympus-europa.com/microscopy](http://www.olympus-europa.com/microscopy)

**OLYMPUS**

Your Vision, Our Future

Olympus Microscopy - imaging systems for every application. With its European headquarters in Hamburg, Olympus is one of the world's leading manufacturers of professional opto-digital products for medicine, science and industry. Olympus provides microscopes for training and routine tasks as well as high-end system solutions across the life sciences. The Olympus VS120 virtual slide scanning system combines the concepts of microscopy and digital imaging, supplying users with a versatile virtual slide - an exact copy of the sample. The Olympus FluoView FVMPE-RS multiphoton imaging system unites high-speed, deep observation capabilities with multi-colour imaging (up to 1.300 nm) and powerful laser light stimulation, offering a complete, compromise-free solution.

**Optical Imaging Ltd.**

Oppenheimer 5  
Rehovot, 7670105  
Israel

[www.opt-imaging.com](http://www.opt-imaging.com)

Optical Imaging Ltd is the manufacturer and developer of the Brain Imagers based on optical methods, their related accessories and voltage sensitive dyes. Applications of the brain imagers (BI) include (1) Brain mapping based on intrinsic signals (ISI), including intrinsic fluorescence chromophores like Flavo proteins. (2) Voltage sensitive dye imaging (VSDI) In-vitro, In-vivo. (3) Functional mapping based on calcium probes at the population level, based on organic probes, or based on genetically engineered probes. (4) Studies of the microcirculations such as mapping blood flow-velocity or noninvasive capillary perfusion mapping. The imagers are a turnkey system designed for scientist by leading scientists and engineers.

**Perimed AB**

Datavägen 9 A  
SE-17543 Järfälla  
Sweden

[www.perimed-instruments.com](http://www.perimed-instruments.com)

Since establishment in 1981, Perimed has been developing and manufacturing state-of-the-art equipment for blood perfusion measurements based on laser Doppler technology.

The single point blood perfusion monitor PeriFlux System 5000 is used to measure microcirculation in applications ranging from research in mouse models to clinical work in humans.

Blood perfusion imaging techniques allow recording microcirculation with even greater spatial resolution. The laser Doppler imager PeriScan PIM 3 System is commonly used in ischemic hindlimb models. The laser speckle contrast imager PeriCam PSI System provides real-time, high-resolution blood flow images and is frequently used in stroke models and cortical spreading depression.

**PhenoSys GmbH**

Schumannstr. 18  
10117 Berlin  
Germany

[www.phenosys.com](http://www.phenosys.com)

**PHENOSYS**

Technology for Behaviour Analysis

PhenoSys offers cutting edge technology for behaviour biology including virtual reality mazes, touchscreen chambers, animal sorters, systems for activity measurements, and automated home cages. We use RFID-technology (transponder) in home cage environments to provide high throughput solutions. Our systems are used for behavioural phenotyping, brain research, and the diagnostic characterisation of animal models for translational medicine.

**Pinnacle Technology Inc.**  
2721 Oregon Street  
Lawrence, KS 66046-4947  
USA  
[www.pinnaclet.com](http://www.pinnaclet.com)

Pinnacle specializes in developing preclinical turn-key systems that simplify measurement, reduce cost, and enable new discoveries. We offer turn-key wireless and tethered systems for mice and rats. Popular products include EEG/EMG systems for sleep or seizure research, biosensor systems that enable simultaneous measurement of up to three sensors, fast scan cyclic voltammetry systems, and automated sleep deprivation systems. Synchronized video and precision timing tools are available that can be added to any hardware setup along with a variety of cages and stands. Upgrade from our free acquisition software package with premium analysis modules. Customization is also available.

**Plexon Inc.**  
Rue Abbé Cuypers 3  
1040 Bruxelles  
Belgium  
[www.plexon.com](http://www.plexon.com)

Plexon is a pioneer and leading innovator of custom, high performance data acquisition, behavior and analysis solutions specifically designed for scientific research. We collaborate with and supply thousands of customers including the most prestigious neuroscience laboratories around the globe driving new frontiers in areas including basic science, brain-machine interfaces (BMI), neurodegenerative diseases, addictive behaviors and neuroprosthetics. Plexon offers integrated solutions for *in vivo* neurophysiology, optogenetics and behavioral research - backed by its industry-leading commitment to quality and customer support.

**PLOS, The Public Library of Science**  
1160 Battery Street, Suite 100  
San Francisco, CA, 94111, US  
[www.plos.org](http://www.plos.org)

PLOS is a nonprofit Open Access publisher, innovator and advocacy organization with a mission to lead a transformation in research communication – making it better, faster and more effective. PLOS publishes a suite of influential journals from all areas of science and medicine.

**Proteintech Group**  
Unit 12, Kilburn House,  
Manchester Science Park,  
Lloyd Street North  
Manchester  
M15 6SE, UK  
[www.ptglab.com](http://www.ptglab.com)

Proteintech Group currently have over 10,000 antibodies in its' catalog, all of which have been by a specialist in-house team in multiple species and multiple applications. Over 90% of our antibodies are raised against the whole recombinant protein which gives them superior protein recognition capabilities and versatility. We use primary tissues and regular cell lysates to perform all of our validation. Proteintech antibodies are also covered by our simple refund policy, which means you can try ANY antibody in ANY application and ANY species; if you're not satisfied with the results, we will give you your money back.

**Qwane Biosciences**  
EPFL Innovation Park,  
Building C  
CH-1015 Lausanne  
Switzerland  
[www.qwane.com](http://www.qwane.com)

Qwane Biosciences provides micro-electrode arrays (MEA) for *in-vitro* neuronal network electrophysiology. We have over 20 MEA designs available, including our unique 3D tip-shaped electrodes that are well suited for acute brain slice recording and stimulation. We also offer user-specific designs in terms of MEA-layout configuration, including co-culture MEAs. In order to help with the challenge and bottleneck posed by data analysis from MEA experiments, we are launching a unique cloud-based MEA data analysis service.

We are also pleased to present a new product that has been specifically designed and tailored to study axonal and trans-synaptic electrical activity, the Q-MEA platform.

**Research Diets, Inc.**

20 Jules Lane,  
New Brunswick  
NJ 08901  
[www.ResearchDiets.com](http://www.ResearchDiets.com)

[www.ResearchDiets.com](http://www.ResearchDiets.com)

Research Diets, Inc. formulates and produces purified-ingredient OpenSource Diets for laboratory animals. Our Resource Center is staffed with scientists who consult with our customers around the world on diet formulations. Our open formulas allow scientists to report, repeat, and revise their work. We have formulated over 15,000 original diets and regularly incorporate compounds. In addition, we manufacture the BioDAQ Food and Liquid Intake Monitor. BioDAQ controls spillage and reduces interaction between scientists and animals while recording the moment-to-moment, bout-by-bout intake of rats and mice. Automated gate is programmable by time or amount consumed. Data is interpreted using powerful analysis software.

**Research in Germany**

Kennedyallee 40  
53175 Bonn  
Germany  
[www.research-in-germany.de](http://www.research-in-germany.de)  
[www.dfg.de/forschungsmarketing](http://www.dfg.de/forschungsmarketing)

**Research in Germany**

Land of Ideas  
[www.research-in-germany.de](http://www.research-in-germany.de)

"Research in Germany" is an initiative in which several German organisations join forces and organise measures and events to present German innovation and research in key international markets. The initiative – launched by the Federal Ministry of Education and Research (BMBF) in 2006 – seeks to strengthen and expand R&D collaboration between Germany and international partners.

As a visitor to our booth, you can get information on career and funding opportunities in Germany. Find out more about flexible individual funding for internships, graduate school, doctoral and postdoctoral programs, sabbaticals or scientific collaboration.

**Rogue Research Inc.**

4398 St-Laurent, Suite 206  
Montreal, QC, H2W 1Z5  
Canada  
[www.rogue-research.com](http://www.rogue-research.com)

For almost 15 years, Rogue Research has served the neuroscience community with our Brainsight family of products including Brainsight TMS, Brainsight NIRS and Brainsight Vet. Brainsight TMS is the most popular TMS neuronavigator in the world and works with any TMS coil. Brainsight NIRS is a new fNIRS device designed for multimodality use with TMS, MEG, EEG or fMRI. Brainsight Vet, is a complete neuronavigation system and suite of neurosurgical tools for a variety of applications. We also offer design and manufacturing services for custom surgical tool or implants as well as our new fMRI/ePhys combo-chair for awake animal experimentation.

**Royal Society Publishing**

6-9 Carlton House Terrace  
London SW1Y 5AG  
UK

[royalsocietypublishing.org/journals](http://royalsocietypublishing.org/journals)

The Royal Society's biology journals – Open Biology, Philosophical Transactions B, Proceedings B and Biology Letters – regularly publish articles and theme issues within neuroscience. All of our journals provide high-quality peer review and rapid, broad dissemination to a wide, international audience. We have recently published theme issues on long-term potentiation, spatial representation within the hippocampus, timing in neurobiological processes, vision and animal behaviour, perceptual awareness and mirror neurons. Visit us at booth 47 in the exhibition area for more information and to collect free samples, or contact our representative Helen Eaton [Helen.Eaton@royalsociety.org](mailto:Helen.Eaton@royalsociety.org).

**RWD Life Science Co., Ltd**

1106, FangDa S&T Bldg,  
Hi-Tech Industrial Park  
Nanshan District  
ShenZhen  
GuangDong Province  
518057  
China  
[www.rwdstco.com](http://www.rwdstco.com)

RWD Life Science Co., Ltd, with factory and office area of 3000 square meters, is located in Shenzhen Special Economic Zone. Since its establishment in 2002, it has been dedicated to being an international leading manufacturer of life science research and industry instruments.

Our products and solutions, including the following 7 series: Stereotaxic Instruments and Accessories, Anesthesia machine, Ventilator, Syringe Pumps, Microdialysis System, Cannula System, Surgical Instruments, have been distributed worldwide, in which stereotaxic instrument enjoys good reputation home and abroad.

**Sable Systems**

Ostendstrasse 25  
12459 Berlin  
Germany  
[www.sablesys.com](http://www.sablesys.com)

Trusted by scientific leaders as the world leader in metabolic measurement, Sable Systems International has a 26 year reputation for innovation, expertise and scientific insight. Sable's Promethion™ Line of metabolic and behavioral phenotyping solutions is the fastest and most accurate route to results for behavioral and energy expenditure studies, meeting ImPRESS Calorimetry and IACUC standards. Automated measurement of MR, RER, food and water uptake, food access control and activity monitoring in compact systems designed for workflow efficiency. Educational outreach and training is customized. Sable alone spans the entire model animal range, from microbes to Drosophila, rodent to human.

**SAGE Labs**

2033 Westport Center Drive  
St. Louis, MO 63146  
USA  
[www.sageresearchlabs.com](http://www.sageresearchlabs.com)

SAGE Labs specializes in the custom design, development and characterization of unique, next-generation animal research models featuring specific gene deletions, insertions and modifications. We also provide extensive support services for researchers working with animal research models.

**Scientifica Ltd.**

Kingfisher Court, Brambleside  
Bellbrook Industrial Estate  
Uckfield,  
East Sussex, TN22 1QQ  
United Kingdom  
[www.scientifica.uk.com](http://www.scientifica.uk.com)

Scientifica specialises in innovative, superior and cost-effective solutions for electrophysiology and multi-photon imaging. Products are specifically designed to be stable and electrostatically quiet whilst giving the flexibility and adaptability to switch between *in vitro* and *in vivo* recording.

Scientifica has developed an impressive product range including micromanipulators, complete rigs, mounting equipment and accessories. Bespoke product combinations tailor the set-up to individual research needs, without compromising flexibility for changes in future research. Scientifica's solutions are used in laboratories throughout the world, including many top universities, research centres and pharmaceutical companies.

**Sensapex**

Teknologiantie 13  
90590 Oulu  
Finland  
[www.sensapex.com](http://www.sensapex.com)

Sensapex provides world's smallest high precision and ultra stable micromanipulators for patch-clamp and sharp recordings, microinjections and general microelectrode techniques. Our compact battery operated controller can control up to 14 micromanipulators. This provides the leanest and most cost efficient micromanipulation system in the market! Come and test our latest product versions, including the new high-precision micromanipulation systems for the stereotaxic experiments.

**Sociedad Espanola  
De Neurociencias (SENC)  
and Sociedad Espanola  
De Neurología (SEN)**

Secretaría Técnica  
Londres, 17- 28008  
Madrid  
Spain  
[www.senc.es](http://www.senc.es)  
[www.sen.es](http://www.sen.es)

The Spanish Society for Neuroscience (Sociedad Española de Neurociencia, SENC) and the Spanish Neurological Association (Sociedad Española de Neurología, SEN) are the largest organizations of researchers and clinicians dedicated to study the nervous system and the neurological disorders in Spain. The goals of these societies are to promote the advance in the knowledge in the fields of Neuroscience and Neurology, and the support, training and education of neuroscientists and neurologists and the public dissemination of the basic and clinical neuroscience research.

**Society for Neuroscience (SfN)**  
1121 14<sup>th</sup> Street NW; Suite 1010  
Washington 20005  
USA  
[www.sfn.org](http://www.sfn.org)

The Society for Neuroscience (SfN) is the world's largest organization of scientists and physicians devoted to the brain and the nervous system. The Society publishes The Journal of Neuroscience – the most cited journal in neuroscience. SfN's annual meeting is the flagship event in the field with over 30,000 attendees.

**SONIDEL Limited**

32 Tonlegee Drive  
Dublin 5  
Ireland

[www.sonidel.com](http://www.sonidel.com)

Transfect Everything! – SONIDEL is pleased to present the NEPA21 electroporation system that makes it possible to achieve high transfection efficiency and viability for difficult-to-transfect cells such as primary neurons, blood cells etc. WITHOUT using expensive special kits. For those instances where harvesting adherent cells, e.g. neurons, is difficult, the NEPA21 allows direct transfection of the cells in adherence. In addition to its in-vitro transfection capability, the NEPA21 is an ideal tool for in-vivo/in-utero/in-ovo/ex-vivo transfections that target adult/neonatal/embryo brain, retina, cornea, spinal cord, liver, kidney, testis, muscle, skin, etc. SONIDEL also manufactures a range of sonoporation devices.

**Springer**

Tiergartenstr. 17  
69121 Heidelberg  
Germany  
[www.springer.com](http://www.springer.com)

Come and browse current Springer titles. Get 20% off print books and eBooks – and learn about MyCopy editions. Springer, your partner in publishing. Meet our Editors at the Springer booth # 122 to discuss your publishing proposal.

**Stoelting Europe**

Ground floor Hilton House  
3 Ardee Road  
Rathmines, Dublin 6  
Ireland  
[www.stoeltingeurope.com](http://www.stoeltingeurope.com)

Stoelting Europe was launched by Stoelting Co. in early 2008, and is responsible for all of Stoelting Co.'s European activities, supplying the finest Neuroscience and Physiology research instrumentation. This includes Stoelting's renowned line of stereotaxic & surgical instruments and our highly advanced video tracking software, ANYmaze. At Stoelting, we are proud of our tradition of innovation, and have a strong commitment to support scientific research. We seek to offer only high quality, reliable instruments, and support them with prompt, educated customer service from our staff of science professionals

**Sutter Instrument Co.**

One Digital Drive  
Novato, CA 94949  
USA

[www.sutter.com](http://www.sutter.com)

Quality. Precision. Reliability. For over 40 years, Sutter Instrument has set the highest possible standards for performance and innovation. Our product lines include devices for micropipette fabrication, imaging, micromanipulation, microscopy and microinjection. New products include: Quad 4-axis micromanipulator, Son of MOM (SOM) simple moving microscope optimized to allow *in vivo* and *in vitro* experimentation in one set-up, and the Lambda HPX high-output LED light source. Also on display will be our FREE stand-alone Multi-Link™ Position Control Software that can link the movement of any Sutter device connected to the MPC-200 controller, including manipulators, translators, motorized microscopes and MPC-78 platform stage.

**Synaptic Systems GmbH**  
Rudolf-Wissell-Strasse 28  
37079 Goettingen  
Germany  
[www.sysy.com](http://www.sysy.com)

Synaptic Systems started business in 1997 with just a handful licensed antibodies against synaptic proteins which were already well known in the scientific community for their excellent quality. Focussing on synaptic proteins the product portfolio was increased with licensed antibodies during the next years. Since 2002 an own research laboratory allows product refinement and the development of own antibodies. Today the majority of the products are own developments, but high quality antibodies that fit in the product line are still licensed. Custom monoclonal antibody development and other services are also available.

**Ted Pella, Inc.**

P.O. Box 492477  
Redding, California  
USA

[www.tedpella.com](http://www.tedpella.com)

Ted Pella, Inc. offers microscopy instruments and supplies worldwide, serving Neuroscience laboratories utilizing light, fluorescence, confocal and electron microscopes. We are introducing the new PELCO easiSlicer™ vibratory microtome, the new standard in affordable, quality fresh tissue sectioning. Our instrument line includes Dosaka Microslicers™, Motic® light microscopes and digital cameras and the PELCO Biowave® Pro Microwave Tissue Processor. We provide brain matrices, Harris punches, surgical supplies, gold conjugates and lab reagents. We offer humidity chambers, wellplate inserts, glassware and glass bottom dishes. We carry PAP pens, microscope slides and coverslips, storage containers and a full line of histology supplies and equipment.

**The Brain Prize**  
Ole Maaløes Vej 3  
Copenhagen N, 2200  
Denmark  
[www.thebrainprize.org](http://www.thebrainprize.org)

The €1 million Prize is awarded annually by Grete Lundbeck European Brain Research Foundation, a charitable, non-profit trust. The Brain Prize will be awarded to one or more scientists who have distinguished themselves by an outstanding contribution to European brain research. The Brain Prize is a personal prize and is this year jointly awarded to Ed Boyden, Ernst Bamberg, Karl Deisseroth, Peter Hegemann, Gero Miesenböck and Georg Nagel. The Prize Award will be followed by an extensive outreach programme organized together with the major Danish universities and the Danish Society for Neuroscience.

**The MIT Press**

One Rogers Street  
Cambridge, MA 02142-1209  
USA  
[mitpress.mit.edu](http://mitpress.mit.edu)

**Thorlabs GmbH**

Hans-Boeckler-Str. 6  
Dachau  
Germany  
[www.thorlabs.com](http://www.thorlabs.com)

The MIT Press publishes distinguished scholarly books in Neuroscience and related cognitive and biological sciences. New titles in 2014 include: The New Visual Neurosciences edited by John S Werner and Leo Chalupa; Neuroscience: A Historical Introduction by Mitchell Glickstein; An Introduction to the Event-Related Potential Technique, Second Edition by Steven Luck; and Brain Structure and Its Origins by Gerald Schneider.

We welcome the submission of proposals and manuscripts for consideration; Robert Prior, Executive Editor, will be available during the conference to talk to you.

**Thermo Scientific**

Industrielaan 27  
Erembodegem, 9320  
Belgium  
[www.thermoscientific.com/pierce](http://www.thermoscientific.com/pierce)

Thermo Scientific Protein Biology Products- Thermo Scientific Protein Biology Research Products include kits and reagents for sample preparation; protein detection and quantitation, purification, interaction, and function studies; and custom antibody and peptide services. New instruments such as the MYECL Imager for Western blot and gel detection and documentation are also available. All are essential tools for tools for efficient life science research.

**Thomas RECORDING GmbH**

Winchester Strasse 8  
35394 Giessen  
Germany  
[www.thomasrecording.com](http://www.thomasrecording.com)

Thomas RECORDING GmbH is the sole manufacturer and distributor of microelectrodes and multi-electrode recording systems for brain research and medical applications. As a specialist of microelectrodes for neurophysiological research, it was the first company in the world to develop 4-cores (Tetrodes) and 7-cores (Heptodes) quartz-platinum-tungsten multifiber microelectrodes. Furthermore Thomas RECORDING GmbH offers a 5-channel microdrive (Mini-Matrix), camera based eye-tracking systems, medical functional neuronavigation systems and stereotaxic frames.

Thorlabs is a leading designer and manufacturer of photonics equipment for research and manufacturing applications. Additionally, Thorlabs' imaging group produces imaging systems and components for life science applications. Standard systems include confocal and multiphoton microscopes. Founded in 1989, Thorlabs is headquartered in Newton, NJ with over 850 employees worldwide.

**TOPTICA Photonics AG**

Lochhamer Schlag 19  
82166 Graefelfing  
Germany  
[www.toptica.com](http://www.toptica.com)

*A Passion for Precision.*

TOPTICA Photonics AG develops, manufactures, services and distributes technology-leading diode and fiber lasers and laser systems for scientific and industrial applications. Sales and service are offered worldwide through TOPTICA Germany and its subsidiary TOPTICA USA, as well as all through 14 distributors. A key point of the company philosophy is the close cooperation between development and research to meet our customers' demanding requirements for sophisticated customized system solutions and their subsequent commercialization.

**TSE Systems GmbH**

Siemensstr. 21  
61352 Bad Homburg  
Germany  
[www.TSE-Systems.com](http://www.TSE-Systems.com)

TSE Systems is a developer and manufacturer of preclinical Sophisticated Life Science Research Instrumentation since 1886. Today, we provide highly advanced customer solutions with modular, integrated hardware and software platforms for studies in metabolic and behavioral phenotyping, neuroscience, drug screening, cardiovascular and inhalation exposure in intact animals.

**Latest Product Innovation:**

STELLAR Telemetry - sets new standards in wireless animal physiology monitoring where the animal can move anytime, anywhere and still record your data gap-free and loss-less using the latest technology

**Tucker-Davis Technologies**  
 11930 Research Circle  
 Alachua, FL 32615  
 USA  
[www.tdt.com](http://www.tdt.com)

Leading the field of neurophysiology instrumentation, Tucker-Davis Technologies is committed to providing custom systems, tailored to your specific research initiatives. TDT simplifies recording with awake animals – easily connect our patented, zero insertion force ZIF Clip® headstages and build custom electrode configurations, anywhere from 1 to 1000 electrodes and beyond. Our PZ amplifiers offer the best dynamic range on the market, enabling limitless recording paradigms with our powerhouse RZ processors. Paired with our software, TDT systems provide the power and flexibility best suited to further your research.

**UGO BASILE S.R.L.**  
 Via Guido Borghi 43  
 Comerio  
 Italy  
[www.ugobasile.com](http://www.ugobasile.com)

UGO BASILE is the world's leading manufacturer of instruments for Pain and Behavioral Research. With more than 10,000 hits in the major bibliographic search engines, Ugo Basile provides classic and innovative instruments that scientists have been using worldwide since 1963: Rota-rod, Plethysmometer, Randall-Selitto Analgesy-meter, Plantar Test (Hargreaves Test), Dynamic Plantar Aesthesiometer, Von Frey Hairs & Electronic Von Frey, Orofacial Stimulation Test, P.A.M. for Joint Pain, Rodent Ventilator, Gas Anesthesia.

**World Precision Instruments**  
 1 Hunting Gate  
 Hitchin, SG4 0TJ  
 UK  
[www.wpi-europe.com](http://www.wpi-europe.com)

World Precision Instruments, Inc. (WPI) is a leading global provider of powerful, cutting-edge laboratory solutions for the life sciences, with European technical sales staff based in the UK, Germany and France. On display will be our stereotaxic frames, our UltraMicropump microinjection systems, Sensapex motorised manipulators, anti-vibration solutions and a range of surgical tools and other consumables. Please visit our booth to discuss your requirements with our highly qualified technical sales staff.

**Viewpoint S.A.**  
 3 Allée des Chevreuils  
 69380, Lissieu  
 France  
[www.viewpoint.fr](http://www.viewpoint.fr)

VIEWPOINT is pioneer in behaviour analysis videotracking. Our main products are:

VIDEOTRACK: rodents applications as Morris watermaze, elevated plus Maze, Object recognition,

- PHENORACK: rodents in their home cages for high throughput phenotyping experiments
- ZEBRALAB is a high throughput screening for larvae or adults zebrafish behaviour analysis, PMR, heartbeat, bloodflow
- GAITLAB is a turnkey solution for automated quantitative assessment of catwalk analysis,
- VIGIE PRIMATES enables to work on primates and dogs
- MARLAU Enrichment Cages: moving through a maze is motivated by the need to find food.
- SLEEP DEPRIVATION SYSTEM

**Wiley**  
 9600 Garsington Road  
 Oxford OX4 2DQ  
 United Kingdom  
[www.wileyonlinelibrary.com/subject/neuroscience](http://www.wileyonlinelibrary.com/subject/neuroscience)

Wiley-Blackwell is the international scientific, technical, medical and scholarly publishing business of John Wiley & Sons, with strengths in every major academic and professional field and partnerships with many of the world's leading societies. Wiley-Blackwell publishes 29 journals listed in the Neuroscience category on ISI, including European Journal of Neuroscience, as well as a range of core books in print and online, databases, major reference works and laboratory protocols.

**Wisepress Medical Bookshop**  
 25 High Path, Merton Abbey  
 London, SW19 2JL, UK  
[www.wisepress.com](http://www.wisepress.com)

Wisepress.com, Europe's leading conference bookseller, has a complete range of books and journals relevant to the themes of the meeting. Books can be purchased at the stand or, if you would rather not carry them, posted to you – Wisepress will deliver worldwide. In addition to attending 200 conferences per year, Wisepress has a comprehensive medical and scientific bookshop online with great offers.

# 9<sup>th</sup> FENS FORUM OF NEUROSCIENCE

## Milan | Italy July 5–9, 2014

Organised by the Federation of European Neuroscience Societies | FENS

Hosted by the Società Italiana di Neuroscienze | SINS

## SCIENTIFIC PROGRAMME Saturday, 5<sup>th</sup> July

# *Sophisticated Life Science Research Instrumentation*

# Innovative Systems for Rodent Phenotyping

# Behavior

# Metabolism

# Telemetry

**SCIENTIFIC PROGRAMME  
SATURDAY, JULY 05, 2014**

12:30 - 15:30

Hall G

**TECHNICAL WORKSHOP:**

**W01: From synapses to network oscillations: High resolution recording techniques**

|                                                                                                                        |   |
|------------------------------------------------------------------------------------------------------------------------|---|
| Chairs: H.R. Polder ( <i>Germany</i> )                                                                                 | 1 |
| A. Draguhn ( <i>Germany</i> )                                                                                          | 2 |
| 12:30 <b>MICRO-IONTOPHORESIS OF GLUTAMATE AND GABA: A USEFUL TOOL TO INVESTIGATE SYNAPTIC INTEGRATION</b>              | 3 |
| C. Müller, S. Remy ( <i>Bonn, Germany</i> )                                                                            |   |
| 13:00 <b>RECORDING AND LABELING SINGLE NEURONS IN FREELY MOVING RATS: INSIGHTS INTO THE CELLULAR BASIS OF BEHAVIOR</b> | 4 |
| A. Burgalossi ( <i>Berlin, Tübingen</i> )                                                                              |   |
| 13:30 <b>NOVEL INSIGHTS INTO HUMAN NEOCORTICAL NETWORKS: PHYSIOLOGICAL AND PATHOLOGICAL OSCILLATORY STATES</b>         | 5 |
| M. Cunningham ( <i>Newcastle Upon Tyne, United Kingdom</i> )                                                           |   |
| 14:00 <b>OPTICAL AND ELECTROPHYSIOLOGICAL IDENTIFICATION OF CO-ACTIVE NEURONS</b>                                      | 6 |
| S. Reichinnek, T. Pfeiffer, A. Draguhn, M. Both ( <i>Heidelberg, Germany</i> )                                         |   |
| 14:30 <b>JUXTACELLULAR RECORDING AND LABELING OF CORTICAL NEURONS IN FREELY MOVING RODENTS DURING NATURAL SLEEP</b>    | 7 |
| R. Averkin, V. Szemenyei, G. Tamás ( <i>Szeged, Hungary</i> )                                                          |   |
| 15:00 <b>TWO-PHOTON FUNCTIONAL IMAGING OF DENDRITIC SPINES IN DEEP CORTICAL LAYERS IN VIVO</b>                         | 8 |
| H. Jia, Z. Varga, B. Sakmann, A. Konnerth ( <i>München, Germany</i> )                                                  |   |

12:30 - 15:30

Hall D1

**TECHNICAL WORKSHOP:**

**W02: Optical measurement and manipulation of neural circuits in transparent animal models**

|                                                                                                                                                |    |
|------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Chairs: C. Wyart ( <i>France</i> )                                                                                                             | 9  |
| P. Gorostiza ( <i>Spain</i> )                                                                                                                  | 10 |

# SCIENTIFIC PROGRAMME

## Saturday, 5<sup>th</sup> July

---

12:30 - 15:30

Hall F

### TECHNICAL WORKSHOP:

#### W03: Novel trans-synaptic tracing approaches for functional-anatomical studies of neuronal circuits

|                                                                                                           |    |
|-----------------------------------------------------------------------------------------------------------|----|
| Chairs: T.W. Margrie ( <i>United Kingdom</i> )                                                            | 17 |
| A. Frick ( <i>France</i> )                                                                                | 18 |
| <b>12:30 LINKING CIRCUIT STRUCTURE TO FUNCTION WITH GENETICALLY MODIFIED RABIES VIRUSES</b>               | 19 |
| E. Callaway ( <i>La Jolla, USA</i> )                                                                      |    |
| <b>13:00 CONNECTING THE FLASHING DOTS: WHAT IS THE BIG PICTURE OF CORTICAL CIRCUITS?</b>                  | 20 |
| K.A.C. Martin ( <i>Zürich, Switzerland</i> )                                                              |    |
| <b>13:30 MAPPING SYNAPTIC FUNCTION AND CONNECTIVITY IN CORTICAL CELLS</b>                                 | 21 |
| T.W. Margrie ( <i>London, United Kingdom</i> )                                                            |    |
| <b>14:00 COMBINING RETROVIRUS AND RABIES VIRUS TO STUDY NEW CELL INTEGRATION INTO AN EXISTING CIRCUIT</b> | 22 |
| H. Van Praag ( <i>Baltimore, USA</i> )                                                                    |    |
| <b>14:30 TAGGING NEURONAL POPULATIONS WITH NOVEL PSEUDORABIES VIRUSES</b>                                 | 23 |
| K. Beier, D. Goz, C.L. Cepko ( <i>Stanford, USA</i> )                                                     |    |
| <b>15:00 THE BRAINBOW HERPESVIRUS - EXPANDING THE VIRAL NEURONAL TRACING TOOLBOX</b>                      | 24 |
| O. Kobiler, L.W. Enquist, J.P. Card ( <i>Tel Aviv, Israel</i> )                                           |    |

---

12:30 - 15:30

Hall D2

### TECHNICAL WORKSHOP:

#### W04: Closed-loop methodology in neural systems

|                                                                                                                                                     |    |
|-----------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Chair: A. El Hady ( <i>Germany</i> )                                                                                                                | 25 |
| <b>12:30 OPTIMAL CONTROL OF THE BASAL GANGLIA - A PROMISING APPROACH IN THERAPY OF NEUROLOGICAL AND PSYCHIATRIC DISORDERS</b>                       | 26 |
| H. Bergman ( <i>Jerusalem, Israel</i> )                                                                                                             |    |
| <b>13:00 HEBBIAN LEARNING RULES AND CONTROL THEORETIC INVERSE MODELS</b>                                                                            | 27 |
| R. Hahnloser ( <i>Zurich, Switzerland</i> )                                                                                                         |    |
| <b>13:30 ASSESSING NEURONAL SIGNAL INTEGRATION BY MEASURING ISO-RESPONSE STIMULI WITH CLOSED-LOOP ELECTROPHYSIOLOGY</b>                             | 28 |
| T. Gollisch ( <i>Goettingen, Germany</i> )                                                                                                          |    |
| <b>14:00 BRAIN-MACHINE CO-ADAPTATION IN CLOSED-LOOP NEUROPROSTHETIC SYSTEMS</b>                                                                     | 29 |
| J. Carmena ( <i>Berkeley, USA</i> )                                                                                                                 |    |
| <b>14:30 EXPERIMENTAL CLOSED-LOOP MOTOR-SENSORY CONTROL FOR THE STUDY OF ACTIVE PERCEPTION</b>                                                      | 30 |
| A. Wallach, K. Bagdasarian, E. Ahissar ( <i>Rehovot, Israel</i> )                                                                                   |    |
| <b>15:00 FLEXIBLE FEEDBACK STIMULATION LOOP(S) BETWEEN ARBITRARY SETS OF INDIVIDUAL NEURONS ON HIGH-RESOLUTION CMOS-BASED MICROELECTRODE ARRAYS</b> | 31 |
| J. Müller, D.J. Bakkum, M. Radivojevic, M. Ballini, P. Livi, Y. Chen, A. Hierlemann ( <i>Basel, Switzerland</i> )                                   |    |

12:30 - 15:30

Hall E

**TECHNICAL WORKSHOP:**

**W05: New approaches to understand astrocyte-neuron interactions in health and disease**

|                                                                                                                                     |    |
|-------------------------------------------------------------------------------------------------------------------------------------|----|
| Chairs: A. Araque ( <i>Spain</i> )                                                                                                  | 32 |
| C. Escartin ( <i>France</i> )                                                                                                       | 33 |
| <b>12:30 LIVE IMAGING OF THE TRIPARTITE SYNAPSE USING STED MICROSCOPY</b>                                                           | 34 |
| A. Panatier, S.H. Oliet, U.V. Nägerl ( <i>Bordeaux, France</i> )                                                                    |    |
| <b>13:00 3D IMAGING OF ASTROCYTE CA<sub>2+</sub> DYNAMICS DURING SYNAPTIC FUNCTION IN THE ADULT BRAIN</b>                           | 35 |
| A. Volterra, N. Liaudet, E. Bindocci, C. Dürst, I. Savtchouk ( <i>Lausanne, Switzerland</i> )                                       |    |
| <b>13:30 ASTROCYTE ACTIVATION MODULATES EXCITATORY/INHIBITORY BALANCE AND RESPONSE SELECTIVITY OF VISUAL CORTEX NEURONS IN VIVO</b> | 36 |
| G. Perea ( <i>Madrid, Spain</i> )                                                                                                   |    |
| <b>14:00 IN VIVO ANALYSIS OF ASTROCYTE CA<sub>2+</sub> DYNAMICS DURING LOCOMOTION</b>                                               | 37 |
| D. Bergles, M. Paukert, A. Agarwal, J. Cha, V. Doze, J. Kang ( <i>Baltimore, USA</i> )                                              |    |
| <b>14:30 NEW TOOLS TO STUDY ASTROCYTE FUNCTION IN BEHAVING MICE</b>                                                                 | 38 |
| A. Nimmerjahn ( <i>La Jolla, USA</i> )                                                                                              |    |

| W. Chen ( <i>Berlin, Germany</i> )                                                                                           |    |

# SCIENTIFIC PROGRAMME

## Saturday, 5<sup>th</sup> July

---

15:45 - 17:15

Hall A

### SPECIAL INTEREST EVENT:

#### SiE01: EJN Special Feature - Modern neurocircuitry analysis

|                                                                                        |    |
|----------------------------------------------------------------------------------------|----|
| Chairs: J. Fritschy ( <i>Switzerland</i> )                                             | 49 |
| M. Sarter ( <i>USA</i> )                                                               | 50 |
| 15:45 <b>SYNAPTIC ORGANISING COMPLEXES: MOLECULAR TRIGGERS FOR SYNAPSE DEVELOPMENT</b> | 51 |
| A.M. Craig ( <i>Vancouver, Canada</i> )                                                |    |
| 16:15 <b>THE MECHANISMS AND MEANING OF NEOCORTICAL DYNAMICS</b>                        | 52 |
| C.I. Moore ( <i>Providence, USA</i> )                                                  |    |
| 16:45 <b>CONNECTIVITY-BASED BRAIN MAPPING</b>                                          | 53 |
| M. Tittgemeyer ( <i>Cologne, Germany</i> )                                             |    |

---

17:15 - 18:00

Hall A

### OPENING CEREMONY:

|                                                                                                                      |    |
|----------------------------------------------------------------------------------------------------------------------|----|
| 17:15 <b>WELCOME BY THE HOST SOCIETY COMMITTEE CHAIR AND SINS</b>                                                    | 54 |
| Marina Bentivoglio, HSC/SINS                                                                                         |    |
| 17:20 <b>WELCOME BY THE MUNICIPALITY OF MILAN</b>                                                                    | 55 |
| Pierfrancesco Majorino                                                                                               |    |
| 17:25 <b>WELCOME BY THE REGION OF LOMBARDY</b>                                                                       | 56 |
| Mario Melazzini                                                                                                      |    |
| 17:30 <b>MUSICAL WELCOME BY "FANFARA DEL COMANDO 1<sup>^</sup> REGIONE AEREA DELL'AERONAUTICA MILITARE ITALIANA"</b> |    |
| 17:50 <b>WELCOME BY THE FENS PRESIDENT</b>                                                                           | 57 |
| Marian Joëls                                                                                                         |    |

---

18:00 - 19:00

Hall A

### PLENARY LECTURE:

#### PL01: Kavli Foundation Lecture

|                                                 |    |
|-------------------------------------------------|----|
| Introducer: M. Joëls ( <i>The Netherlands</i> ) | 58 |
| <b>REWARD, VALUE AND PSYCHOPATHOLOGY</b>        | 59 |
| R. Dolan ( <i>London, United Kingdom</i> )      |    |

---

19:00 - 22:00

Hall F

### NETWORKING EVENT:

**Symposium in honour of the late Ferdinando Rossi:  
A passionate journey through the cerebellar mysteries**

---

All Day

Hall B

### NETWORKING EVENT:

**History Corner exhibition**

---

All Day

Hall B

### NETWORKING EVENT:

**The Smile of the Mind exhibition**

# 9<sup>th</sup> FENS FORUM OF NEUROSCIENCE

## Milan | Italy July 5–9, 2014

Organised by the Federation of European Neuroscience Societies | FENS

Hosted by the Società Italiana di Neuroscienze | SINS

## SCIENTIFIC PROGRAMME Sunday, 6<sup>th</sup> July

20:00 GENERAL DISCUSSION

170

---

18:45 - 20:45

Hall C

**SPECIAL INTEREST EVENT:**

**SiE04: William Safire Seminar on Neuroethics**

Chair: B. Sahakian (*United Kingdom*)

171

**INTRACRANIAL EEG AND ELECTRICAL BRAIN STIMULATION**

172

J. Parvisi (*USA*)

**MR IMAGING FOR UNDERSTANDING DEVELOPMENTAL BRAIN DISORDERS- A TRANSLATIONAL APPROACH**

173

P. Hüppi (*Switzerland*)

**SINGLE NEURON RECORDINGS IN NEUROSURGICAL PATIENTS**

174

I. Fried (*Israel*)

**COGNITIVE ENHANCEMENTS AND HUMAN BRAIN STIMULATION: WHEN DOES SCIENTIFIC LAZINESS  
BECOME FRAUD?**

175

V. Walsh (*United Kingdom*)

---

18:45 - 20:00

Hall G

**NETWORKING EVENT:**

**Neurogastronomy, the 'brain cuisine' presented by Gordon M. Shepherd**

---

18:45 - 22:30

Hall F

**NETWORKING EVENT:**

**Big Questions in Neuroscience**

---

18:45 - 20:30

Hall D2

**NETWORKING EVENT:**

**YITP meeting**

---

19:00 - 21:00

Hall D1

**NETWORKING EVENT:**

**International Synapse Championships**

---

18:45 - 21:00

**NETWORKING EVENT:**

**International Society for Serotonin Research Social Gathering**

Venue: Milano, Via Procaccini 37

SCIENTIFIC PROGRAMME  
**Sunday, 6<sup>th</sup> July**

# 9<sup>th</sup> FENS FORUM OF NEUROSCIENCE

Milan | Italy July 5–9, 2014

Organised by the Federation of European  
Neuroscience Societies | FENS

Hosted by the Società Italiana  
di Neuroscienze | SINS

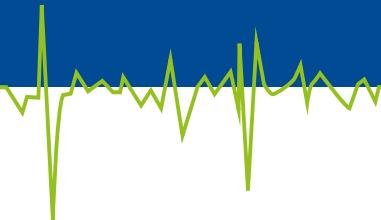

11:15 - 13:15

POSTER PRESENTATION I  
Sunday, 6<sup>th</sup> July

[www.fens.org/2014](http://www.fens.org/2014)

**FENS** Federation of  
European Neuroscience  
Societies

Plexon is the pioneer and global leader in custom, high performance and comprehensive data acquisition and behavioral analysis solutions specifically designed for neuroscience research.

- ◆ Extensive online spike sorting
- ◆ 16 - 256 channels with DigiAmp™
- ◆ Analog & NEW digital headstages
- ◆ Real-time low latency performance

- ◆ Stand-alone CinePlex Lite, or
- ◆ Full integration with neural recording
- ◆ Real-time & offline tracking
- ◆ Full range of cameras up to 200fps

- ◆ Industry leading LED intensities
- ◆ LED/Laser driver with pattern generation
- ◆ Ultra high performance cables & implants
- ◆ Dual LED commutator with electrical data lines

- ◆ Rated 9.5/10 by attendees
- ◆ Up to 4 people per full workstation
- ◆ 1-on-1 coaching
- ◆ Enter to WIN a FREE Registration to the Annual Plexon Workshop - \$900 Value

Every THREE days a NEW lab chooses Plexon...Come find out why!!

SAVE  
THE  
DATE

6th Plexon Neurophysiology & Behavior Workshop  
Week of April 27, 2015, Dallas, Texas, USA  
Ask us about HALF PRICED tickets with system purchase!!

# 9<sup>th</sup> FENS FORUM OF NEUROSCIENCE

## Milan | Italy July 5–9, 2014

Organised by the Federation of European Neuroscience Societies | FENS

Hosted by the Società Italiana di Neuroscienze | SINS

13:30 - 15:30

POSTER PRESENTATION II  
Sunday, 6<sup>th</sup> July

# EXCLUSIVE FREE PRODUCT OFFER!

Ion Channel Antibodies & Modulators

GPCR Antibodies & Pharmacology

Neurotrophins

Transporters, Exchangers & Pumps

To receive your free product, visit [www.alomone.com](http://www.alomone.com),

# POSTER PRESENTATION II

## Sunday, 6<sup>th</sup> July

13:30 - 15:30

Poster Area

BOARD NO DATE - PRESENTATION TIME - ABSTRACT NUMBER

INDEX NUMBER

D031 **SUN 6/7/2014, 13:30 - FENS-0872**

**SOUND PRESENTATION DURING DIFFERENT RESPIRATION PHASES ALTERS THE SOUND-INDUCED SYMPATHETIC TONE**

1019

Y. Ooishi, T. Sato (*Atsugi, Japan*)

D032 **SUN 6/7/2014, 14:30 - FENS-1969**

**PROTECTIVE EFFECT OF ROSMARINIC ACID IN NOISE INDUCED HEARING LOSS: A FUNCTIONAL AND MORPHOLOGICAL STUDY**

1020

F. Paciello, S.L.M. Eramo, R. Rolesi, M. Ralli, A.R. Fetoni, D. Troiani, G. Paludetti (*Rome, Italy*)

### D07: TACTILE/SOMATOSENSORY - PERIPHERAL RECEPTORS

D033 **SUN 6/7/2014, 13:30 - FENS-2811**

**TRANSLATIONAL RESEARCH ON MECHANICAL SENSITIVITY: ANALYSIS OF QUANTITATIVE SENSORY TESTING IN RATS UNDER NAIVE AND NEUROPATHIC CONDITIONS**

1021

O. Caspani, D. Hrncic, R.D. Treede (*Mannheim, Germany*)

D034 **SUN 6/7/2014, 14:30 - FENS-3372**

**ENHANCED TACTILE HEAT DISCRIMINATION IN CONGENITAL BLINDNESS**

1022

H. Slimani, L. Plaghki, M. Ptito, R. Kupers (*København, Denmark*)

### D08: TACTILE/SOMATOSENSORY - BRAIN STEM, THALAMUS, CORTEX

D035 **SUN 6/7/2014, 13:30 - FENS-0378**

**CAN RATS PERCEIVE TEMPORAL VIBRATION PATTERNS?**

1023

S. Antopoliskiy, M.E. Diamond (*Trieste, Italy*)

D036 **SUN 6/7/2014, 14:30 - FENS-1566**

**A VIRTUAL TACTILE ENVIRONMENT TO STUDY SOMATOSENSORY PROCESSING IN MOUSE CORTEX DURING LOCOMOTION**

1024

A. Ayaz, A. Stäuble, F. Helmchen (*Zurich, Switzerland*)

D037 **SUN 6/7/2014, 13:30 - FENS-2927**

**CHOLINERGIC MODULATION ENHANCES FLUCTUATIONS OF MEMBRANE POTENTIAL OF POSTEROMEDIAL THALAMIC NEURONES OF THE RAT**

1025

M. Bekisz, S. Nersisyan, E. Kublik, B. Granseth, A. Wróbel (*Warsaw, Poland*)

D038 **SUN 6/7/2014, 14:30 - FENS-2024**

**CHARACTERIZATION OF WHISKER EVOKED LOCAL FIELD POTENTIALS IN RAT'S VENTRAL AND DORSAL ZONA INCERTA**

1026

Z. Borzymowska, D. Swiejkowski, A. Wróbel, E. Kublik (*Warszawa, Poland*)

D039 **SUN 6/7/2014, 13:30 - FENS-2535**

**STIMULUS LOCKED BETA OSCILLATIONS IN THE THALAMO-CORTICAL BARREL SYSTEM OF AWAKE RAT**

1027

K. Jurewicz, A. Stompor, A. Kaminski, D. Swiejkowski (*Warsaw, Poland*)

D040 **SUN 6/7/2014, 14:30 - FENS-2582**

**TEMPORAL PATTERN OF POST- STIMULS GAMMA OSCILLATIONS IN RAT SOMATOSENSORY THALAMUS IS MODULATED BY AROUSAL LEVEL**

1028

K. Paluch, A. Sobolewski, D. Swiejkowski, A. Wróbel, E. Kublik (*Warsaw, Poland*)

D041 **SUN 6/7/2014, 13:30 - FENS-3737**

**SPATIAL ORGANIZATION OF NEURONS CODING FOR COMPLEX MULTI-WHISKER FEATURES IN S1BF**

1029

L. Bourdieu, L. Estebanez, J.F. Bertherat, D.E. Shulz, J.F. Léger (*Paris, France*)

**13:30 - 15:30**

**Poster Area**

# 9<sup>th</sup> FENS FORUM OF NEUROSCIENCE

## Milan | Italy July 5–9, 2014

Organised by the Federation of European Neuroscience Societies | FENS

Hosted by the Società Italiana di Neuroscienze | SINS

## SCIENTIFIC PROGRAMME Monday, 7<sup>th</sup> July

# DEMENTIA

## Consortium

### \$5m in funding for molecular targets

We are an alliance of medical research charities and pharmaceutical companies established to help deliver new treatments for dementia from academic research.

The Dementia Consortium offers unparalleled expertise in collaborative early stage drug discovery. We are advancing promising projects towards the clinic, and sharing revenues from future drugs with the originating scientists to fund continuing research.

Applicants will work with the expert high-throughput screening, medicinal chemistry and antibody engineering teams within the Consortium to progress their projects towards the clinic, and may access additional resources from the industrial partners.

For more information and an application form please call or visit our website.

#### We are looking for targets to:

- Alzheimer's disease
- Dementia - Frontotemporal, with Lewy bodies and Vascular
- Tauopathies
- Neurodegeneration associated cognitive deficits

#### The global initiative is open to:

- Academic researchers with a promising novel approach to dementia therapy
- SME and small biotechs looking for further preclinical target validation of a new therapeutic small molecule or antibody

# SCIENTIFIC PROGRAMME

## Monday, 7<sup>th</sup> July

---

9:45 - 11:15

Hall J

### SYMPOSIUM:

#### S19: Glia in neuronal information processing: from synapses to behaviour.

|                                                                                                                         |      |
|-------------------------------------------------------------------------------------------------------------------------|------|
| Chair: N. Rouach ( <i>France</i> )                                                                                      | 1200 |
| 9:50 <b>THE ROLE OF ASTROCYTE-SECRETED FACTORS IN THE FORMATION OF FUNCTIONAL EXCITATORY SYNAPSES</b>                   | 1201 |
| N. Allen ( <i>La Jolla, USA</i> )                                                                                       |      |
| 10:10 <b>GLIAL CELLS DECODE AND ALTER TRANSMITTER RELEASE OF COMPETING TERMINALS AT MAMMALIAN NEUROMUSCULAR SYNAPSE</b> | 1202 |
| R. Robitaille, H. Darabid ( <i>Montreal, Canada</i> )                                                                   |      |
| 10:30 <b>UNRAVELING THE ROLE OF ASTROGLIAL CONNEXINS IN SYNAPTIC STRENGTH AND MEMORY</b>                                | 1203 |
| N. Rouach ( <i>Paris, France</i> )                                                                                      |      |
| 10:50 <b>THE ROLE OF GLIAL TRANSMITTER RECEPTORS IN VIVO</b>                                                            | 1204 |
| F. Kirchhoff ( <i>Homburg, Germany</i> )                                                                                |      |

---

9:45 - 11:15

Hall C

### SYMPOSIUM:

#### S20: Neurobiological and neurogenetic bases of the link between sleep, stress and depression.

|                                                                                             |      |
|---------------------------------------------------------------------------------------------|------|
| Chairs: F. Holsboer ( <i>Germany</i> )                                                      | 1205 |
| L. Imeri ( <i>Italy</i> )                                                                   | 1206 |
| 9:50 <b>HYPOCRETIN NEURONS AT THE INTERFACE OF SLEEP AND MOOD REGULATION</b>                | 1207 |
| V. Fabre, A. Rachalski, S.J. Lin, M. Hamon, G. Vodjdani, J. Adrien ( <i>Paris, France</i> ) |      |
| 10:10 <b>NEUROBIOLOGICAL CONSEQUENCES OF CHRONICALLY DISRUPTED SLEEP</b>                    | 1208 |
| P. Meerlo ( <i>Groningen, The Netherlands</i> )                                             |      |
| 10:30 <b>STUDYING REM SLEEP IN ANIMAL MODELS TO UNDERSTAND DEPRESSION IN HUMANS</b>         | 1209 |
| M. Kimura ( <i>Munich, Germany</i> )                                                        |      |
| 10:50 <b>CHRONOBIOLOGY OF DEPRESSION: THE ROLE OF CLOCK GENES</b>                           | 1210 |
| F. Benedetti ( <i>Milan, Italy</i> )                                                        |      |

---

9:45 - 11:15

Hall E

### SYMPOSIUM:

#### S21: Risk factors for vulnerability to addiction.

|                                                                                                              |      |
|--------------------------------------------------------------------------------------------------------------|------|
| Chair: L. Coolen ( <i>USA</i> )                                                                              | 1211 |
| 9:50 <b>IMPULSIVITY IN ADDICTION: HORMONAL AND MONOAMINERGIC MECHANISMS AND TREATMENT OPPORTUNITIES</b>      | 1212 |
| T. Pattij, T.J. De Vries, A.N.M. Schoffelmeer ( <i>Amsterdam, The Netherlands</i> )                          |      |
| 10:10 <b>INSULIN-INDUCED EFFECTS IN THE VENTRAL TEGMENTAL AREA</b>                                           | 1213 |
| S. Borgland, S. Liu, A. Globa, F. Mills, S.X. Bamji ( <i>Vancouver, Canada</i> )                             |      |
| 10:30 <b>EFFECTS OF NATURAL REWARD EXPERIENCE AND DEPRIVATION ON DRUG REWARD</b>                             | 1214 |
| L. Coolen ( <i>Jackson, USA</i> )                                                                            |      |
| 10:50 <b>EXTENDED AMYGDALA AND HYPOTHALAMIC CIRCUITS FOR REGULATING DISTINCT MOTIVATED BEHAVIORAL STATES</b> | 1215 |
| G. Stuber ( <i>Chapel Hill, USA</i> )                                                                        |      |

9:45 - 11:15

Hall I

**SYMPORIUM:**

**S22: In vivo functional recording of neuronal population activity.**

|                                                                                                                                                                        |      |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Chair: B. Rózsa ( <i>Hungary</i> )                                                                                                                                     | 1216 |
| <b>9:50 IN VIVO CALCIUM IMAGING OF NEURONS AND MICROGLIA IN MOUSE MODELS OF NEURODEGENERATIVE DISEASES</b>                                                             | 1217 |
| O. Garaschuk ( <i>Tübingen, Germany</i> )                                                                                                                              |      |
| <b>10:10 VISUALIZING THE DEVELOPMENT OF ON/OFF MAPS IN FERRET VISUAL CORTEX</b>                                                                                        | 1218 |
| D. Fitzpatrick, G. Smith, D. Whitney ( <i>Jupiter, USA</i> )                                                                                                           |      |
| <b>10:30 IN VIVO FUNCTIONAL IMAGING HIPPOCAMPAL MICRCOCIRCUITS SUPPORTING SENSORY PROCESSING AND CONTEXTUAL LEARNING IN BEHAVING MICE</b>                              | 1219 |
| A. Losonczi ( <i>New York, USA</i> )                                                                                                                                   |      |
| <b>10:50 FAST 3D IMAGING OF NEURAL NETWORK AND DENDRITIC ACTIVITY DURING BRAIN OSCILLATIONS IN NEARCUBICMILLIMETER VOLUME UP TO SUBMILLISECOND TEMPORAL RESOLUTION</b> | 1220 |
| B. Rózsa, B. Chiovini, G.F. Turi, G. Katona, A. Kaszas, D. Palfi, P. Maak, G. Szalay, Z. Szadai, G. Szabo, M.F. Szabo, S.Z. Kali ( <i>Budapest, Hungary</i> )          |      |

| T. Pasternak ( <i>Rochester, USA</i> )                                                                                          |      |

# SCIENTIFIC PROGRAMME

## Monday, 7<sup>th</sup> July

---

9:45 - 11:15

Hall H

### SYMPOSIUM:

#### S24: Genetic analysis of neural circuits controlling reproduction.

|                                                                                                                    |      |
|--------------------------------------------------------------------------------------------------------------------|------|
| Chair: U. Boehm ( <i>Germany</i> )                                                                                 | 1226 |
| <b>9:50 BRAIN CIRCUITRY IN THE METABOLIC CONTROL OF REPRODUCTION: NEW STRATEGIES, NOVEL INSIGHTS</b>               | 1227 |
| C. Elias ( <i>Ann Arbor, USA</i> )                                                                                 |      |
| <b>10:10 SEMAPHORINS'SIGNALING IN DEVELOPMENT AND FUNCTION OF GNRH NEURONS: SETTING THE STAGE FOR REPRODUCTION</b> | 1228 |
| P. Giacobini ( <i>Lille, France</i> )                                                                              |      |
| <b>10:30 FGF21 AS A LINK BETWEEN METABOLISM AND REPRODUCTION</b>                                                   | 1229 |
| N. Pitteloud ( <i>Lausanne, Switzerland</i> )                                                                      |      |
| <b>10:50 KISSPEPTIN NEURONS AND THE ONSET OF PUBERTY</b>                                                           | 1230 |
| U. Boehm ( <i>Homburg, Germany</i> )                                                                               |      |

---

13:00 - 13:45

Hall B

### SPECIAL LECTURE:

#### SL03: Host Society Special Lecture

|                                                                                                   |      |
|---------------------------------------------------------------------------------------------------|------|
| Introducer: M. Matteoli ( <i>Italy</i> )                                                          | 1231 |
| <b>CELL BIOLOGY OF THE NEURON: MEMBRANE LIPID DYNAMICS IN THE REGULATION OF SYNAPTIC FUNCTION</b> | 1232 |
| P. De Camilli ( <i>New Haven, USA</i> )                                                           |      |

---

12:30 - 13:30

Hall C

### SPECIAL INTEREST EVENT:

#### SiE05: Neuroscience Outreach Awards Programme Comprising the EDAB-FENS Brain Awareness Week (BAW) Excellence Award & The Dana/EDAB Neuroscience Outreach Champion

---

13:00 - 13:45

Hall C

### SPECIAL LECTURE:

#### SL04: EDAB / Max Cowan Special Lecture

|                                                                         |      |
|-------------------------------------------------------------------------|------|
| Introducer: C. Blakemore ( <i>United Kingdom</i> )                      | 1233 |
| <b>GENETIC AND EXTRA-GENETIC REGULATION OF CORTICAL AREA PATTERNING</b> | 1234 |
| D. O'Leary ( <i>La Jolla, USA</i> )                                     |      |

---

13:00 - 13:45

Hall J

### SPECIAL LECTURE:

#### SL05: Boehringer-Ingelheim / FENS Research Award

|                                                             |      |
|-------------------------------------------------------------|------|
| Introducer: B. Sommer ( <i>Germany</i> )                    | 1235 |
| <b>PROCESSING OF CORRELATED SYNAPTIC INPUT BY DENDRITES</b> | 1236 |
| J. Makara ( <i>Budapest, Hungary</i> )                      |      |

---

15:45 - 17:15

Hall D

**SYMPOSIUM:**

**S25: Regulatory mechanisms of neuronal specification.**

|                                                                                            |      |

| <b>RETT AND MECP2-ASSOCIATED DISORDERS: FROM PATIENTS TO GENES AND NEUROBIOLOGY</b> | 1281 |
| H. Zoghbi ( <i>Houston, USA</i> )                                                   |      |

# SCIENTIFIC PROGRAMME

Monday, 7<sup>th</sup> July

---

18:45 - 21:00

Hall F

## SPECIAL INTEREST EVENT:

**SiE06: Building your Career: non-academic opportunities**

|       |                                                                           |      |
|-------|---------------------------------------------------------------------------|------|
| 18:45 | <b>INTRODUCTORY NOTE</b>                                                  | 1282 |
|       | Chair: H. Luhmann ( <i>Germany</i> )                                      |      |
| 18:50 | <b>FROM SCIENCE TO INDUSTRY: DIFFERENT ROLES, DIFFERENT OPPORTUNITIES</b> | 1283 |
|       | F. Conicella ( <i>Italy</i> )                                             |      |
| 19:10 | <b>R&amp;D PROCESS AND OPPORTUNITIES</b>                                  | 1284 |
|       | D. D'Urso ( <i>Germany</i> )                                              |      |
| 19:30 | <b>SCIENCE AND A COMMUNICATIONS CAREER</b>                                | 1285 |
|       | E. Snell ( <i>United Kingdom</i> )                                        |      |
| 19:50 | <b>Q &amp; A</b>                                                          | 1286 |
| 20:10 | <b>WINE TASTING AND INFORMAL GATHERING</b>                                | 1287 |

---

18:45 - 20:30

Hall E

## NETWORKING EVENT:

**Educational Course on: Manuscript and Grant Writing, effective Poster or Talk preparation**

---

18:45 - 20:00

Suite 4

## NETWORKING EVENT:

**Trisomy 21 Research Society Social Gathering**

---

18:45 - 22:30

Hall H

## NETWORKING EVENT:

**Neuroinformatics social - networking data, tools and people**

---

18:45 - 20:00

## NETWORKING EVENT:

**Meet top scientists and experts from German funding organizations at a speed-dating event**

Venue: Museo Nazionale della Scienza e della Tecnologia Leonardo da Vinci

---

19:30 - 03:00

## NETWORKING EVENT:

**Jump the FENS Party**

Venue: Alcatraz

# 9<sup>th</sup> FENS FORUM OF NEUROSCIENCE

## Milan | Italy July 5–9, 2014

Organised by the Federation of European Neuroscience Societies | FENS

Hosted by the Società Italiana di Neuroscienze | SINS

11:15 - 13:15

POSTER PRESENTATION III  
Monday, 7<sup>th</sup> July

FINE SURGICAL INSTRUMENTS  
FOR RESEARCH™

## Only one name in surgical instruments emerges.

- Scissors
- Forceps
- Hemostats
- Retractors
- Clamps
- Rongeurs
- Magnifiers
- Bone Instruments
- Scalpels & Knives
- Probes & Hooks
- Spatulae & Spoons
- Pins & Holders
- Feeding Needles
- Wound Closure
- Needles & Needle Holders
- Animal Identification
- Surgical Plates
- Instrument Care & Sterilization
- Surgical & Laboratory Accessories
- Student Quality Instruments
- & Much More

Visit us at [finescience.de](http://finescience.de)  
to explore our complete  
product line, and to locate  
our offices and dealers  
around the world.

**11:15 - 13:15**

## B19: NEUROTRANSMITTERS AND SIGNALLING MOLECULES - NITRIC OXIDE AND OTHER GASES

B020 **MON 7/7/2014, 12:15 - FENS-0253**

**NADPH-DIAPHORASE/NITRIC OXIDE SYNTHASE IN THE CNS OF TWO CLADISTIANS FISHES**

1352

D. Lozano, S. Bandín, D. Monjas, L. Morales, S. Helgueta, R. Morona, N. Moreno, A. González, J.M. López (*Madrid, Spain*)

B021 **MON 7/7/2014, 11:15 - FENS-0599**

**NITRIC OXIDE / CYCLIC GMP SIGNALING REGULATES MOTILITY OF A MICROGLIAL LINE AND PRIMARY MICROGLIA IN VITRO**

1353

H. Scheiblich, F. Roloff, V. Singh, M. Stangel, M. Stern, G. Bicker (*Hannover, Germany*)

## B20: ION CHANNELS - POTASSIUM CHANNELS

B022 **MON 7/7/2014, 12:15 - FENS-0887**

**CLINICAL ASPECTS OF POTASSIUM CHANNELS SIGNAL FUNCTION**

1354

N. Bogdanova, N.C.H. Pogorela, I.S. Magura, E.A. Lukyanetz (*Kyiv, Ukraine*)

B023 **MON 7/7/2014, 11:15 - FENS-1508**

**FUNCTIONAL CHARACTERIZATION OF GENETICALLY IDENTIFIED CHOLINERGIC AND GABAERGIC NEURONS IN THE PEDUNCULOPONTINE NUCLEUS OF MICE**

1355

C. Bordás, A. Koszeghy, E. Kokai, M. Sivado, P. Szucs, B. Pal (*Debrecen, Hungary*)

B024 **MON 7/7/2014, 12:15 - FENS-0396**

**CEREBELLAR GRANULE CELLS EXHIBIT DISTINCT DEVELOPMENTAL EXPRESSION OF VOLTAGE-DEPENDENT CHANNELS IN THE HEMISPHERES AS COMPARED TO THE VERMIS**

1356

F. Brandalise, R. Lujan, U. Gerber, P. Rossi (*Jona, Switzerland*)

B025 **MON 7/7/2014, 11:15 - FENS-3495**

**SK2 CHANNELS AND MGLU5 RECEPTORS ASSEMBLE INTO FUNCTIONALLY INTERACTING COMPLEXES**

1357

F. Ciruela, G. García-Negredo, D. Soto, J. Llorente, K.M.O. Galenkamp, V. Fernández-Dueñas, J.P. Adelman, R. Shigemoto, Y. Fukozawa, R. Luján (*Barcelona, Spain*)

B026 **MON 7/7/2014, 12:15 - FENS-0730**

**CYCLIC NUCLEOTIDE-DEPENDENT MODULATION OF PACEMAKER CURRENT IN THALAMIC NEURONS**

1358

M. Datunashvili, E. Mergia, A. Baumann, D. Koesling, H. Pape, T. Budde (*Münster, Germany*)

B027 **MON 7/7/2014, 11:15 - FENS-1393**

**LOCALIZATION OF RGS7/Gβ5 COMPLEXES AND THEIR GABAB/GIRK SIGNALLING PARTNERS IN THE HIPPOCAMPUS**

1359

A. Fajardo Serrano, K. Wickman, K. Martemyanov, R. Luján (*Albacete, Spain*)

B028 **MON 7/7/2014, 12:15 - FENS-1905**

**INWARD RECTIFIER POTASSIUM CURRENT IN DOPAMINERGIC CELLS OF THE MOUSE OLFACTORY BULB**

1360

A. Fogli Iseppe, M. Borin, A. Pignatelli, F. Pighin, O. Belluzzi (*Ferrara, Italy*)

B029 **MON 7/7/2014, 11:15 - FENS-1123**

**EFFECT OF LEPTIN ON ADRENAL MOUSE CHROMAFFIN CELLS FUNCTION**

1361

D. Gavello, D. Vandaël, S. Gosso, E. Carbone, V. Carabelli (*Torino, Italy*)

BOARD NO DATE - PRESENTATION TIME - ABSTRACT NUMBER

INDEX NUMBER

C026 MON 7/7/2014, 12:15 - FENS-2265

**SURVIVAL EFFECT OF EMBRYONIC PROTEOGLYCANS IN ALZHEIMER'S DISEASE PATHOLOGY VIA REGULATION NEUROGENESIS AND APOPTOSIS IN OLFACTORY BULB**

1456

K. Yenkoyan, T. Davtyan, A. Mkhitaryan, V. Chavushyan, M. Aghajanov (*Yerevan, Armenia*)

## C21: REPEAT EXPANSION DISEASES - HUNTINGTON'S DISEASE

C027 MON 7/7/2014, 11:15 - FENS-2025

**LOSS OF GLUTAMATERGIC SYNAPTIC TERMINALS AND REDUCED DOPAMINE RELEASE IN THE STRIATUM OF HYPOKINETIC MICE EXPRESSING A MUTANT FORM OF HUNTINGTIN**

1457

D. Betances, S. Paul, T. Rothe, H. Stark, R. Grantyn (*Berlin, Germany*)

C028 MON 7/7/2014, 12:15 - FENS-2960

**INVESTIGATING THE ROLE OF BCL2/ADENOVIRUS E1B 19KDA INTERACTING PROTEIN 3 IN THE MITOCHONDRIAL DYSFUNCTION IN HUNTINGTON'S DISEASE**

1458

A. Ciammola, F. Sassone, A. Maraschi, V. Silani, J. Sassone (*Milan, Italy*)

C029 MON 7/7/2014, 11:15 - FENS-0116

**TAU HYPERPHOSPHORYLATION AND DYSREGULATION OF CALCINEURIN IN HUNTINGTON MODELS**

1459

M. Gratuze, A. Noel, P. Milot-Rousseau, F. Morin, P. Samadi, E. Planel (*Quebec City, Canada*)

C030 MON 7/7/2014, 12:15 - FENS-3021

**MODELLING STRIATAL DYSFUNCTIONS IN HUNTINGTON DISEASE USING HUMAN PLURIPOTENT STEM CELLS-DERIVED NEURONAL NETWORKS**

1460

S. Gribaudo, P. Tixador, C. Nicoleau, A. Bugi, J.M. Peyrin, A.L. Perrier (*Evry, France*)

C031 MON 7/7/2014, 11:15 - FENS-0582

**CHARACTERIZATION OF A POTENTIAL NOVEL THERAPEUTICAL TOOL TO REVERSE HISTONE HYPOACETYLATION IN NEUROPATHOLOGIES**

1461

D. Guigetti, L.M. Valor, A. Barco (*Sant Joan, Alicante, Spain*)

C032 MON 7/7/2014, 12:15 - FENS-3101

**QUANTITATIVE ANALYSIS OF THE CORTICOSTRIATAL AND THALAMOSTRIATAL SYSTEMS IN THE Z-Q175 MOUSE MODEL OF HUNTINGTON'S DISEASE**

1462

I. Huerta-Ocampo, J.P. Bolam (*Oxford, United Kingdom*)

C033 MON 7/7/2014, 11:15 - FENS-1454

**MINIPIG AS A LARGE ANIMAL MODEL FOR HUNTINGTON'S DISEASE STUDY**

1463

S. Juhas, J. Juhasova, P. Vochozkova, J. Klima, B. Bohuslavova, L. Recek, D. Howland, J. Motlik (*Libechov, Czech Republic*)

C034 MON 7/7/2014, 12:15 - FENS-0233

**MDR1 CAN BE THE TARGET TO REDUCE THE AGGREGATION OF MUTANT HUNTINGTIN**

1464

M. Kim, W.S. Im, J.J. Bhan, J.Y. Chung, S.T. Lee, K. Chu (*Seoul, Korea*)

C035 MON 7/7/2014, 11:15 - FENS-0757

**INTERROGATING THE ROLE OF SPLICING FACTORS IN HUNTINGTON'S DISEASE**

1465

G. Kooner, R. Mason, L. Pinion, J. Moreno, G. Mallucci, F. Giorgini (*Leicester, United Kingdom*)

C036 MON 7/7/2014, 12:15 - FENS-0829

**IDENTIFICATION OF MICRORNAs INVOLVED IN HUNTINGTON'S DISEASE**

1466

F. Ribeiro, I.M. Guimaraes, A.N.A. Goncalves, J.T. Marques (*Belo Horizonte, Brazil*)

**DOWNSREGULATION OF KV1.2 PRIMES CA3 PYRAMIDAL CELLS FOR MEMORY FORMATION AT PP SYNAPSES** 1882

K. Eom, K. Hyun, W.K. Ho, S.H. Lee (*Seoul, Korea*)

**B30: SYNAPSES - POSTSYNAPTIC STRUCTURES**

B044 **MON 7/7/2014, 14:30 - FENS-1978**

**POST-PHOSPHORYLATION PROLYL-ISOMERIZATION OF PSD95 REGULATES NMDA-MEDIATED SYNAPTIC TRANSMISSION IN THE HIPPOCAMPUS**

1883

R. Antonelli, R. De Filippo, E. Cherubini, P. Zacchi (*Trieste, Italy*)

B045 **MON 7/7/2014, 13:30 - FENS-2862**

**PHYSIOLOGICAL ROLE OF NLGN2 IN ANXIETY PROCESSING IN MICE**

1884

O. Babaev, D. Krueger-Burg, N. Brose (*Göttingen, Germany*)

B046 **MON 7/7/2014, 14:30 - FENS-3228**

**STUDY OF POSTSYNAPTIC ZINC CHANGES IN HIPPOCAMPAL CA3 AREA USING THE FLUORESCENT INDICATOR NEWPORT GREEN**

1885

V. Corceiro, F.M.C. Bastos, C.M. Matias, P.J. Mendes, F.D.S. Sampaio dos Aidos, J.C. Dionisio, R.M. Quinta-Ferreira, F.J.A. Cardoso, M.E. Quinta-Ferreira (*Coimbra, Portugal*)

B047 **MON 7/7/2014, 13:30 - FENS-2992**

**INHIBITORY SYNAPSES: PALMITOYLATION OF GEPHYRIN AS A NOVEL REGULATOR OF STRUCTURAL PLASTICITY!?**

1886

S. Ebert, B. Dejanovic, G. Schwarz (*Cologne, Germany*)

B048 **MON 7/7/2014, 14:30 - FENS-1174**

**CONTROLLED DELIVERY OF AMPA RECEPTOR-CONTAINING RECYCLING ENDOSOMES TO DENDRITIC SPINES**

1887

M. Esteves da Silva, M. Adrian, C.J. Wierenga, L.C. Kapitein, C.C. Hoogenraad (*Utrecht, The Netherlands*)

B049 **MON 7/7/2014, 13:30 - FENS-0936**

**MOLECULAR DETERMINANTS FOR TARGETING OF GLUTAMATE RECEPTORS AT HIPPOCAMPAL MOSSY FIBER SYNAPSES**

1888

S. Fièvre, M. Carta, F. Coussen, C. Mulle (*Bordeaux, France*)

B050 **MON 7/7/2014, 14:30 - FENS-2736**

**SNAP-25 REGULATES SPINE MORPHOGENESIS IN VITRO AND IN VIVO THROUGH THE INTERACTION WITH P140CAP AND PSD-95**

1889

G. Fossati, R. Morini, I. Corradini, F. Antonucci, P. Trepte, E. Edry, V. Sherma, A. Papale, A. Savardi, D. Pozzi, P. Defilippi, J. Meier, R. Brambilla, E. Turco, K. Rosenblum, E. Wanker, N. Ziv, E. Menna, M. Matteoli (*Milan, Italy*)

B051 **MON 7/7/2014, 13:30 - FENS-0832**

**THE ROLE OF DYSTROPHIN-ASSOCIATED PROTEINS IN REGULATION OF GABAERGIC SYNAPSES**

1890

S. Früh, P. Panzanelli, D. Bürgisser, S.K. Tyagarajan, J.M. Fritschy (*Zurich, Switzerland*)

B052 **MON 7/7/2014, 14:30 - FENS-1973**

**PMCA AND ITS DLG-BASED SCAFFOLD INTERACTION PARTNERS AT THE GLUTAMATERGIC NEUROMUSCULAR JUNCTION OF DROSOPHILA**

1891

E. Gerecke, O. Kobler, U. Thomas (*Magdeburg, Germany*)

B053 **MON 7/7/2014, 13:30 - FENS-3110**

**REGULATION OF POST-SYNAPTIC FUNCTION BY THE DEMENTIA-RELATED PROTEIN CHMP2B**

1892

Y. Goldberg, R. Chassefeyre, J. Martínez-Hernández, F. Bertaso, N. Bouquier, M. Laporte, S. Fraboulet, A. Isaacs, L. Fagni, R. Sadoul (*Grenoble, France*)

# POSTER PRESENTATION IV

## Monday, 7<sup>th</sup> July

13:30 - 15:30

Poster Area

BOARD NO DATE - PRESENTATION TIME - ABSTRACT NUMBER

INDEX NUMBER

D064 MON 7/7/2014, 14:30 - FENS-0927

**THE SUPERIOR FRONTAL ACTIVITY ASSOCIATED WITH QUADRUPEDALISM IN ADULT HUMANS  
DETECTED BY NEAR-INFRARED SPECTROSCOPY**

2172

A. Yozu, S. Obayashi, T. Ogino, Y. Hara (*Tokyo, Japan*)

### E07: NEUROENDOCRINE - HPG AXIS REGULATION

E001 MON 7/7/2014, 13:30 - FENS-2284

**TRANSCRIPTOME-BASED ANALYSIS TO IDENTIFY NOVEL GENES UNDERLYING GNRH NEURON  
DEVELOPMENT AND DISEASE**

2173

V. Andre, F. Memi, T. Etzion, J. Parnavelas, Y. Gothilf, R. Maggi, A. Cariboni (*Milano, Italy*)

E002 MON 7/7/2014, 14:30 - FENS-2832

**NEUROPILIN-1 EXPRESSION IN GNRH NEURONS IS REQUIRED FOR THE NORMAL ONSET OF PUBERTY  
AND GNRH CELLS DISTRIBUTION**

2174

C. Vanacker, F. Casoni, N.K. Hanchate, P. Giacobini (*Lille, France*)

### E08: NEUROENDOCRINE - SEXUAL DIFFERENCES

E003 MON 7/7/2014, 13:30 - FENS-0347

**GENDER DEPENDENT ROLE OF GLUCOCORTICOID RECEPTOR IN REGULATION OF CIRCADIAN  
CORTICOSTERONE LEVELS: THE STUDY IN GRDBHCRE MICE**

2175

P. Chmielarz, G. Kreiner, J. Kusmierczyk, I. Nalepa (*Krakow, Poland*)

E004 MON 7/7/2014, 14:30 - FENS-0445

**DEFEMINIZATION OF A NEUROENDOCRINE PULSE GENERATOR: EVIDENCE FROM ORGANOTYPIC  
HYPOTHALAMIC CULTURES**

2176

P. Ciofi, J.M. Israel, J.M. Cabelguen, G. Le Masson, S.H. Oliet (*Bordeaux, France*)

E005 MON 7/7/2014, 13:30 - FENS-1178

**SEXUALLY DIMORPHIC EFFECT OF ESTROGENIC COMPOUNDS ON ASTROCYTE MIGRATION**

2177

S. De Vidania Ballesteros, L.M. García-Segura, M.L. De Ceballos (*Madrid, Spain*)

E006 MON 7/7/2014, 14:30 - FENS-2905

**TYPE 2 DIABETIC FEMALE RAT BRAINS ARE LESS VULNERABLE TO OXIDATIVE STRESS AND AD-  
RELATED HALLMARKS: A ROLE FOR INSULIN/IGF-1/ESTROGEN SIGNALING?**

2178

A. Duarte, E. Candeias, I. Sebastião, C. Carvalho, S. Correia, A.I. Plácido, R.X. Santos, M.A. Fernandes, R. Seiça, M.S. Santos, C.R. Oliveira, P.I. Moreira (*Coimbra, Portugal*)

E007 MON 7/7/2014, 13:30 - FENS-2799

**TESTOSTERONE AND ESTRADIOL DIFFERENTIALLY AFFECT CELL PROLIFERATION IN THE  
SUBVENTRICULAR ZONE OF ADULT MALE AND FEMALE RATS: A BRDU STUDY**

2179

A. Farinetti, G. Panzica (*Orbassano, Italy*)

E008 MON 7/7/2014, 14:30 - FENS-2611

**EFFECTS OF LETROZOLE AND LEUPRORELIN IN ADULT MALE MICE ON BEHAVIORS**

2180

Y. Momota, M. Amano, K. Sakuraba, A. Satoh, Y. Terada (*Akita, Japan*)

E009 MON 7/7/2014, 13:30 - FENS-0455

**METABOLIC LATERALIZATION IN THE HYPOTHALAMUS: POSSIBLE MECHANISM FOR CRAMMING  
MULTIPLE FUNCTIONS INTO A SMALL PLACE**

2181

I. Toth, D.S. Kiss, G. Jocsak, T. Bartha, V.L. Frenyo, A. Zsarnovszky (*Budapest, Hungary*)

**13:30 - 15:30**

**Poster Area**

# SCIENTIFIC PROGRAMME

## Tuesday, 8<sup>th</sup> July

---

9:45 - 11:15

Hall C

### SYMPOSIUM:

#### S35: Protein shuttling in synapse-to-nucleus signalling.

|                                                                                                    |      |
|----------------------------------------------------------------------------------------------------|------|
| Chair: M. Kreutz ( <i>Germany</i> )                                                                | 2320 |
| <b>9:50 SIGNALING FROM SYNAPSE TO NUCLEUS DURING NEURONAL PLASTICITY</b>                           | 2321 |
| K. Martin, T.H. Ch'ng, M. DeSalvo, T.J. O'Dell ( <i>Los Angeles, USA</i> )                         |      |
| <b>10:10 LONG-HAUL TRANSPORT OF PROTEIN COMPLEXES FROM NMDA-RECEPTORS TO THE NUCLEUS</b>           | 2322 |
| M. Kreutz ( <i>Magdeburg, Germany</i> )                                                            |      |
| <b>10:30 CYTONUCLEAR SIGNALLING IN STRIATAL NEURONS</b>                                            | 2323 |
| J. Girault ( <i>Paris, France</i> )                                                                |      |
| <b>10:50 RHO GTPASE OLIGOPHRENIN-1 REGULATES THE SHUTTLING OF REV-ERBA FROM NUCLEUS TO SYNAPSE</b> | 2324 |
| M. Passafaro ( <i>Milan, Italy</i> )                                                               |      |

---

9:45 - 11:15

Hall J

### SYMPOSIUM:

#### S36: Adult cortical plasticity.

|                                                                                                         |      |
|---------------------------------------------------------------------------------------------------------|------|
| Chair: H. Lee ( <i>USA</i> )                                                                            | 2325 |
| <b>9:50 COMPARISON OF CRITICAL PERIOD AND ADULT CORTICAL PLASTICITY MECHANISMS IN THE VISUAL CORTEX</b> | 2326 |
| F. Sengpiel ( <i>Cardiff, United Kingdom</i> )                                                          |      |
| <b>10:10 SYNAPTIC MECHANISMS OF CROSS-MODAL PLASTICITY IN ADULTS</b>                                    | 2327 |
| H. Lee ( <i>Baltimore, USA</i> )                                                                        |      |
| <b>10:30 REJUVENATING THE ADULT CORTEX TO RECOVER VISION</b>                                            | 2328 |
| E. Quinlan ( <i>USA, College Park</i> )                                                                 |      |
| <b>10:50 ENVIRONMENTAL ENRICHMENT AND ENVIROMIMETICS: IMPACT ON VISUAL CORTEX PLASTICITY</b>            | 2329 |
| A. Sale ( <i>Pisa, Italy</i> )                                                                          |      |

---

9:45 - 11:15

Hall I

### SYMPOSIUM:

#### S37: Deciphering the physiology and function of hippocampal area CA2

|                                                                                                               |      |
|---------------------------------------------------------------------------------------------------------------|------|
| Chairs: T.J. McHugh ( <i>Japan</i> )                                                                          | 2330 |
| V. Chevaleyre ( <i>France</i> )                                                                               | 2331 |
| <b>9:50 NEW INSIGHTS INTO THE REGULATION OF SYNAPTIC PLASTICITY FROM AN UNEXPECTED PLACE: HIPPOCAMPAL CA2</b> | 2332 |
| S. Dudek ( <i>Research Triangle Park, USA</i> )                                                               |      |
| <b>10:10 CA2: A SHORT-CIRCUIT OF THE HIPPOCAMPAL-ENTORHINAL LOOP?</b>                                         | 2333 |
| C.G. Kentros ( <i>Trondheim, Norway</i> )                                                                     |      |
| <b>10:30 A FUNCTIONAL INVESTIGATION OF THE SUPRAMAMMILLARY PROJECTION INTO AREA CA2</b>                       | 2334 |
| R. Piskorowski ( <i>Paris, France</i> )                                                                       |      |
| <b>10:50 MAPPING AND REMAPPING IN CA2</b>                                                                     | 2335 |
| T. McHugh ( <i>Wako-Shi, Japan</i> )                                                                          |      |

INDEX NUMBER

## D22: PAIN - SOMATIC, MUSCLE AND VISCERAL

- D035 **TUE 8/7/2014, 11:15 - FENS-2635**  
**CHANGES IN THE TONIC AND PHASIC ACTIVITY OF THE NORADRENERGIC LOCUS COERULEUS NEURONS UPON PROLONGED MONOARTHRITIS** 2770  
*G. Borges, F.L. Neto, J.A. Mico, E. Berrocoso (Cádiz, Spain)*
- D036 **TUE 8/7/2014, 12:15 - FENS-0654**  
**LONG-LASTING EFFECT OF REPETITIVE TRANSCRANIAL DIRECT CURRENT STIMULATION ON ACUTE PAIN** 2771  
*D. Niddam, W.C. Lu, M.S. Hung, J.C. Hsieh (Taipei, Taiwan)*
- D037 **TUE 8/7/2014, 11:15 - FENS-2679**  
**THE RAT DORSAL COLUMN NUCLEI CONTAIN A REGION HOMOLOGOUS TO THE HUMAN LOCUS K** 2772  
*M. Quartu, M. Boi, M.P. Serra, L. Poddighe, T. Melis, C. Picci, M. Del Fiacco (Monserrato, Italy)*
- D038 **TUE 8/7/2014, 12:15 - FENS-2663**  
**LOCUS K: CUNEATE SUBNUCLEAR REGIONS IN HUMAN DORSAL COLUMN NUCLEI WITH NEUROCHEMICAL, CYTO- AND MYELOARCHITECTURAL FEATURES OF PROTOPATHIC SENSORY NUCLEI** 2773  
*M.P. Serra, M. Quartu, M. Boi, L. Poddighe, T. Melis, C. Picci, M. Del Fiacco (Monserrato, Italy)*

## D23: MOTOR NEURONS AND MUSCLE

- D039 **TUE 8/7/2014, 11:15 - FENS-0110**  
**THE ROLE OF TWO-PORE DOMAIN POTASSIUM (K2P) CHANNELS IN MURINE SKELETAL MUSCLE CELLS** 2774  
*A. Afzali, S. Bittner, T. Ruck, H. Wiendl, S.G. Meuth (Münster, Germany)*
- D040 **TUE 8/7/2014, 12:15 - FENS-2399**  
**AXONAL REGENERATION AND SENSORY-MOTOR RECOVERY FOLLOWING NEONATAL SCIATIC NERVE NEURORRHAPY PERFORMED WITH A SNAKE VENOM DERIVED FIBRIN SEALANT** 2775  
*N. Biscola, R.S. Ferreira Junior, B. Barraviera, A.L.R. Oliveira (Sao Carlos, Brazil)*
- D041 **TUE 8/7/2014, 11:15 - FENS-0264**  
**LAMOTRIGINE AS AN EFFECTIVE MEANS OF RESCUING MOTOR UNIT NUMBERS AND MUSCLE PROPERTIES AFTER SCIATIC NERVE CRUSH IN NEONATAL RATS** 2776  
*A. Cabaj, U. Slawinska (Warsaw, Poland)*
- D042 **TUE 8/7/2014, 12:15 - FENS-1006**  
**LONG-TERM EFFECTS OF BOTULINUM TOXIN INJECTION ON MECHANO- AND METABO-SENSITIVE AFFERENT FIBERS ORIGINATING FROM GASTROCNEMIUS MUSCLE** 2777  
*G. Caron, T. Rouzi, L. Grelot, G. Magalon, T. Marqueste, P. Decherchi (Marseille, France)*
- D043 **TUE 8/7/2014, 11:15 - FENS-1921**  
**FINDING THE LINC TO SOD1 MEDIATED AMYOTROPHIC LATERAL SCLEROSIS** 2778  
*S. Cartwright, I. Karakesisoglu, P.L. Chazot (Durham, United Kingdom)*
- D044 **TUE 8/7/2014, 12:15 - FENS-2386**  
**RADICULOTHERAPY BY VENTRAL ROOT REIMPANTATION: EFFECTIVENESS OF A NEW SNAKE DERIVED FIBRINE GLUE** 2779  
*M. De Castro, R. Barbizan, B. Barraviera, R.S. Ferreira Junior, A.L.R. Oliveira (Campinas, Brazil)*
- D045 **TUE 8/7/2014, 11:15 - FENS-3211**  
**THE EFFECT OF MESENCHYMAL STEM CELLS ON FUNCTIONAL RECOVERY AFTER PERIPHERAL NERVE INJURY BY TRANSECTION OF THE SCIATIC NERVE** 2780  
*T. Delgado, F.P. Dos Santos, T. Peruch, S. Katami, E.F. Sanches, P. Pranke, A.S. Pagnussat, C.A. Netto (Porto Alegre, Brazil)*

# POSTER PRESENTATION VI

## Tuesday, 8<sup>th</sup> July

13:30 - 15:30

Poster Area

BOARD NO DATE - PRESENTATION TIME - ABSTRACT NUMBER

INDEX NUMBER

C023 TUE 8/7/2014, 13:30 - FENS-1824

**ALPHA-SYNUCLEIN INTERACTS WITH SYNAPSIN III AND MODULATES ITS EXPRESSION IN DOPAMINERGIC NEURONS**

3092

M. Zaltieri, J. Grigoletto, L. Navarria, G. Favero, S. Castrezzati, R. Rezzani, M.G. Spillantini, C. Missale, P. Spano, A. Bellucci (*Brescia, Italy*)

### C45: EPILEPSY - CELLULAR AND CIRCUIT MECHANISMS

C024 TUE 8/7/2014, 14:30 - FENS-2894

**THE MULTIFOCAL NATURE OF NEOCORTICAL EPILEPTIC NETWORK GENERATING INTERICTAL EPILEPTIFORM DISCHARGES IN HUMANS**

3093

P. Jiruska, R. Janca, P. Jezdik, R. Cmejla, P. Krsek, P. Marusic (*Prague, Czech Republic*)

C025 TUE 8/7/2014, 13:30 - FENS-0159

**SODIUM DYNAMICS IN HIPPOCAMPAL NEURONS DURING EPILEPTIFORM ACTIVITY**

3094

C. Karus, C.R. Rose (*Düsseldorf, Germany*)

C026 TUE 8/7/2014, 14:30 - FENS-1579

**CELL-TYPE SPECIFIC EFFECTS ON INTRINSIC MEMBRANE PROPERTIES OF ANTICONVULSANT, CANNABIDIVARIN IN RAT CORTICAL REGIONS**

3095

A. Khan, A.B. Ali (*London, United Kingdom*)

C027 TUE 8/7/2014, 13:30 - FENS-0075

**THE ROLE OF ELECTRICAL SYNAPSES IN A RAT MODEL OF ABSENCE EPILEPSY: CA2+ MODULATES THE INTERACTION BETWEEN NEURONS OF THE THALAMIC-RETICULAR-NUCLEUS**

3096

D. Kohmann, K. Jüngling, H.C. Pape, P. Coulon (*Münster, Germany*)

C028 TUE 8/7/2014, 14:30 - FENS-2248

**SEIZURE-RELATED VARIATIONS IN THE DENSITY OF SERT VARICOSITIES IN THE RAT HIPPOCAMPAL FORMATION**

3097

N. Lukoyanov, J.I. Soares, J.L. Quesado, G.H. Maia (*Porto, Portugal*)

C029 TUE 8/7/2014, 13:30 - FENS-0490

**FAST RIPPLES ASSOCIATED TO INCREASES IN EXTRACELLULAR GLUTAMATE IN HIPPOCAMPUS OF RATS WITH SPONTANEOUS RECURRENT SEIZURES**

3098

L. Medina-ceja, K. Pardo-peña, A. Morales-villagran (*Zapopan, Mexico*)

C030 TUE 8/7/2014, 14:30 - FENS-1457

**TRANSCRIPTIONAL CHANGES IN AMYLOIDOGENIC AND TAU PATHWAYS IN POST-TRAUMATIC EPILEPTOGENESIS IN APP/PS1 MOUSE MODEL OF ALZHEIMER`S DISEASE**

3099

D. Miszczuk, K. Debski, H. Tanila, K. Lukasiuk, A. Pitkanen (*Warsaw, Poland*)

C031 TUE 8/7/2014, 13:30 - FENS-1033

**GLUTAMATE TRANSPORT IS AFFECTED IN THE PROGRESSIVE MYOCLONIC EPILEPSY OF THE LAFORA TYPE**

3100

# 9<sup>th</sup> FENS FORUM OF NEUROSCIENCE

Milan | Italy July 5–9, 2014

Organised by the Federation of European  
Neuroscience Societies | FENS

Hosted by the Società Italiana  
di Neuroscienze | SINS

## SCIENTIFIC PROGRAMME Wednesday, 9<sup>th</sup> July

[www.fens.org/2014](http://www.fens.org/2014)

**FENS** Federation of  
European Neuroscience  
Societies

**SCIENTIFIC PROGRAMME  
WEDNESDAY, JULY 09, 2014**

---

**8:30 - 9:30**

**Hall A**

**PLENARY LECTURE:**

**PL08: Plenary Lecture**

|                                                                   |      |
|-------------------------------------------------------------------|------|
| Introducer: M. Di Luca ( <i>Italy</i> )                           | 3444 |
| <b>BUILDING CONNECTIONS: RNA-BASED MECHANISM OF AXON GUIDANCE</b> |      |
| C. Holt ( <i>Cambridge, United Kingdom</i> )                      | 3445 |

---

**9:45 - 11:15**

**Hall G**

**SYMPORIUM:**

**S49: Early cortical circuits.**

# Call for Symposium and Technical Workshop Proposals

# 10<sup>th</sup> FENS Forum of Neuroscience

July 2-6, 2016 | Copenhagen, Denmark

Organized by the Federation of European Neuroscience Societies (FENS)

Hosted by the Danish Society for Neuroscience

## ➔ Submission of proposals: February 2 – March 2, 2015

The Programme Committee will establish the scientific programme of the FENS Forum 2016 on the basis of proposals from scientists from all over the world and all areas of neuroscience research.

For instructions and application for symposium and technical workshop proposals, please connect to  
<http://forum.fens.org/2016>

## ➔ A must in Europe for neuroscientists all over the world

# 10<sup>th</sup> FENS Forum of Neuroscience

July 2-6, 2016 | Copenhagen, Denmark

Organized by the Federation of European Neuroscience Societies (FENS)

Hosted by the Danish Society for Neuroscience

## FIVE GOOD REASONS TO ATTEND THE FORUM IN COPENHAGEN:

- Europe's foremost neuroscience event
- State-of-the-art neuroscience
- Exchange ideas and network with neuroscientists worldwide
- A diverse scientific programme with world renowned speakers
- Visit Copenhagen - a premier capital of Scandinavia
