

97	Installation of intakes and outfalls with trenchless methods: technologies and case studies <i>L. zur Linde (Germany)</i>	65
98	Single-pass zero thermal input membrane distillation (ZTIMD) for seawater desalination <i>M. Baghbanzadeh, D. Rana, C.Q. Lan, T. Matsuura (Canada)</i>	66
99	The effect of SRT on biodegradation of municipal wastewater with low COD/TKN ratio in a submerged MBR <i>H.S. Erkan, G. Onkal Engin (Turkey)</i>	66
100	Seawater desalination in China: development status and prospect <i>Youzhi Guo, Feng Guo, Yan Yang, Haichen Gong, Can Zhou, Jun Zhang (China)</i>	67
101	Modeling of osmotic energy extraction and exploration of real PRO parameters <i>A. Sagiv (Israel), Wenyan Xu (China), P.D. Christofides, Y. Cohen (USA), R. Semiat (Israel)</i>	68
102	Brackish water off-grid desalination systems for developing countries <i>N. Tiggelman, E. Toet, E. van der Burg (The Netherlands) H.-J. Rapp, D. Gutzeit (Germany), M. Vanoppen, L. Gutierrez, A. Verliefde (Belgium), L. Gurreri, A. Campione, A. Cipollina (Italy)</i>	69
103	Impact of module size on solar powered membrane filtration (UF-NF/RO) <i>A.I. Schäfer (Germany, Tanzania), A. Jeihanipour (Germany), Junjie Shen (Tanzania, UK), B.S. Richards (Tanzania, UK, Germany)</i>	69
104	Computational fluid dynamics approach to determine membrane concentration polarization and module performance with fluctuating energy <i>C. Onorato, M. Gaedtke, M. Kespe, H. Nirschl, A.I. Schäfer (Germany)</i>	71
105	Desalination of real brackish groundwater using electro dialysis <i>C. Onorato (Germany), L.J. Banasiak (UK), A.I. Schäfer (Germany, UK)</i>	72
106	Pro's and con's of inland BWRO-concentrate freeze desalination <i>A. Barak (Israel)</i>	73
107	A tribute to spectacular membrane failures <i>N. Peña, F. del Vigo (Spain), S.P. Chesters, S. Jarrige (UK)</i>	74
108	Coupling CFD simulation with a simplified process model for reverse electro dialysis units <i>M. La Cerva, L. Gurreri, A. Cipollina, A. Tamburini, M. Di Liberto, M. Ciofalo, G. Micale (Italy)</i>	75
109	Experimental investigation and modelling of diffusion dialysis process for regeneration of acidic pickling solutions <i>S. Randazzo, R. Gueccia, A. Cipollina, A. Tamburini, G. Micale (Italy)</i>	76
110	Modelling reverse electro dialysis process via exergy analysis <i>F. Giacalone, P. Catrini, A. Cipollina, A. Tamburini, G. Micale, A. Piacentino (Italy)</i>	77
111	NH_4HCO_3 -water solutions regeneration in RED closed loop applications <i>M. Bevacqua, F. Giacalone, A. Tamburini, F. Scargiali, A. Cipollina, G. Micale (Italy)</i>	78
112	Ion exchange membrane deformation and its relevance in reverse electro dialysis <i>G. Battaglia, A. Cipollina, A. Di Matteo, L. Gurreri, G. Micale (Italy), A. Pirrotta (Italy, UK), A. Tamburini (Italy)</i>	79
113	ResourSEAs Company: Sustainable magnesium hydroxide extraction from salty solutions via a novel membrane reactor <i>A. Tamburini, M. Bevacqua, M. Papapetrou, G. Micale, A. Cipollina (Italy)</i>	80
