Update

Program - September 20

- [CUA2008: Nursing Session](#)
- [CUA2008: Andrology Session](#)
- [CUA2008: Urolithiasis Session](#)
- [CUA2008: Incontinence](#)

September 20 Saturday

Session 1: Endourology

08:30 – 12:00 14:00 – 17:30

Kunming International Convention & Exhibition Center 3F: Conference Hall 1

Session 2: Incontinence

08:00 – 12:00 14:00 – 18:00

Kunming International Convention & Exhibition Center 3F: Conference Hall 5

Session 3: Urinary Tumors

08:00 – 12:00 12:00 – 17:20

Kunming International Convention & Exhibition Center 3F: Conference Hall 3-9

Session 4: Urolithiasis

08:00 – 12:00 14:00 – 17:30

Kunming International Convention & Exhibition Center 3F: Conference Hall 3-10

Session 5: English Session

08:30 – 12:00

Kunming International Convention & Exhibition Center 3F: Yunnan Theater VIP Hall

08:30 – 08:35

Opening

08:35 – 09:45

Special Lecture

Moderators: Weide Zhong, Kan Gong

1. Current Management of Muscle Invasive Bladder Cancer

Speaker: Donald S. Kaufman

2. Differential androgen receptor signals explains why androgen deprivation therapy in prostate cancer fails

Speaker: Chawnshang Chang

3. Gene Expression Signature to Predict Cancer Progression

Chin-Lee Wu

4. CD44, a putative cancer stem cell marker, is expressed

exclusively in neuroendocrine cells of prostate cancer

Jiaoti Huang

5. Eradication of Prostate Cancer Xenografts by Systemic Delivery of AAV-based AR shRNA

Benyi Li

09:45 – 10:45

Panel Discussion

Prevention and management for complications of PCNL

Moderators: Chuanliang Xu, Kexin Xu

Invited Specialists: Xu Li, Jianxing Li

1. The prevention and therapy for severe bleeding in PCNL

Speaker: Tie Zhou

2. Prevention and management for severe infection in PCNL

Speaker: Lei Shi

3. The renal vascular complication of ultrasound guided percutaneous renal surgery

Jiaye Pan

10:45 – 12:00

State-of-the-art lecture

Moderators: Jianbin Bi, Wei Xue

1. Is retrograde pyelography an out-time examination? — When ureteroscopy is universal and mature

Zhensheng Zhang

2. Novel treatments for posterior urethral strictures

Kunjie Wang

3. Is urinary epithelial carcinoma sensitive to chemotherapy?

Wei Wang

4. Diagnosis and Treatments for Hydronephrosis Caused by Retroperitoneal Fibrosis

Jianming Guo

5. Partial nephrectomy for treatment of para-sinus small RCC

Xuhui Zhang

14:00 – 15:45

Oral Presentation Session 1

Moderators: Gang Zhu, Chi-Fai Ng

1. Short-term outcome of patients with robot-assisted versus open radical prostatectomy: Prince of Wales Hospital, Hong Kong experience

Lo, Ka-Lun

2. Extraperitoneal laparoscopic radical prostatectomy

Gang Zhu

3. Pre-peritoneal laparoscopic partial cystectomy of the bladder pheochromocytoma (with video)

Xiaojun Tian

4. Retroperitoneal laparoscopic radical nephrectomy and regional clearance of lymph nodes

Shuo Wang

5. Endoscopic anatomical study during retroperitoneoscopic radical nephrectomy

Xu Zhang

6. Robotic Partial Nephrectomy for complex renal cell carcinoma

Gong Yu

7. Clinical study of laparoscopic nephron sparing surgery for T1 stage renal cell carcinoma: report of 32 cases

Junhua Zheng

8. Viviperception of Renal Vessel Variation During Retroperitoneal Laparoscopic Surgeries (525 Cases Report)

Gang Song

9. Anatomical retroperitoneoscopic adrenalectomy – initial experience in 40 cases

Bin Fu

10. Retroperitoneoscopic versus Open Surgical Renal Pedicle Lymphatic Dissection for Chyluria: A Ten-year experience

Gongxian Wang

11. Retroperitoneal laparoscopic renal cyst unroofing decompression: A good bridge from open nephrectomy to retroperitoneal laparoscopic nephrectomy

Delin Wang

12. Carcinoma recurrence rate after laparoscopic nephroureterectomy in patients who undergo transurethral incision of the ureteral orifice and open excision of bladder cuff

Daixin Zhang

13. The natural history of incidentally discovered renal cell

carcinomas (RCCs)

Xuesong Li

14. Trends of the Histopathology of Renal Masses in a Contemporary Cohort

Benkang Shi

15. Bridges as well as a natural barrier clinical significance of renal capsular involvement status in renal cell carcinoma

Xiaoqian Qin

15:45 – 17:30

Oral presentation Session 2

Moderators: Longkun Li, Tianxin Lin

1. Clinical Characteristics of Renal Cell Carcinoma in Young Adult

Youyan Guan

2. Survival risk factors in T1G3 non-muscle-invasive (NMI) bladder cancer conservatively treated. Long term results

Serretta Vincenzo

3. Clinical applications of virtual endoscopy endoscopy based on spiral CT scan in bladder tumors

Xin Xie

4. Clinical analysis of transrectal ultrasound guided needle biopsies of the prostate in 540 patients

Xingfa Chen

5. The accuracy of Partin tables derived from United States to predict pathological features of Chinese prostate cancer

Xu Gao

6. The expression of PCA3 mRNA in urine sediments obtained after prostatic massage of patients with prostate cancer

Guangxiang Liu

7. Understanding Chinese Patient Attitudes Towards BPH and BPH Treatment: Results From Phelp2006 Study

Wei Wang

8. Risk Factors of Recurrence after Transurethral Resection of the Prostate due to Benign Prostate Hyperplasia

Qiang Wei

9. Safety and Efficacy of PKRP and TURP in the treatment of BPH: A Systemic Review

Yiping Lu

10. Transurethral bipolar plasmakinetic resection of prostate in treatment of benign prostatic hyperplasia: A Report of 1500 cases

Jiansong Wang

11. Incidence of Urethral Stricture After TVP or PVP for the Treatment of BPH

Dongrong Yang

12. 2 micron continuous wave laser vaporesction for treatment of large volume benign prostatic hyperplasia

Yong Yang

13. The dentate line of anal canal: the significant anatomic label in pain of apical prostate biopsy

Yinghao Sun

14. The antibacterial activity of human seminal plasma and the low-molecular-mass antibacterial peptides from human seminal plasma

Hong Li

15. The prevalence of chronic prostatitis-like symptoms in China

Chaozhao Liang

Session 6: Transplantation

08:00 – 12:09 13:00 – 17:30

Kunming International Convention & Exhibition Center 3F: Conference Hall 3

Session 7: Chinese – Canadian / Chinese – Italian Session

08:00 – 12:00 14:00 – 17:00

Kunming International Convention & Exhibition Center 3F: Conference Hall 2

08:30 – 08:40 Opening

Moderator: Dr. Zhong Chen

Speaker: Dr. Zhangqun Ye

08:40 – 10:10 En Session (I)

Moderator: Dr. Joseph Chin, Dr. Francesco Rocco, Dr. Liping Xie, Dr. Vincenzo Serretta

1. Targeted Cryoblation of the prostate cancer

University of Trieste, Italy

Dr. Franco Lugnani

2. Prostate capsule sparing cystectomy and neobladder

University of Toronto, Canada

Dr. Laurence Klotz

3. HI-FU treatment in prostate cancer

University of Palermo, Italy

Dr. Darwin Melloni

4. GSK-3 determination of cellular fate under starvation

University of Kansas Medical Center, America

Dr. Benyi Li

5. Microwave ablation in renal tumor (16 cases report)

Huazhong University of Science and Technology, China

Dr. Zhiquan Hu

10:10 – 10:30

Coffee Break

10:30 – 12:00

En Session (II)

Moderator: Dr. Darwin Melloni, Dr. Laurence Klotz, Dr. Roberto Ponchietti, Dr. Zhaohui Zhong

1. Surgical aspects of kidney transplantation: the older donors

Urology at the University of Bari, Italy

Dr. Michele Battaglia

2. Midurethral tapes for stress urinary incontinence

Dalhousie University, Canada

Dr. Jerzy Gajewski

3. Treatment Options after Radiation Failure for Localized Prostate Cancer

University of Western Ontario, Canada

Dr. Joseph Chin

4. Non-bacterial prostatitis in mouse induced by stimuli of long-term passive sexual abstinence

Central South University, China

Dr. Xiaokun Zhao

5. Extracorporeal Shock Wave Therapy for Chronic Pelvic Pain Syndrome (Report of 186 cases)

Urology Department of Macau University Hospital, China

Session 7: Chinese – Japanese Session

14:00 – 17:00

Kunming International Convention & Exhibition Center 3F: Conference Hall 2

14:00 -14:10

Opening

Chinese – Japanese Urological Association

Chinese representative: Yanqun Na, Peking University

Japanese representative: Hiromi Kumon, Okayama University

14:10 – 15:10

Moderators:

China: Jian Huang, Sun Yat-Sen University

Japan: Yasutomo Nasu, Okayama University

Presentations:

1. Optimum Approach for Prostate Cancer Detection as an Initial Biopsy: A Prospective Randomized Study Comparing Transperineal versus Transrectal Systematic 12-Core Biopsy.

RYOEI HARA

Kawasaki Medical School, Japan

2. Nadir PSA predicts androgen-independent progression after endocrine therapy in men with metastatic PCA.

Yang Bo

Department of Urology, Changhai Hospital, Shanghai, China

3. Beneficial effects of neoadjuvant hormonal therapy prior to radical prostatectomy in patients with clinically localized prostate cancer

Jun Qiu

Department of Urology, Hyogo College of Medicine

4. Hormonal therapy combined with surgery in the management of prostate cancer.

Ming Cai

Department of Urology, Shanghai Renji Hospital, Shanghai, China

5. Prostate cancer mortality and the predictive value of PSA: a prospective cohort study of 231,937 adult male in Taiwan.

Fang-shun Lin

Department of Urology, pathology Mennonite Christian Hospital & Center for health policy Research and Development, National Health Research Institutes Taiwan

6. Clinical outcome in patients with locally and locally advanced prostate cancer treated with high-dose-rate brachytherapy.

Yoshimasa Jo

Kawasaki Medical School, Japan

15:10 – 16:10 7-minute presentations, 3-minute discussions
Moderators:

China: Xianghua Zhang, Peking University

Japan: Toyoaki Uchida, Tokai University

Presentations:

1. SALVAGE HIGH-INTENSITY FOCUSED ULTRASOUND IN PATIENTS WITH RECURRENCE AFTER RADIATION THERAPY.

Toyoaki Uchida

Tokai University Hachioji Hospital, Japan

2. Clinicopathological study of prostate cancer in Mennonite Christian Hospital: statistical analysis of 97 cases in the past 9 years – preliminary report.

Fang-shu Lin

Department of Urology, Mennonite Christian Hospital, Taiwan

3. A Clinical study of 290 patients with prostate cancer

Jiaju Lv

Provincial Hospital affiliated to Shandong University, China.

4. Natural history of lower urinary tract symptoms after radical retropubic prostatectomy: A comparison with the urination status of elderly women.

Xiu-Xian Wu

Faculty of Medicine, Kagawa University, Japan

5. The Diagnosis and Surgical Treatment of Primary Bladder

Neck Obstruction in Women.

Kexin XU

Department of Urology, Peking University People's Hospital, China

6. Percutaneous Nephrolithotomy in Semisupine Position.

Kewei Xu, Jian Huang

Department of Urology, The Second Affiliated Hospital, Sun Yat-sen University, China

16:10 – 16:50

7-minute presentations, 3-minute discussions
Moderators:

China: Jianbin Bi, China Medical University

Japan: Atsushi Nagai, Kawasaki Medical School

Presentations:

1. Direct and distant antitumor effects of a telomerase-selective oncolytic adenoviral agent, OBP-301, in a mouse prostate cancer model.

P Huang

Department of Urology, Center for Gene and Cell Therapy, Okayama University, Japan.

2. ER stress caused by immunosuppressant is involved in inflammatory reaction-a novel mechanism for immunosuppression?

Shuqi Du

Department of Urology, The First Affiliated Hospital, China Medical University, China

3. Aberrant methylation of the tumor suppressor gene DLC1 in the early pathogenic stage of renal cell carcinoma.

Qian Zhang

Department of Urology, Peking University First Hospital, China

4. The prognostic study of T1G3 bladder cancer and the establishment of prognostic evaluation system.

Xiaoqiang Liu, Guang Sun

Department of Urology, The Second Affiliated Hospital, Tianjin Medical University, China

16:50-17:00

7-minute presentations, 3-minute discussions
Closing speech

Hiromi Kumon, Okayama University

Japanese representative, Chinese-Japanese Urological
Association
