

201 Alternative energies in desalination – present status and future prospects <i>Mona M. Naim, Mervette El Batouti, Mahmoud M. Elewa, Ahmed A. El-Shafei, Micheal E. Tawadrous (Egypt)</i>	192
202 Solar-powered desalination for irrigation in the Jordan Valley <i>Liam Burlace, Tim Naughton (UK), Hala Abu Ali, Maya Mark, Areen Majali (Israel), Suleiman Halasah (Israel, Jordan), Clive Lipchin (Israel), Monther Hind (Palestinian Authority)</i>	193
203 Multi-stage analysis of pressure retarded osmosis for scale up operation <i>Samira Soltani, Henning Struchtrup (Canada)</i>	193
204 One year operation of integrated ultrafiltration and reverse osmosis system for challenging industrial wastewater from chemical industry <i>Claudia Niewersch, Lorena Barbera, Javier Suarez Martin, Oscar Ruzafa, Luis Carod, Patricia Carmona (Spain), Jozef Kochan (Germany), Jan Koppe (The Netherlands), Lex van Dijk, Christian Kazner (Switzerland)</i>	194
205 Continuous solar desalination unit (CSDU): design and performance investigation <i>Mays Shadeed, Lama A'raj, Reem Ashqar (Palestinian Authority)</i>	195
206 Process modeling and simulation of a SWRO desalination plant: Case study of Gijang SWRO desalination plant in Korea <i>Younggeun Lee, Yongjung Lee, Kwanghee Shin, Jungjune Lee, Seokho Choi, Jungwon Park, Hyungkeun Roh (Korea)</i>	196
207 Performance evaluation of a multi-effect distillation unit with a polymer tube heat exchanger <i>Patricia Palenzuela (Spain), Thomas Orth (Germany), Diego C. Alarcón-Padilla, Guillermo Zaragoza (Spain)</i>	196
208 Spiral wound electrolysis modules of Archimedean and non-Archimedean form <i>Natasha C. Wright, Amos G. Winter, V (USA)</i>	198
209 Membrane technology for water treatment in Malaysia – a new entry point <i>Mohmad Asari Daud, Megat Johari Megat Mohd Noor, Zaini Ujang (Malaysia)</i>	199
210 Water security in Libya and the ability of the Man Mad River Project to provide Libya's water needs <i>Hamza Goumma El Nawal (Libya)</i>	200
211 Coagulation effectiveness comparison for turbid water treatment using <i>Medicago sativa</i> and its blended mixture <i>Arfa Iqbal, Nayab Zahra (Pakistan)</i>	200
212 Temperature and thermal stress distribution of high concentrator solar cell under different environmental conditions <i>Essam M. Abo-Zahhad, A. H. El-Shazly (Egypt), Shinichi Ookawara (Japan), Ali Radwan, M. F. El-Kady (Egypt)</i>	201
213 The REvivED water project: Electrodialysis for advanced desalination concepts <i>N. Tiggelman (The Netherlands), M. Papapetrou (Italy)</i>	202
214 Impact of pretreatment of seawater and impaired water on fouling of ionic exchange membranes in reverse electrodialysis systems <i>Leo Gutierrez, Marjolein Vanoppen, Lingshan Ma, Arne Verliefde (Belgium)</i>	203
215 Donnan dialysis for tap-water softening <i>A. Brys, L. Pinoy (Belgium), A.M.M. Alhadidi (The Netherlands), R. Gueccia, A. Cipollina (Italy), J.W. Post (The Netherlands)</i>	206
216 RevivED Water: Small-scale ED desalination systems for brackish water Experiences from field test in Somaliland <i>T. Zvirner, H-J. Rapp (Germany), A. Al Habibi (The Netherlands), L. Gutierrez (Belgium), A. Cipollina (Italy)</i>	207
217 Fluid-structure interaction in electromembrane processes: modelling of membrane deformation, fluid dynamics and mass transfer <i>G. Battaglia, L. Gurreri, A. Tamburini, A. Cipollina, M. Ciofalo, G. Micale (Italy)</i>	208
