"Publish... Finish... Work..."
**ORGANIZING COMMITTEE**

- **Co-Chairs:**
  - Robert Fischer (Germany)
  - Stoyanka Smirkanova (Bulgaria)

- **Secretary:**
  - Tzvetozar Georgiev (Bulgaria)

- **Members:**
  - Dorit Schuetze (Germany)
  - Jordan Kaimukov (Bulgaria)

**TOPICS**

- Net-generation and the Building System
- The Future of Education in Computing
- e-Learning
- m-Learning
- u-Learning
- Blended Learning
- Virtual Learning Environments
- Virtual Libraries
- Virtual Laboratories
- Virtual Universities and Campuses
- NEW DIDACTICAL MODELS FOR THE USE SOCIAL MEDIA IN E-LEARNING
- Quality of the e-Learning and m-Learning
- Privacy and Security in e-Learning

**TABLE OF CONTENTS**

**E-LEARNING**

Dimension of E-Learning Usage Based on Level of Studies: The Case of SEE University
Lejla Abazi-Bekhet, Belim Cimo, Marika A. Trpkovska, Burin Ismaili | 15 |

Are We Ready for Quality e-Learning: The case of the Faculty of Mathematics and Informatics of Sofia University “St. Kliment Ohridski”
Perncho Mihnev, Krasen Stefanov, Eliza Stefanova, Temenuzhka Zafirova-Malcheva | 21 |

Supporting Teachers in Choosing and Reusing Open Educational Resources
Davor Krič, Bojan Cestnik, Tanja Urbančič | 28 |

Measuring Cognitive Load of E-learning Students for Improving Efficiency of Learning
Aydelah Uyulur, Dilek Karahoca, Adem Karahoca, Ali Gungör | 34 |

Supporting Learning Activities in the Health Sector through Open Data
Marco Alfano, Giovanni Fucinta, Gabogero Mondi, Giuseppe Rinella, Davide Taisi | 41 |

Modelling Roles and Qualities of Effective Teachers for the Design of Information and Communication Technologies Supported Teaching Tools
Ilkor Yangin, Dilek Karahoca, Adem Karahoca, Ali Gungör | 47 |

Improving Study Skills by Implementing Peer to Peer Lecture Films
Anja Pfenning and Paul Hedwiger | 55 |

Motivation Support in E-Learning by User Model and Job Offer Comparison Evaluation
Ján Lang, Maroš Bodnár | 61 |

Constructive e-Learning using Testtool graphical models-tests integrated in Moodle
Kazys Banušis, Rima Sturliene, Jurate Pauliute, Eugenijus Mackenas, Vytautas Rokaitis | 68 |
INTRODUCTION

Key words: Open Data, Open Education, Open Education Resources, Open Data, Open Education, Open Education Resources

The concept of Open Data is gaining momentum globally, and organizations are recognizing its potential for innovation. Open Data refers to data that is available for free, without restrictions on its reuse, and can be distributed on the Internet. Open Data promotes transparency, accountability, and accessibility of information. It allows anyone to access, use, and share data, which in turn promotes innovation and development.

About the Author

The paper has been reviewed and approved by the Editorial Board of the international journal. The author's name is [Redacted].

### Education

- Education is aligned with open health data platform for e-learning.
- The platform is designed to support the development of e-learning applications and initiatives that align with the open health data platform.
- Features include support for open education initiatives, education for all, and e-learning applications.

### Applications

- Applications are designed to support the development of e-learning initiatives and e-learning applications.
- Features include support for open education initiatives, education for all, and e-learning applications.

### Conclusion

The open health data platform for e-learning is designed to support the development of e-learning initiatives and e-learning applications. The platform is aligned with open education initiatives, education for all, and e-learning applications. Features include support for open education initiatives, education for all, and e-learning applications. The platform is designed to support the development of e-learning initiatives and e-learning applications. Features include support for open education initiatives, education for all, and e-learning applications.
