Background

The twenty second annual International Laser Physics Workshop (LPHYS'13) will be held from July 15 to July 19, 2013 in the city of Prague, Czech Republic, at the Hotel Krystal and Czech Technical University hosted by the Institute of Physics ASCR and Czech Technical University in Prague. LPHYS'13 is a conference in the continuous series of workshops held annually at various world locations: Dubna 1992, Dubna/Volga river tour 1993, New York 1994, Moscow/Volga river tour (jointly with NATO SILAP Workshop) 1995, Moscow 1996, Prague 1997, Berlin 1998, Budapest 1999, Bordeaux 2000, Moscow 2001, Bratislava 2002, Hamburg 2003, Trieste 2004, Kyoto 2005, Lausanne 2006, León 2007, Trondheim 2008, Barcelona 2009, Foz do Iguaçu 2010, Sarajevo 2011 and Calgary 2012. The total number of participants is expected to be about 450. In the past, participation was typically from over 30 countries.

Proceedings

The Workshop proceedings will be published in the open access Journal of Physics: Conference Series (JPCS), which is part of the IOP Conference Series. All papers published in the IOP Conference Series are fully citable and upon publication will be free to download.

You need to prepare your proceeding manuscript using Microsoft Word or LaTeX then convert these files to PDF, according to submission guidelines and templates presented at the IOP Conference Series Portal.

You are asked to send your proceeding paper converted to PDF format directly addressed to your proceeding Editor who was your scientific seminar Co-chair no later than December 15, 2013.

It is important to ensure that when you submit your proceeding paper, it is in its final form ready for publication, and has been thoroughly proofread. IOP do not copyedit papers and will not send out author proofs prior to publication.

All proceeding papers sent after the above deadline will be rejected automatically.

As usual, all papers will undergo an appropriate peer reviewing process which, in this case, will be done as soon as possible.

**The possible rapid publication of your scientific results in the journal
Laser Physics Letters**

The Steering Committee of LPHYS'13 would like to bring your attention to the following possibility. If you feel that your article deserves super-rapid publication, you can submit it to the journal Laser Physics Letters. The information concerning your manuscript submission and instructions for manuscript preparation for the journal Laser Physics Letters can be found on:

www.lasphys.com
